CHAPTER FOUR SPECIAL ORDERS - MEMORANDUMS

ACKNOWLEDGEMENT

MILLE LACS BAND POLICE DEPARTMENT OPERATIONS MANUAL

INTRODUCTION

To achieve true success, a police department must attain and retain the confidence and respect of the community it serves. Mille Lacs Band Law Enforcement Officers must work together, striving towards the same objectives in order for us to achieve that success. This goal can be accomplished by the commitment on the part of all our members to perform their duties and conduct themselves in a manner that shows the community that the Mille Lacs Band Police Department is an important part to the well-being of the community.

This can be accomplished through policies and procedures with which Officers shall abide without question. Law Enforcement agencies have departmental policies and procedures to ensure success of the organization. The accomplishment of the department depends on the cooperation of all employees to comply with them.

Policies and procedures cannot be precise and exact in every detail; however, Officers have to be exact in their actions. These are basic guidelines that Officers must follow to the best of their ability. Officers must use good judgment and common sense during the performance of their duties.

In order to perform their duties properly, Officers must abide by the Law Enforcement Code of Ethics and the policies and procedures of the Mille Lacs Band Police Department.

This Operations Manual has been divided into the following chapters:

CHAPTER 1: POLICY STATEMENTS

These statements consist of principles and values, which guide the performance Law Enforcement services to the community. They are broad in nature to accommodate Officer discretion.

CHAPTER 2: POSITION DESCRIPTIONS

This chapter provides descriptions of current departmental positions. The descriptions establish performance standards, define lines of authority and make each employee aware of the importance of their position within the organization.

CHAPTER 3: GENERAL ORDERS AND PROCEDURES

This chapter defines methods of operation and procedures for performing law enforcement duties.

CHAPTER 4: SPECIAL ORDERS - MEMORANDA

Special Orders or memoranda address specific activities or procedures. Special Orders or memoranda may be in effect for only a specified period of time and may replace or supplement previously issued General Orders. If a conflict arises between Special Orders and existing General Orders, memoranda or past practices, the authority of the Special Orders shall prevail. Employees are encouraged to keep other memoranda or directives related to their shift, assignment or position.

Law Enforcement agencies are complex and dynamic organizations, which provide services to an ever-changing society. A manual or set of regulations may not adequately cover all aspects of police duties. Other authorities strongly influence and impact Law Enforcement operations such as federal, tribal, state and local laws and court decisions.

Considering these influences, Law Enforcement's role in the criminal justice system must be routinely reexamined. If necessary, policies, procedures, rule and regulations will be modified. All employees within the department are encouraged to offer suggestions for improvement.

CHAPTER 1

POLICY STATEMENTS

SECTION 100: GENERAL PROVISIONS

100.1 GLOSSARY

1. POLICY

Policy guides the performance of a Police Department. Policy is a guiding principle, which should be followed in order to attain the Police Department's objectives.

Policy is formulated by analyzing objectives and determining the most appropriate course of action for the Police Department in achieving its objectives. Policy is based upon Officer ethics and experience, the expectations of the community and the mandate of the law.

Policy is objective, rather than situation oriented, so it can encompass most situations. Policy is stated in general terms to recognize Officer discretion.

2. VALUE

A value is a weight accorded to the quality of performance or accomplishment. Values are the basis for the determination of objectives and may be both ethical and functional.

3. OBJECTIVE

An objective is a specific and definable desired end for which effort is expended and which, if attained, fulfills the purposes of the Police Department.

4. GOAL

A goal is a general ideal toward which all Police Department's efforts are directed.

5. PRINCIPLE

A principle is a concept based on logical deduction, evaluation and experience. Principles assist in the exercise of Officer judgment in an on duty-related or off-duty situation.

6. PROCEDURE

A procedure is a method of performing operations. It directs how to perform a specific task in a particular situation. Both policies and procedures are objective oriented, but policy establishes limits of action while procedure directs a specific response within those limits.

7. RULE / ORDER / GENERAL ORDER / SPECIAL ORDER

A rule or order is a specific requirement or prohibition of action. Deviation from or violation of rules or orders generally requires immediate and documented justification and explanation.

SECTION 101: OBJECTIVES

101.1 MOTTO OF THE DEPARTMENT

"Serving the People" is the principal upon which the Police Department rests signifying its ability to perform in an efficient, effective and professional manner.

101.2 PRIMARY OBJECTIVE

The primary objective of the Mille Lacs Band Police Department is to keep its jurisdiction free from crime and disorder. Officers must enforce the law in a fair and impartial manner, recognizing the statutory and judicial limitations of the Officer's authority and the constitutional rights of all persons. The Police Department does not legislate, render legal judgments or punish.

101.3 FUNCTIONAL OBJECTIVES

1. PREVENTION OF CRIME

Peace is compliance with the law. People are responsible for following the law. Crime prevention is the concern of everyone. Law Enforcement Officers prevent crime, deter it and when that fails, apprehend those who violate the law. The department is responsible for interacting with the community to generate a mutual partnership in crime prevention.

2. DETERRENCE OF CRIME

Some crimes cannot be stopped but some crimes committed against property and victims in public places are reduced by Law Enforcement presence because a criminal fears immediate apprehension or the increased likelihood of his detection. The Police Department must deter crime and inspire public confidence in its ability to keep the peace.

3. APPREHENSION OF OFFENDERS

The administration of criminal justice consists of the identification, arrest, prosecution, punishment and rehabilitation of a law violator. Once a crime has been reported, it is the duty of the Police Department to initiate the criminal justice process by identifying and arresting the perpetrator, by obtaining necessary evidence and cooperating in the prosecution of the case. Swift and sure punishment serves as an effective deterrent to crime. The Police Department must diligently strive to solve crimes and bring perpetrators to justice.

4. RECOVERY AND RETURN OF PROPERTY

Actual costs of crime are difficult to measure. There cannot be monetary value placed on broken bodies, ruined lives and human suffering. It is possible, however, to ascertain the costs of lost and stolen property. Costs of crime are ultimately borne by its victims. To minimize these losses, the Police Department makes every reasonable effort to recover lost or stolen property, to identify its owners and ensure its prompt return.

5. MOVEMENT OF TRAFFIC

To facilitate the safe and expeditious movement of vehicular and pedestrian traffic, the Police Department must enforce traffic laws; investigate traffic accidents and direct traffic. To enforce traffic laws and develop driver awareness of the causes of traffic accidents, Officers warn, cite and arrest traffic law violators. Certain traffic accidents are investigated to care for the injured and to determine the causes of accidents so that methods of prevention may be developed and to protect the rights of the involved parties. When a traffic law violation is discovered, evidence must be gathered to prosecute the violator. When necessary, the Police Department provides direction for vehicular and pedestrian traffic and information to the public to assist them in arriving safely at their destination.

6. PUBLIC SERVICE

The community relies on the Police Department for assistance and advice in many routine and emergency situations. Officers regularly respond to incidents where a crime has not been committed. To assure the peace and safety of all persons, Officers may respond to calls for service and render aid or advice as necessary. Services may culminate in a coordinated effort with fire, rescue, ambulance and other appropriate public safety agencies.

101.4 RESOURCE OBJECTIVES

1. POLICE DEPARTMENT PERSONNEL

Officers frequently make difficult decisions that affect human life and liberty. There may be no opportunity to seek advice and little time for reflection. An Officer must have the stamina, intelligence, moral courage and emotional stability to fairly and impartially deal with people in complicated and potentially explosive situations. To provide professional Law Enforcement, the Police Department needs to recruit and select Officers with different levels of experience. The Police Department must strive to maintain and perfect the quality of its Officers through education and promotion of the most qualified. The selection and training process will be conducted in accordance with POST mandated standards and Police Department regulations.

2. UTILIZATION OF RESOURCES

The quality and extent of Law Enforcement services are limited by resources available to the Tribal government. The Police Department shall use the most efficient management and budgeting techniques available. Every employee is responsible for using resources as carefully and economically as possible.

SECTION 102: PERSONAL CONDUCT (Supplemented by General Orders 300.0 & 301.0.)

102.1 LAW ENFORCEMENT CODE OF ETHICS

The Law Enforcement code of ethics is a general guideline of conduct for Officers of the Mille Lacs Band Police Department. All employees of the Police Department shall follow the rules, regulations and policies of the Police Department and the Band's Personnel Policy Manual that govern conduct. If there is a conflict between the Police Department policies and the General Band Personnel policies, the Police Department Policies shall govern.

An Officer's fundamental duty is to serve humankind; to safeguard lives and property, to protect the innocent against deception, the weak against oppression or intimidation, and the peaceful against violence or disorder; and to respect the Constitutional rights of all.

Officer's personal lives should be unsullied as an example to all. To be honest in thought and deed in both our personal and official lives, we must be exemplary in obeying the laws of the land and regulations of our department.

Officers should not permit personal feelings; prejudices, animosities or friendships influence our decisions. Officers must maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Officers must enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and or accepting gratuities.

102.2 LOYALTY

An Officer's duty is to serve society. Police officers must make difficult decisions. He must exercise discretion in situations where an Officer's rights and liabilities and those of the Police Department depend upon his conduct and judgment. A Police Officer's decisions may involve a choice, which can cause him hardship or discomfort. A Police Officer must uphold their oath of office, the principles of Law Enforcement and the objectives of the Police Department. An Officer must not allow personal motives to govern their decisions and conduct.

102.3 CONDUCT UNBECOMING AN OFFICER

An Officer is a representative of government and a symbol of stability and authority. An Officer's conduct is closely scrutinized. Since the conduct of any Officer or civilian employee, on or off-duty, reflects upon the Police Department, all members of the department must conduct themselves in a manner which does not bring discredit to themselves, the Police Department, the Mille Lacs Band of Ojibwe Indians or the Law Enforcement profession.

102.4 RESPECT FOR CONSTITUTIONAL RIGHTS

A person cannot be deprived of constitutional rights because they are suspected of committing a crime. Courts determine the constitutionality of a Statute, not Officers who seek to properly enforce the law, as it exists. Officers may enforce Federal, State or Band Statutes without fear of abrogating a person's constitutional rights. An Officer who lawfully acts within the scope of his duty does not deprive persons of their civil liberties. An Officer may make reasonable inquiries; conduct investigations and arrest with probable cause. When Officers exceed their scope of duty, however, through unreasonable conduct, they violate the sanctity of the law, which they are sworn to uphold.

102.5 USE OF FORCE

Officers confront situations where they must exercise control to make arrests and protect the public safety. Control may be achieved through advice, warnings and persuasion or by the use of physical force. The use of reasonable physical force may be necessary in some situations, which cannot be otherwise controlled. Officers may resort to force only when other available alternatives have been exhausted or would clearly be ineffective under the circumstances. Force is properly applied when it is reasonable and necessary to protect others or themselves from bodily harm and consistent with applicable Federal, State and Band Statutes and General Order 323.0.

102.6 INTEGRITY

Integrity of Law Enforcement personnel will be above reproach. The dishonesty of a single Police Department's member may impair public confidence and cast suspicion upon the entire Department. Succumbing to even minor temptation may contribute to erosion of public confidence. Police Department employees must scrupulously avoid any conduct which might compromise their integrity, their fellow Officers' or the Police Department. Officers are obligated to report the dishonesty of others.

1. GRATUITIES

A member of the Police Department shall not accept gifts, rewards, gratuities or other benefits when such benefit is granted, whether fully or partially, as a result of their employment. No member of the Department shall offer or give gifts, gratuities or special privileges to any other person or agency in expectation of special benefit to the member or the Police Department.

2. SOLICITATIONS

No employee of the Police Department shall solicit any form of benefit for themselves, the Police Department, the Mille Lacs Band of Ojibwe Indians or any other organization, from any person, group or firm, when the benefit is secured as a result of their employment.

102.7 COURTESY

Effective Law Enforcement depends on a high degree of cooperation between the Police Department, the public and other public agencies. Courtesy encourages understanding and appreciation while discourtesy breeds contempt and resistance. Most people are law-abiding and expect fair and courteous treatment by Police Department employees. While the urgency of a situation might preclude the ordinary social amenities, discourtesy under any circumstances is indefensible. An Officer's courtesy is not a sign of weakness, but rather of firmness and impartiality that characterizes professionalism.

102.8 COMPLIANCE WITH LAWFUL ORDERS

The Police Department is an organization with a clearly defined chain of command. Proper performance in the chain of authority displays a willingness to serve and may be recognized and rewarded. If there is a willful disregard of orders, commands, directives or policies, retraining of personnel or disciplinary action may be necessary.

102.9 USE OF INTOXICANTS

Law Enforcement requires an employee to be mentally alert and physically responsive. When the community encounters an employee of the Police Department who appears intoxicated, there is an immediate decrease in public confidence. An Officer must not consume intoxicants to such a degree that it impairs their on-duty performance or discredits the Department. Except as necessary in the performance of an official assignment, the consumption of intoxicants is prohibited while an employee is on duty.

102.10 ATTENTION TO DUTY

Because most rural officers perform without close supervision, Officers themselves are responsible for the proper performance of their duties. An Officer is responsible for the safety of the community and fellow Officers. Officers discharge that responsibility by the faithful and diligent performance of their duty. Anything less violates the trust placed in them by the community and will not be tolerated.

102.11 FINANCIAL OBLIGATIONS

Financial distress may impair an employee's effectiveness and discredits the Police Department. Employees should avoid incurring financial obligations that are beyond their ability to reasonably satisfy from their earnings.

102.12 REFUSAL TO WORK

An Officer's commitment to public service and professional ethics precludes engaging in labor strikes or similar concerted activities. Officers do not have the right to strike or engage in any work stoppage or slowdown. This Police Department will seek the termination of an employee who plans to or engages in any such strike, work stoppage or slow-down.

102.13 EMPLOYEE GRIEVANCES

A Police Department employee has a right of review of a complaint relating to their employment. No formal or informal actions shall be taken by the Police Department, however, if a grievance is only filed pursuant to the Mille Lacs Band's Personnel Policy Manual.

102.14 COMMENDATIONS

A high level of professionalism is always expected of all employees. When an Officer's performance exceeds standards of the Department, an official commendation may be awarded to recognize those who have brought honor to themselves and the Police Department.

102.15 DISCIPLINE

The Police Department has the responsibility to seek out and discipline employees whose conduct discredits the Police Department or impairs its effective operation.

102.16 RELIGIOUS ACTIVITY

The First Amendment to the Constitution guarantees the right of all citizens to freedom of religious belief or non-belief and precludes governmental intervention in religious matters. Employees of the Police Department, in their official capacities, shall act in a non-sectarian manner. Employees must conduct themselves in a manner that neither favors nor illegally restricts any particular religious belief while acting in an official capacity. This section does not intend to restrict an employee's freedom of personal belief, but to insure that employees, while functioning in an official capacity, do not manifest their beliefs in a manner that interferes with the rights of other citizens.

102.17 RESPONSIBILITY OF ON-DUTY OFFICERS

On-duty Officers within reservation boundaries, after considering the tactical situation, are to take steps as reasonably necessary and consistent with their assignment to protect life and property, to effect the enforcement the laws of the Band, county, state and nation, to serve the public.

On-duty Officers who are outside the reservation boundaries who become aware of a situation requiring Officer response, must first consider the tactical situation and mutual aid agreements, then take steps as reasonably necessary to carry out the Band's responsibilities under the mutual aid agreement. On-duty Officers outside the reservation who are not acting within the scope of their employment as Officers on matters of direct concern to the Band are to give first consideration to the tactical situation and of their personal liability and that of the Band.

102.18 RESPONSIBILITY OF OFF-DUTY OFFICERS

Under current Minnesota law, both on and off-duty Officers have peace Officer authority as to any public offense committed or which there is probable cause to believe has been committed in their employing jurisdiction with respect to which there is immediate danger to person or property or the escape of the perpetrator of the offense. Off-duty Officers, on and off reservation, must first consider the tactical situation and then the liability of themselves and the Band.

102.19 NO PEACE OFFICER AUTHORITY OUTSIDE OF MINNESOTA

Powers of Mille Lacs Band Peace Officers do not extend beyond Minnesota except as provided for in the Uniform Act of Fresh Pursuit and Minnesota Statutes. Officers who are outside the boundaries of the state, county or reservation for extradition or other matters of direct concern to the Band, shall not engage in Law Enforcement activities, unless necessary in the performance of their duties as an Officer of the Band, or when called upon to assist another Law Enforcement agency or when necessary to protect the life of any person.

SECTION 103: LAW ENFORCEMENT - COMMUNITY INTERACTION

103.1 GENERAL PROVISIONS

Good community relations and positive interactions between people and Officers promote unity, common purpose and a climate where Officers may perform their duties with public acceptance, understanding and approval.

103.2 INDIVIDUAL DIGNITY

All persons are subject to the law and have a right to be treated with dignity under the law. The Police Department has a duty to protect this right. Officers must treat a person with respect as a duty inherent in an Officer's primary responsibilities.

103.3 ROLE OF THE INDIVIDUAL OFFICER

Community relations are strengthened by interaction between Officers and citizens. These interactions inspire respect in the Officer and the community that will generate the cooperation and approval by the community.

103.4 EQUALITY OF ENFORCEMENT

In order to respond to Law Enforcement needs on a diverse reservation, policies should be formulated on a reservation -wide basis and applied uniformly. Law should be enforced evenhandedly. Similar circumstances require similar treatment in all areas of the reservation and for all groups and individuals.

103.5 RESPONSIVENESS TO THE COMMUNITY

The Police Department must be responsive to the needs and problems of the Reservation. The Police Department must demonstrate a willingness to listen and a genuine concern for the problems of the community in all three districts.

103.6 OPENNESS OF OPERATION

The Police Department may disseminate accurate and factual accounts of occurrences and other matters of public interest to the extent such disclosure will not violate the Minnesota Data Practices Act, individual rights or the need for confidentiality.

103.7 INTERPERSONAL COMMUNICATIONS

Interpersonal communications between the community and the Police Department promote understanding and cooperation. Where there may be a language barrier, an Officer may need additional patience and understanding in dealing with what might otherwise appear to be lack of response.

SECTION 104: COMMUNITY AFFAIRS

104.1 NEWS MEDIA RELATIONS

This Police Department seeks to establish a cooperative climate with the news media. Certain information, however, must be withheld from the media in order to protect the constitutional rights of an accused, to protect an ongoing investigation or because it is legally privileged. When a representative of the news media is denied access to certain information, they shall be given a courteous explanation of the reasons for such denial.

104.2 LABOR DISPUTES AND DEMONSTRATIONS

1. OFFICER'S ROLE

If a labor dispute or demonstration occurs within the Mille Lacs Tribal jurisdiction, the Police Department must protect the rights of the public by enforcing the law and by maintaining order.

2. NECESSITY OF OFFICER'S IMPARTIALITY

The effectiveness of the Police Department in any labor dispute and demonstration is displayed impartiality regarding the parties and issues involved and by taking appropriate action when illegal acts are observed or reported.

3. NECESSITY OF ENFORCEMENT OF LAWS

The Police Department should attempt to inform both parties of a labor dispute or demonstration about the laws on the use of public areas and roadways, free access to public places and the right of persons to enter and leave private premises without interference. Cooperation of both parties to comply with the law will minimize illegal acts. If an illegal act occurs, the Police Department will take prompt and impartial Law Enforcement actions.

104.3 LIAISON WITH CRIMINAL JUSTICE SYSTEM

1. COOPERATION WITH OTHER LAW ENFORCEMENT AGENCIES

The Police Department maintains close working relationships with other Law Enforcement agencies and shares information about techniques and procedures developed or used by the Police Department.

2. PROFESSIONAL ASSOCIATIONS

To preserve and promote the Mille Lacs Band Police Department as a professional Law Enforcement agency, employees may become members in or affiliated with local, regional, state, Tribal or national criminal justice or Law Enforcement organizations to the extent permissible under the Band's personnel policies.

SECTION 105: LAW ENFORCEMENT OPERATIONS

105.1 NATURE OF THE TASK-OFFICER DISCRETION

Decisions in Law Enforcement operations frequently must be made in an instant and the lives of Officers and others may depend on those decisions. An Officer must be capable of making a reasonable response in both cases. Officers must base their conduct and action in each instance upon the facts as they reasonably appear, relying upon their experience, training and judgment to guide them toward reasonable and lawful decisions and actions.

105.2 POLICE ACTION BASED ON LEGAL JUSTIFICATION

Reasonableness of police action or facts constituting probable cause varies with each situation. The facts may justify an investigation, a detention, a search, an arrest or no action at all. The requirement for legal justification imposes limitations on an Officer. In every case, an Officer must act reasonably within the limits of their authority as defined by Statute and judicial interpretation, thereby ensuring that the rights of both the individual and the public are protected.

105.3 SPEED ENFORCEMENT

Traffic enforcement, particularly speed enforcement, must allow for Officer discretion within reasonable limits. This Police Department follows the rules of good judgment, common sense and discretion, considering all factors existing at the particular time and place of the offense.

105.4 ALTERNATIVES TO PHYSICAL ARREST, BOOKING OR CONTINUED DETENTION

Once a violator is identified, Officers initiate the criminal process. Sometimes an Officer may not make an arrest. There may be a report written and a summons issued, an application for a complaint made, or in some cases when the offense is of a minor nature, a verbal warning or other direction may be given. A decision not to arrest will be guided by the Police Department policy and the particular factual situation, not by the personal feelings of the Officer.

An arrest does not necessarily require a booking and a booking does not necessarily require continued detention. When the circumstances allow, an arrestee should be released without being booked and, if booked, should be released from further detention when warranted.

105.5 CALLS FOR SERVICE

1. PROFESSIONAL STANDARD OF SERVICE

The Police Department cannot be aware of each situation on the Reservation where they are needed. Officers depend on the community for information. The community expects Officers to respond to requests for police service within a reasonable period of time and to satisfactorily perform the necessary service. The extent of the service will depend on the particular situation, but a professional quality of service must be rendered in all cases.

2. PRIORITY OF HANDLING CALLS FOR SERVICE

It is not always possible for the Police Department to respond to every call for service. The Police Department must use available resources to give the highest level of efficient service possible. Priority of call assignment depends on many factors and it is normally the responsibility of staff personnel to make such assignments. An Officer in the field may be required to decide whether to continue on an assigned call or handle a citizen's complaint or other observed event and cause the call to be reassigned. In any event, a supervisor may override the decision of an Officer. Such determination should be based upon the comparative urgency and the risk of life and property of the assigned call and the intervening incident. When it is impossible for an Officer to handle a citizen's complaint or an observed event, the Officer should, if circumstances permit, either give directions for obtaining such assistance or initiate the necessary notifications themselves.

3. GOOD JUDGMENT/DISCRETION

It is understood that Officers may use discretion when handling calls for service. Discretion may be limited due to the nature of the call. Officers will use good judgment in those cases where discretion is utilized and an arrest/citation is not made or issued. If it is found that good judgment was not utilized, Officers will be in violation of this policy.

105.6 SCOPE OF PRELIMINARY INVESTIGATION

The scope of preliminary investigation may be very restricted or it may constitute the entire investigation of the crime. For instance, the scope may be limited by an Officer's assigned workload. An Officer should continue a preliminary investigation to the point where a delay in an investigation caused by the report being processed would not materially jeopardize the investigation.

105.7 CIVIL DISPUTES

Officers are frequently called to a scene where no crime has been committed. The presence of Officers at such scenes is primarily to preserve the peace and to prevent a crime from occurring, not give legal advice. Officers should avoid become unnecessarily involved in civil disputes and, if appropriate, advise the parties to seek the advice of legal counsel.

105.8 FIELD SUPERVISION

Since emergency situations occur without warning, and duration is often brief, Officers must frequently make critical decisions without the benefit of on-the-scene direction. In most of these operations, however, supervision is available and necessary to provide guidance and training. Supervision gives coherence to the Officer's task and directs the energies of the department into an organized effort. Proper supervision is essential to maintain a professional level of competence in Law Enforcement operations. When a supervisor arrives on-scene he assumes the responsibility of ensuring the call is handled in a thorough and professional manner. A supervisor may coordinate and direct the activities of all officers at the scene until call completion or relieved by a higher ranking officer.

105.9 COMMAND RESPONSIBILITY AT LAW ENFORCEMENT SITUATIONS

Except as otherwise provided in policy, command of the Police Department's resources in a Law Enforcement situation rests with the primary officer or a supervisor, if the Primary Officer is relieved. The Primary Officer has the authority to direct the operation and is responsible for the outcome if there is no supervisor on-scene.

105.10 CRIME SCENE SUPERVISION

Except as provided elsewhere in this policy, the Primary Officer on the scene is in charge of a crime scene unless relieved of the responsibility by an assigned investigator or supervisory personnel.

105.11 FOLLOW UP INVESTIGATION

1. INVESTIGATION OF REPORTED CRIMES

Follow up investigation consists of efforts to interview victims and witnesses; locate, identify, and preserve physical evidence; recover stolen property; identify, locate, interview and arrest suspects; present the case to the prosecutor and cooperate in the prosecution of the suspect. Investigations are conducted to produce evidence relative to the guilt or innocence of any suspect and recover property.

2. ALLOCATION OF RESOURCES TO FOLLOW UP INVESTIGATIONS

It may not be feasible to expend equal time and energy in the investigation of all reported crimes. Priority of investigations and allocation of resources must be based upon the relative seriousness of each reported crime. Reported crimes will be investigated to the fullest extent possible without regard to the status of victims or the areas of the reservation in which the crimes occur.

105.13 CONDUCT OF UNDERCOVER OFFICERS

In order to obtain information and evidence regarding criminal activities, it may be necessary for the Department to use undercover personnel. Such personnel shall not engage in entrapment.

105.14 ELECTRONIC SURVEILLANCE

Federal, Band and State laws and the United States Constitution protect the individual's right of privacy and right not to be subjected to unreasonable searches and seizures. Electronic surveillance equipment shall only be used in a manner consistent with the law and at the direction of a supervisor.

105.15 IMPENDING RIOT OR MAJOR DISTURBANCE

When a situation may escalate into a riot, Officers must establish control of the situation by reacting quickly and committing sufficient resources to control the situation. Control should be

established in all parts of the involved area so that there are no areas into which the Police Department cannot go. Law violators must be arrested and their prosecution sought. Finally, the Police Department must remain in the affected area with adequate personnel and equipment for a sufficient period of time after order is restored to convince all concerned that additional outbreaks will not be tolerated.

105.16 DEMONSTRATIONS

The Police Department will reasonably provide any resources needed to protect the rights of any person or group to conduct a peaceful and lawful demonstration within the reservation in accordance to Band law. Unlawful activity requires prompt and effective action by the Police Department. The Police Department will take appropriate legal steps to discourage unlawful acts.

105.17 USE OF FORCE

In no instance shall an Officer use force other than that necessary to lawfully and properly neutralize an unlawful assault or more than that which is necessary to overcome resistance by a person being taken into custody. In each instance, lawful and proper force is restricted to only that force necessary to control and terminate unlawful resistance and to prevent any further physical attack against the police Officer or any other persons.

105.18 USE OF FIREARMS

As long as Officers, in the performance of their duties, may be confronted with deadly force, it is necessary for an Officer to be properly armed for the protection of society and themselves. The general policy of the Police Department regarding the use of firearms or other deadly force by Officers, on or off duty, is that Officers will discharge their weapon at another person only when they are legally justified.

105.19 POLICE VEHICLES

Employees shall drive Band-owned vehicles in a lawful and proper manner at all times with due regard for the safety of all persons and good condition of the vehicle. Officers shall consider the risks to the public and themselves in any high-speed pursuit, the nature of the offense for which a subject is being pursued, the danger to the public if the subject is not apprehended and possible alternative methods of apprehension.

Good judgment and common sense shall be used in every vehicle pursuit engaged in by members of the Police Department. Pursuits of known dangerous persons will generally allow Officers to drive at higher speeds however; higher speeds pose higher risks of loss of vehicle control and an accident. Supervisors have the authority to terminate a pursuit at any time. Each instance must

be considered separately and successful apprehension of a subject must be weighed against the real and present danger involved in a high-speed pursuit.

Officers shall not attempt to deliberately collide with other vehicles or to use the police vehicle to force any other vehicle off a roadway. The only exception to this policy occurs when an Officer is in pursuit of known and extremely dangerous felons who, if allowed to escape, would create a substantial risk of a person being killed or seriously injured.

105.20 USE OF CHEMICAL MUNITIONS

To minimize injury to suspects, Officers and others and to avoid property damage, the use of chemical munitions such as tear gas is allowed only in circumstances where a serious danger to life and property exists and other methods of control or apprehension would be ineffective or more dangerous.

105.21 HOSTAGES

Criminals who use hostages to aid their escape are desperate individuals who, if allowed to escape, will pose a continuing threat to their hostage(s) and the public. Assurance that a hostage will be released unharmed is a meaningless promise. The Police Department does not have the ability to protect the safety of a hostage who are removed from the presence of Officers. The safety of hostages can be best assured by keeping them in the presence of Officers and by preventing the suspect from removing them. Officers should use every verbal and tactical tool at their disposal to secure the arrest of the suspect without harming the hostage. Exceptional situations could arise where good judgment dictates allowing removal of a hostage, such as where there is imminent probable danger to a large group of persons.

105.22 OFFICERS SURRENDERING WEAPONS

Officers may find themselves at the mercy of an armed suspect who has an advantage. A suspect who has surrendered his weapon upon demand does not reduce the danger to an Officer. Surrendering their weapon may mean giving away their only chance of survival. Officers should not surrender their weapon(s) except as a last resort when, in their judgment; they believe that the act of giving up the weapon will save their life or the lives of others.

105.23 BARRICADED SUSPECTS

1. TACTICAL PLAN

A barricaded suspect poses an extreme danger to Officers who seek to arrest him and others. Good judgment demands that a tactical plan be developed rather than immediately rushing a barricaded suspect.

Upon contact with a barricaded suspect, that immediate area should be cordoned off to seal avenues of escape. Bystanders must be evacuated from the area. A command post should be established from which operations would be directed upwind from target location. A traffic control perimeter should be established to control traffic in the area. Attempts to establish communication with the barricaded subject should be made in an effort to persuade the subject to surrender.

Every possible attempt shall be made to persuade the subject to surrender. Once the subject is isolated, time is to the benefit of the Officers and the full resources of the Police Department are available to remove the subject from the location if necessary. The Police Department Use of Force Policy shall be strictly followed and random firing is prohibited.

2. SUPERVISION AT SCENE OF BARRICADED SUBJECT

In situations that develop from radio calls or spontaneous activities, the Primary Officer on the scene is in command and shall immediately have dispatch notify the Chief of Police or the Supervisor who, upon arrival, shall assume command.

When a suspect is located as a result of a follow-up investigation, the Primary Officer based on rank at the scene is in command and shall immediately have dispatch notify the Chief of Police or Supervisor who shall assume command upon arrival. After the arrival of the Chief of Police or the Supervisor, the steps outlined in the section above shall be followed.

105.24 DEPLOYMENT IN ANTICIPATION OF THE COMMISSION OF A CRIME

The purpose of deploying Officers to the scene of an anticipated crime is to arrest the perpetrator of the attempted or consummated crime. Since the objective to arrest is subordinate to the protection of life, however, Officers should not subject themselves or other persons to unreasonable risk.

105.25 TRAFFIC ENFORCEMENT

1. OBJECTIVES

The traffic enforcement objectives are to reduce traffic accidents and injuries and facilitates the safe and expeditious flow of vehicular and pedestrian traffic. This can be achieved by education and enforcement.

The Police Department seeks to educate the public regarding traffic regulations through programs aimed at exposing specific problems and by giving notice and warnings of changes in regulations prior to taking enforcement action.

The Police Department will take enforcement action upon the detections of an illegal and potentially hazardous driving offense without regard for such factors as attitude, intent or frivolous excuse. Enforcement action may consist of a warning, citation, and application for complaint or physical arrest.

Another objective of traffic enforcement is the identification of changing traffic patterns and potentially hazardous conditions. This information will be conveyed in a timely manner to the appropriate authority for review and evaluation.

2. VIOLATOR CONDUCT

Traffic enforcement is routine for Officers, but for violators it frequently is an emotionally traumatic experience. In many cases, this is the only contact that a person has with Law Enforcement. Officers should be aware of these conditions and should strive to make each contact educational and to leave the violator with the impression that the Officer has performed a necessary task in a professional manner.

3. SELECTIVE ENFORCEMENT

When the Department receives complaints of problems in particular areas, it may specifically assign personnel to investigate and take necessary enforcement action. Additionally, based on information obtained by the Department, Officers may be assigned specific areas because of problems anticipated there.

4. VISIBLE PATROL

Open and visible patrol deters motorists from violating traffic law and reduces traffic accidents. When there is an unusual or continuing enforcement problem at a particular location, Officers should park in a conspicuous location and observe traffic.

5. UNIFORMITY

Each Officer should reasonably and uniformly enforce traffic laws.

6. ACCIDENT INVESTIGATION

The investigation of certain traffic accidents is necessary to determine traffic law violations, obtain engineering data, protect the rights of individuals involved and assist in traffic education.

105.26 NARCOTIC INFORMATION

It is the objective of the Department to enforce state, Band and federal laws which prohibit the possession, use or traffic in narcotics, non-prescription dangerous drugs and other restricted drugs within the Reservation. The Department seeks to prevent and deter the use, possession and traffic of such substances within the reservation. The Department may conduct investigations outside the reservation in cooperation with appropriate Law Enforcement agencies to prevent the flow of such illegal substances into the reservation.

To prevent the spreading use of narcotics and other dangerous substances, the Department participates in public education programs to inform people about the effects and hazards of drug abuse. Additionally, the Police Department informs the public about drugs so that they can make decisions regarding personal use of drugs. The public needs to understand and appreciate the dangers of drug abuse that is the key to overcoming its threat. The Police Department seeks to work with the people in a cooperative attack on this critical problem.

MILLE LACS BAND POLICE DEPARTMENT OPERATIONS MANUAL

GENERAL ORDER: 304.0

EFFECTIVE DATE: MARCH 1, 1996 REVISED: OCTOBER 21, 2009

SUBJECT: PERSONAL CONDUCT

304.01 RESPECT FOR CONSTITUTIONAL RIGHTS

A person cannot be deprived of his or her constitutional rights because they are suspected of committing a crime. The task of determining the constitutionality of a law lays with a court of law not an Officer who seeks to enforce the law, as it exists. Officers may enforce Band, federal, State or local law without fear of abrogating a person's constitutional rights. Officers who lawfully act within the scope their authority do not deprive persons of their civil liberties. Officers may, within the scope of their authority, make reasonable inquiries; conduct investigations and arrest on probable cause. Officers do not exceed their authority when they act reasonably.

304.02 USE OF FORCE

Officers must exercise control to make arrests and protect public safety. Control may be achieved through advice, warnings, persuasion or the use of physical force. Officers may only use force that is reasonable and necessary. The use of reasonable physical force may be necessary in situations, which cannot be otherwise controlled but can only be used when reasonable alternatives have been exhausted or would clearly be ineffective under the particular circumstances.

304.03 INTEGRITY

The public demands that the integrity of its Law Enforcement Officers be above reproach. The dishonesty of one Officer may impair public confidence and cast suspicion upon the entire police department. Officers must avoid any conduct that compromises their integrity, that of other Officers or the Department. Officers will be truthful and honest when questioned during the course of a formal or informal (fact gathering) investigation.

304.04 COURTESY

Courtesy promotes understanding and appreciation. Discourtesy breeds contempt and resistance. Courtesy is not a sign of weakness but rather firmness and impartiality that characterizes professionalism.

304.05 COORDINATION

In carrying out the functions of Law Enforcement, members shall maintain the highest standards of efficiency.

304.06 LOYALTY

Loyalty to the Band, the Department and other Officers is important for Department moral and efficiency. Members shall maintain loyalty to the Band, Department and other Officers in accordance with personal and professional ethics and standards.

304.07 FINANCIAL OBLIGATIONS

Employees should avoid incurring financial obligations, which are beyond their ability to reasonably satisfy from their anticipated earnings. When financial obligations become financial distress, it impairs an individual's effectiveness and tends discredit the police department.

304.08 OUTSIDE EMPLOYMENT

Law Enforcement requires employees to work irregular schedules that are subject to change to meet deployment needs. It is necessary that an employee have adequate rest in order to be alert during their tour of duty. The Department may impose conditions on outside employment or prohibit it. All members who seek outside employment, must have approval from the Chief of Police. Full-time Probationary (1st year Officers) may not be employed by another Police Agency during their probationary period.

 - i. As complete a description as is available should be used in identifying the things to be seized.

- 
- ii. Generally, a less precise description is required of property that is unique or of a particular character, such as contraband.
 - iii. Greater care in description is ordinarily necessary when the type of property sought is generally in lawful use in substantial quantity.
 2. Verbal request is made to a supervisor.
 3. After a careful review of all reports and information available, the Investigator or Officer in Charge will be asked to complete search warrant request including:
 - a. Application for a search warrant. The original and two photocopies will be needed. The original will be forwarded to the Court Administrator's Office following the execution of the warrant. One photocopy will be provided to the owner of the property being searched. One photocopy will be provided to the Mille Lacs Band Police Department Records section.
 - b. Supporting Affidavit. Must establish probable cause to search for the particular items at the particular place described in the application.

 4. Application must be made to a judge assigned to the Judicial District in which the search is to be executed.
 - a. An Officer must deliver to the issuing judge a copy of the warrant (part one and two) when making the application.
 - b. The warrant must be read and signed by the judge.
 5. After a warrant is signed, an Officer shall not alter it in any manner. If an error is detected in the warrant, it must be returned to the issuing judge for correction.

6. Application for warrants outside of the jurisdiction of the Band:

Officers may execute search warrants outside their normal jurisdiction (see paragraph 4 above). Contacting the law enforcement agency having jurisdiction at location of the search is recommended, providing them an opportunity to assist or be present at the time of the search.

311.02 PREPARATION FOR EXECUTION OF WARRANTS

1. In preparing to execute a warrant, the Officer in charge should allocate sufficient personnel to assure:
 - a. Officer safety.
 - b. The containment of persons at the scene of warrant execution.
 - c. The security of the items being sought. Generally, three Officers is the minimum number necessary to execute a warrant, with at least one Officer in uniform for entry purposes. This number should be increased depending upon the magnitude of the search to be conducted.
2. Where warrants obtained by Officers are to be executed in another jurisdiction, that jurisdiction shall be notified before the warrant is served and asked if they wish to participate.

311.03 EXECUTION OF WARRANTS

A warrant is valid for ten days from its issuance, as long as the probable cause recited in the affidavit exists at the time of execution. A warrant should be executed as timely as possible to ensure that such probable cause has not dissipated.
2. A warrant is valid for day time service only unless the facts in the affidavit justify a night time search and a night time search is expressly authorized in a warrant.

4. Gaining entry to a private residence.

 - b. Officers may enter unannounced, providing entry without announcement has been expressly authorized by the warrant. In such cases, Officers shall enter the premises by the most efficient means possible, inflicting the least amount of damage possible under the circumstances.
 - c. When Officers execute a warrant that does not authorize an unannounced entry and are confronted with exigent circumstances which would have otherwise justified a judge to authorize an unannounced entry, Officers may enter unannounced. The burden of proof then lies entirely with the executing Officers and their ability to articulate the exigent circumstances present at the time of execution. To validate the exigent circumstances, the executing Officers will have to show that the unannounced entry was necessary to prevent the loss, destruction or the removal of the objects of the search or to protect the safety of the Officers or others.
5. Entry - Commercial Establishment
- a. When Officers execute a warrant at a commercial establishment under normal circumstances, the Officers should execute the warrant when someone is present therein.
 - b. The same principles as with private residences also apply for entry of commercial establishments.
6. When a person is injured or property is damaged during the execution of a warrant, the involved Officers must file complete reports setting forth any reason for the injuries or the necessity for the damage.

- 1. Property seized pursuant to a search warrant issued in conjunction with an investigation being conducted by the Mille Lacs Band Police shall be properly inventoried on a Department Property Inventory Form.
 - a. The property may be transferred to other criminal justice agencies for investigative purposes providing the chain of custody is maintained and so noted on the Inventory Form.

The property will be photographed with the owner and an identifying case number prior to release. Date and time of release shall be noted on the Inventory Form.

3. “Frisk” means a limited search of a person to discover weapons; a "pat-down."
4. “Full Search” means a complete and unrestricted search of a person who has been arrested to discover weapons, contraband and the fruits, instrumentalities and evidence of a crime.
5. “Interrogation / Interview” means the questioning of a person who is not suspected of criminal activity at the time of the encounter.

6. “Non-Suspect” means a person who is not suspected of criminal activity or any other matter within the scope of the Officer’s duties.
7. “Outer Clothing” means generally garments such as coats, waistbands and pocket exteriors when inside heavy coats, hats, pants, cuffs, boot tops and other places where, if touched, would reveal suspect is armed. See also Access Area.
8. “Pat Down” means feeling portions of a suspect's body where a weapon could be concealed, including arms and armpits, waistline and back, groin and the entire surface of the legs down to the feet; a limited search is a "frisk."
9. “Probable Cause” means facts or circumstances which would lead a reasonable, cautious and prudent person to believe that a crime has been committed, that a particular person has committed it or that items of evidentiary value will be found in a particular place.
10. “Reasonable Suspicion” means facts or circumstances which would lead a reasonable person to suspect that a crime has been committed or that a particular person is armed; less than probable cause but more than a mere hunch.
11. “Search” means either a full search based upon probable cause or incidental to lawful arrest, or a limited search known as a "frisk," consisting of a pat down and inspection of nearby access areas.
12. “Suspect” a person who is possibly involved in criminal activity.

312.02 CONTACTS AND INTERVIEWING

Officers may contact any person and interview them when the Officer reasonably believes the interview is necessary and the Officer is in a public place and the circumstances justify the interview. An Officer may not arbitrarily hold any citizen they see on the streets. Officers must identify himself or herself as an Officer when asked. Persons contacted for interviews must be permitted to leave if they choose to do so. Officers may observe the person, however, if the Officer believes it is necessary and it is conducted in a reasonable manner.

312.03 STOPS FOR INTERROGATION

1. WHEN MADE - GENERALLY

An Officer may stop a person and interrogate the person if the Officer reasonably suspects that person to be involved in criminal activity, including pedestrians and motorists. The Officer must be in a public place. An Officer must identify himself or herself as an Officer when stopping persons for interrogation unless their identity is obvious.

2. WHEN MADE - SPECIFICALLY

Before an Officer stops a person for interrogation, they must be able to describe suspicious conduct or circumstances that justify the detention. Situations that may establish a lawful stop and detention are:

- a. The suspect makes evasive or furtive movements.
- b. The suspect fits a "wanted" notice.
- c. The suspect is near the scene of a recently committed crime.
- d. The suspect's demeanor or presence is unusual for the time or the place.
- e. The Officer has received information that the suspect is involved in criminal activity.
- f. In evaluating a person's conduct or appearance, Officers can rely on their training and experience to determine if the person is involved in criminal activity.
- g. Officers can base their suspicion that a person is involved in criminal activity upon information received from a citizen informant including an anonymous informant.
- h. When the suspected crime is serious, detention and interrogation of a suspect is more justified than when the suspected crime is of a less serious nature.

3. SPECIFIC AND ARTICULABLE FACTS

Officers must be able to articulate the reason why a person was detained and interrogated. They do not need to point to any one thing that alone would justify the action, but may refer to several things, each of which when taken alone may seem innocuous, but when considered together by an Officer who is trained and experienced in detecting criminal activity, raise a suspicion of criminal activity.

312.04 FRISKS - GENERALLY

1. WHEN DONE

- a. Immediately after stop, if Officer reasonably suspects the person is armed prior to questioning; or
- b. During or after stop, if grounds to suspect that the person is armed did not exist at the time the encounter began, but later develop.

2. FACTORS TO CONSIDER:

- a. If suspect flees or attempts to flee from the Officer when stopped;
- b. If suspect fails to produce valid identification and is unable to account for his actions or presence (or refuses to talk to the Officer at all);
- c. If a companion is found to be armed;
- d. If the suspected crime involved the use of weapons;
- e. If the Officer observes bulges in the suspect's clothing or efforts to conceal objects;
- f. Knowledge by the Officer that the suspect has been reported to customarily or occasionally carry weapons; or
- g. If suspect offers a patently false or fabricated story.
- h. Officers can base their judgment on whether a person is actually suspected of being armed upon information received from an informant.

3. SPECIFIC AND ARTICULABLE FACTS

Officers must be able to articulate a reason why a person stopped was frisked. Officers do not need to point to any one thing that would justify their action, but may refer to several things which when considered together by an Officer who is trained and experienced in dealing with criminal suspects, raise a reasonable suspicion that the person is armed.

312.05 SCOPE OF FRISKS

1. PAT DOWN

Officers shall feel the suspect's outer clothing and start at the place where a weapon would most likely be concealed. This location will differ based on the type of clothing worn and weather. The pat down should proceed to the next most likely places. Officer shall feel every portion of the suspect's body where a weapon could be concealed, including the arms and armpits, waistline and back, groin area and the entire surface of the legs down to the feet.

2. INNER CLOTHING

Officers shall open a suspect's coat or outer garments and pat down the inner clothing when the garments worn are too bulky to detect a concealed weapon. An Officer shall not open inner clothing to pat down underclothing unless there is probable cause to extend the search and the person is under arrest.

3. WEAPONS

An Officer who has a reasonable suspicion that a weapon is concealed in a particular place on a suspect may reach directly into that area to seize it. Officers must be able to justify this action, based on facts that led them to suspect that a weapon would be found at that location.

312.06 RESULTS OF FRISKS

1. WEAPONS

When Officers, during the course of a lawful frisk, feel an object or item that they reasonably suspect is a weapon or dangerous instrument, they shall remove that object or item for closer examination.

2. CONTRABAND EVIDENCE

If the object or item removed reasonably appears to be or to contain contraband or evidence, Officers shall arrest the person, conduct a complete search of their person and inventory the contraband or other evidence seized.

MILLE LACS BANDPOLICE OPERATION MANUAL

GENERAL ORDER: 315.0

EFFECTIVE DATE: MARCH 1, 1996 REVISED: OCTOBER 2, 2009

SUBJECT: MOTOR VEHICLE SEARCHES

PURPOSE:

To provide guidelines on searches of motor vehicles.

315.01 POLICY

Motor vehicle searches must be conducted in strict observance of the constitutional rights of the owner and occupants of the motor vehicle being searched and with due regard for the safety of all Officers, other persons and the property involved.

315.02 DEFINITIONS

1. “Motor vehicle” means any vehicle operating or capable of being operated on public streets or highways including automobiles, trucks, trailers, recreational vehicles, mobile homes, motor homes and other types of vehicles, whether self-propelled or towed. For purposes of this policy, motor vehicle does not mean vehicles of any type that have been immobilized in one location for use as a temporary or permanent residence, storage facility or which are otherwise classified by law as residences or buildings.
2. “Vehicle Search” means an examination of all or a portion of a vehicle with an investigatory motive (i.e., for the purpose of discovering fruits, instrumentalities or evidence of a crime or contraband, or to enter the vehicle to examine the vehicle identification number or determine ownership of the vehicle). Inventory of personal property must be conducted pursuant to general Order 319.

315.03 PROCEDURES

1. WHEN CONDUCTED

a. With Warrant

Whenever feasible, a warrant will be obtained for the search of a motor vehicle. When a vehicle has broken down, or there is otherwise no significant chance the vehicle will be driven away or that evidence contained within it will be removed or destroyed, the vehicle should be searched only after a warrant has been obtained.

b. Without a Warrant

Warrantless searches are to be conducted only when other exigencies make it impractical for Officers to obtain a warrant. Vehicles may be searched without a warrant:

- i. When Officer has probable cause to search the vehicle;
- ii. With operator's consent;
- . ;
- iv. For weapons, limited to those areas in passenger compartment in which a weapon can be placed;
- v. When necessary to examine the vehicle identification number to determine the ownership of the vehicle; or
- vi. Under emergency circumstances not otherwise stated above.

2. SCOPE OF SEARCH

- a. Searches with a warrant. Officers may search all areas of the vehicle unless the warrant states otherwise.
- b) With probable cause. May extend to all areas of the motor vehicle, unless the probable cause is limited to a specific area.
- c) With Consent. Depends on the terms of consent. If the consent is limited to specific areas of the vehicle, Officers may search only those areas. Consent must be knowing, voluntary and in writing before being conducted.
- d) Incident to search of passenger compartment for weapons. Areas immediately accessible to the vehicle's occupants may be searched but not an area such as a locked glove compartment.
- e) Examining a vehicle identification number to determine its ownership. Entry made to examine the vehicle identification number or to determine the ownership of the vehicle must be limited to actions reasonably necessary to accomplish these goals.
- f) Emergencies. Search of a motor vehicle under emergency circumstances not otherwise enumerated above must be limited by the nature of the emergency. The proper extent of the search must therefore be determined by the searching Officer

in each specific situation, but in no event may the extent of the search exceed what is necessary to respond properly to the emergency. *Note: Where the initial search discloses probable cause to believe that other portions of the vehicle may contain fruits, instrumentalities or evidence of a crime or contraband, any additional portions of the vehicle may be searched that could reasonably contain the items being sought.*

Officers may not search a vehicle incident to a recent occupant's arrest after the arrestee has been secured and does not have access to the vehicle, unless it is reasonable to believe evidence relevant to the crime for which the arrest was made might be found in the vehicle, in which case the Officer may search the entire passenger compartment of the vehicle. (Examples of crimes that may lead to reason to believe the vehicle might contain evidence are as follows: Crimes involving the use of a weapon, simple robbery, armed robbery, and burglary, drug possession or other contraband, and when a search of the person incident to arrest provides basis for an additional charge that would itself justify a search of the vehicle.

Searches are restricted only in incident to arrest. If an officer has probable cause to search a motor vehicle, then you may search every part of the vehicle and its contents that may conceal the object of the search.

Depending on circumstances Officers have justification for impounding and inventorying the contents of a vehicle. The resulting inventory search is considered a "Care taking" event.

3. CONTAINERS IN VEHICLE

In no instance shall a container in a motor vehicle be searched unless it could contain the item(s) being sought. In addition:

- a. Locked/Unlocked containers in motor vehicles may be searched as follows:
 - i. With probable cause that evidence is contained in a specific container: The sought container locked or unlocked found in the vehicle, may be opened and searched. No other items or areas may be searched in the vehicle.
 - ii. Incident to arrest: containers found in passenger compartment may be opened and searched.

- iii. With consent: Containers may be opened and searched provided that the terms of the consent expressly permit or reasonably imply that the particular container may be opened.
- iv. Containers found in or discarded from a vehicle under circumstances that do not justify their search under probable cause rules or in connection with a search incident to arrest should be secured but not searched until a warrant is obtained to search them.
- v. The vehicle is being searched with a search warrant; or
- vi. Officers have probable cause to search the entire vehicle, all containers found inside the vehicle (locked/unlocked) can be opened and searched, if what they are seeking could be inside of the container.

4. LOCATION AND TIME OF SEARCH

Whenever possible, searches of motor vehicles, and containers found therein, should be conducted at the location where the vehicle was discovered or detained. Under exigent circumstances, search of the vehicle or container may be delayed and conducted after the vehicle or container has been moved to another location. Thereafter, the search shall be conducted as soon as is reasonably possible, that is, as soon as adequate personnel are available to conduct a thorough search with due regard for the safety of all Officers, the public and property concerned.

5. CONDUCT OF THE SEARCH

Motor vehicle searches shall be conducted in a manner that minimizes the intrusiveness of the search and the inconvenience caused to vehicle owners, occupants and other persons involved. Where possible, damage to the vehicle or to other property in the course of the search should be avoided. Where unavoidable, such damage should be confined to that reasonably necessary to carry out a safe and thorough search.

6. ABANDONED VEHICLES

Examination of a vehicle that has been abandoned on a public roadway is technically not a search. If an Officer determines in advance that the vehicle has been abandoned, examination of the interior of the vehicle shall be conducted only in accordance with the provisions of this policy and applicable law.

7. SEIZURE OF EVIDENCE

Evidence discovered in the course of a motor vehicle search shall be collected, handled, packaged, marked, transported and stored in accordance with applicable

policies and procedures of this department. Where appropriate and feasible, itemized receipts for seized property shall be given to the owner or occupants of the vehicle.

8. COMPLIANCE WITH HEALTH AND SAFETY REQUIREMENTS

Searches of motor vehicles are to be conducted in strict compliance with all applicable laws, governmental regulations and departmental policies and procedures pertaining to the protection of departmental personnel from communicable diseases and hazardous substances. Any exposure of search personnel or others to such substances shall be immediately reported to a supervisor.

9. SECURITY OF VEHICLES AND PROPERTY SEIZED

If a search of a vehicle leaves the vehicle or any property contained therein vulnerable to unauthorized entry, theft or damage, Officers shall take such steps as are reasonably necessary to secure and preserve the vehicle or property from such hazards.

10. RESPONSIBILITY OF SUPERVISING OFFICER.

An Officer supervising a vehicle search shall be responsible for ensuring that it is conducted in accordance with this policy and applicable law. In the event that the vehicle search is conducted pursuant to a warrant, the Officer shall ensure that the execution of the warrant is properly reported to the issuing court or other authority. The Officer shall also be responsible for making any other reports regarding the search that may be required by applicable law, policy or procedure.

MILLE LACS BAND POLICE OPERATION MANUAL

GENERAL ORDER: 316.0

EFFECTIVE DATE: MARCH 1, 1996

SUBJECT: EMERGENCY OPERATION OF LAW ENFORCEMENT VEHICLES

PURPOSE

To establish procedures for the proper emergency operation of law enforcement vehicles and equipment.

316.01 DEFINITIONS

For purposes of this Order:

1. “Emergency” means that the immediate presence of an Officer is required to:
 - a. Protect a person from death or serious injury;
 - b. Provide emergency medical treatment to the victims of accidents, injuries or other life threatening situations;
 - c. Make the timely apprehension of those suspected of being involved in a criminal activity.
2. “Authorized Emergency Vehicle” means a vehicle equipped and identified as such and is publicly owned for use by Officers for law enforcement work. Emergency equipment, consistent with applicable law, shall consist of at least one red light to the front and a siren.

316.02 RESPONDING TO AN EMERGENCY CALL

1. Use of Emergency Equipment
 - a. Traffic lights

The driver of an authorized emergency vehicle may disregard certain traffic regulations if both the siren and red lights are operating. The use of either the siren or red lights alone is not permitted when responding as an authorized emergency vehicle. The use of other equipment, when available, such as wigwag headlights, is encouraged while responding to an emergency call.

b. Stop lights

The driver of an authorized emergency vehicle, upon approaching a red or stop signal or any stop sign, shall slow down as necessary for safety, but may proceed cautiously past such red or stop signal or any stop sign after sounding siren and displaying red lights.

c. Traffic Laws

No driver of an authorized emergency vehicle shall violate any traffic laws except when such vehicle is operated in response to an emergency call or in the immediate pursuit of an actual or suspected violator of the law.

2. First Officer On Scene

Responding Officers should attempt to coordinate their response to emergencies so that no more vehicles than necessary are en route to the emergency call. Upon arrival at the scene, the first Officer(s) may request additional assistance, if needed, or the on-duty supervisor can deploy more units to the location.

3. Multi-Vehicle Response

In a multi-vehicle response to an emergency call (i.e.: other law enforcement vehicles, fire trucks or ambulances) the operator of one vehicle should not pass another unless there are sufficient lanes to accommodate the vehicles or unless the vehicle to the front has become inoperable.

4. Lights Only – No Siren

There are incidents which require an immediate response, but where the use of the siren may have a detrimental effect (i.e.: crimes in progress, or hostage situations). If only the red lights are being used, the vehicle is not considered an authorized emergency vehicle and the driver is expected to comply with traffic control devices.

316.03 OFFICER RESPONSIBILITY

Officers responding to emergencies must operate the emergency vehicle with due regard for safety. When responding to emergencies, Officers may violate certain traffic laws but do so in a manner which will not jeopardize safety.

MILLE LACS BAND POLICE OPERATION MANUAL

GENERAL ORDER: 318.0

EFFECTIVE DATE: MARCH 1, 1996 REVISED: OCTOBER 21, 2009

SUBJECT: TOWING MOTOR VEHICLES

PURPOSE

To establish guidelines governing conditions for towing and releasing vehicles. For purposes of this order, "impounded vehicle" shall mean a vehicle towed at the direction of a Mille Lacs Police Department employee.

318.01 WHEN VEHICLES MAY BE IMPOUNDED

A vehicle can be impounded:

1. In accordance with Minn. Stat. Sec. 169.33.
2. When involved in a crime and the vehicle itself constitutes or contains evidence.
3. When reported stolen.
4. When parked in such a manner that it creates a public hazard.

If a driver is cited and not arrested:

5. The offenses of driving with a suspended license and failure to provide proof of insurance do not justify impounding the driver's vehicle.
A driver who is cited but not arrested is presumably capable of taking care of their vehicle and is therefore not reasonable to impound the vehicle for the purposes of safekeeping.

If a driver requests to make arrangements for the safeguarding of their vehicle, Officers will permit the driver a reasonable opportunity to make such arrangements.

If someone is already present at the scene who can take custody of the vehicle, or if someone arrives on the scene to take care of the vehicle, it will be released to that person if the driver/owner consents to such arrangement.

5. When the driver is arrested AND:
 - a. The driver is the owner and consents to the vehicle being released to another person. The vehicle shall be released to that person providing that other conditions do not exist that would be contrary to this arrangement.

- b. The driver is not the owner and the owner is present, the vehicle shall be released to the owner providing that other conditions do not exist that would be contrary to this arrangement.
- c. The arrestee is removed from a vehicle parked upon his property, the vehicle may not be impounded unless the arrestee requests that the vehicle be towed or the vehicle is evidence, contains evidence or is reported stolen.
- c. Any other occupant is arrested and that person was not using the car to commit a crime or was not seen in the car at the time of the offense, the vehicle shall not be impounded except at their request.

A third “no proof of insurance” violation within 10 years is a gross misdemeanor and a third “no insurance” violation within 10 years is a gross misdemeanor violation for which an Officer can make a custodial arrest.

- 6. When the driver is removed because of incapacity due to a medical condition.
- 7. When operated with unsafe equipment, the operation of the vehicle presents a hazard to public safety.

Prior to towing the vehicle Officers will conduct an Inventory Search of the vehicle. Inventory Searches are considered a “caretaking event” and will be conducted at the scene of the stop. Officers may search the entire vehicle including the trunk and engine compartments.

Officers will not use an Inventory Search for the purpose of “Evidence Gathering”. But items found during an inventory search may be seized without a warrant.

Only under exigent circumstances will a vehicle be subjected to an inventory search after removal from the scene of the stop. Officers must justify in a clear and concise report the circumstances surrounding the removal and why an inventory search was not conducted at the scene.

318.02 PRIVATE TOWS

If a tow is required for a vehicle that is stalled at the scene of an accident where the owner or driver is not arrested or removed for medical care and the vehicle need not be impounded for investigation, the Officer shall inform the owner or driver that a tow will be requested to remove the vehicle and the responsibility of where the vehicle is to be taken is that of the owner or driver. If the vehicle is not a hazard, the driver or owner may arrange for his own tow.

318.03 PRIVATE PROPERTY

Removal of a vehicle from private property is the responsibility of the property owner or their agent in the absence of an Officer "hold" or "want."

318.04 REPORTS

1. Any time a vehicle is impounded, an impound / inventory form must be completed and submitted along with an incident report wherein the reason for the impound is established.
2. The impound / inventory form must be completed in its entirety. Where information is requested on the form and none is available, the annotation "N/A" shall be inserted in the space provided. The completed form shall be submitted no later than the end of the Officer's shift.
3. In all instances when an impounded vehicle is designated "hold," the employee responsible for the impound shall write in the remarks section of the impound form the reason for the hold.
4. The impound form shall be completed by the Officer who impounds the vehicle before the end of the shift.

318.05

VEHICLE INVENTORY

REVISED August 28, 2015

Mille Lacs Tribal Police Department property inventory policy is an administrative measure designed to protect the public and department personnel.

The inventory policy is a police and community caretaking procedure designed to secure and protect property; protect the agency against claims of lost, stolen, or damaged property, and to protect employees from dangerous or hazardous items.

1. All contents of all impounded vehicles shall be inventoried, and articles of value will be itemized on the impound form. Items of value will be defined as an item with an individual value of \$250 dollars and combined currency of \$100 dollars. Officers performing the inventory may have to determine an item's value based on what a reasonable person may consider valuable and how the item is being transported or secured. Money, jewelry, firearms and any other property having substantial value and not affixed to the vehicle, may be brought to the Department, inventoried and stored in the evidence room. Any article of substantial value, which is so large that removing and storing at the Police Department would be impractical, may be left in the vehicle and so indicated on the impound form. Vehicle inventories will be thorough and ALL areas, secured and unsecured, will be checked for items of value. Any movable/portable item of any size used to transport or store any item of value, secured or unsecured, shall be inventoried. The inventory of the items of value will be listed in the inventory section of the vehicle impound form in Field Reporting or the approved Department hand written form entered into Zuercher. A copy of the form will be left in the vehicle. Photographs of the inventoried vehicle will be collected and entered into Zuercher.
2. Keys must remain with the vehicle except under circumstances when the vehicle has evidentiary value or contains evidence. When these circumstances exist, the keys shall be removed and property inventoried as evidence.

318.06

ISSUANCE OF CITATIONS

1. When a citation is issued for a parking violation against a vehicle that is impounded and the owner / operator is present, the owner / operator will be given the violator copy and the remaining copy will be deposited at the office.
2. When a citation is issued for a parking violation against a vehicle that is impounded and unattended, the citation shall be completed in full and attached to the impound form. When the vehicle is claimed, the violator's copy will be given to the claimant and the other copy processed through the normal channels.

EFFECTIVE DATE: MARCH 1, 1996

SUBJECT: NEWS MEDIA

PURPOSE

To provide guidelines for communicating with news media.

321.01 GENERALLY

Representatives assume responsibility for their safety if they voluntarily choose to subject themselves to danger by entering an area that is closed because of a threat to public health or safety. Representatives may photograph or report anything they observe when legally present at an emergency scene. Where publication of such coverage would interfere with an official investigation or place a victim, suspect or others in jeopardy, Officers should advise the media or their superiors of the possible consequences of publication.

MILLE LACS BAND POLICE OPERATIONS MANUAL

GENERAL ORDER: 322.0

EFFECTIVE DATE: MARCH 1, 1996 REVISED: JANUARY 1, 2022

SUBJECT: USE OF FORCE AND DEADLY FORCE

PURPOSE:

To set forth the guidelines which govern the use of force by personnel of the Mille Lacs Tribal Police Department.

322.01 GENERAL GUIDELINES

It is the policy of the Mille Lacs Tribal Police Department to provide officers with guidelines for the use of force and deadly force in accordance with:

MN STAT 626.8452 DEADLY FORCE AND FIREARMS USE; POLICIES AND INSTRUCTION REQUIRED;

MN STAT 609.06 AUTHORIZED USE OF FORCE;

MN STAT 609.065 JUSTIFIABLE TAKING OF LIFE; and

MN STAT 609.066 AUTHORIZED USE OF FORCE BY PEACE OFFICERS.

This policy applies to all peace officers engaged in the discharge of official duties.

It is the policy of this law enforcement agency to ensure officers respect the sanctity of human life when making decisions regarding use of force. Sworn law enforcement officers have been granted the extraordinary authority to use force when necessary to accomplish lawful ends. Officers shall treat everyone with dignity and without prejudice and use only the force that is objectively reasonable to effectively bring an incident under control, while protecting the safety of others and the officer.

Officers shall use only that amount of force that reasonably appears necessary given the facts and circumstances perceived by the officer at the time of the event to accomplish a legitimate law enforcement purpose.

Officers should exercise special care when interacting with individuals with known physical, mental health, developmental, or intellectual disabilities as an individual's disability may affect the individual's ability to understand or comply with commands from peace officers.

The decision by an officer to use force or deadly force shall be evaluated from the perspective of a reasonable officer in the same situation, based on the totality of the circumstances known to or perceived by the officer at the time, rather than with the benefit of

hindsight, and that the totality of the circumstances shall account for occasions when officers may be forced to make quick judgments about using such force.

This policy is to be reviewed annually and any questions or concerns should be addressed to the immediate supervisor for clarification.

This policy applies to all licensed peace officers and part-time peace officers engaged in the discharge of official duties.

Section (2) Procedure, paragraphs (g.1-2), are effective *March 1, 2021* and thereafter.

1.) DEFINITIONS

a) *Bodily Harm*: Physical pain or injury.

b) *Great Bodily Harm*: Bodily injury which creates a high probability of death, or which causes serious, permanent disfigurement, or which causes a permanent or protracted loss or impairment of the function of any bodily member or organ or other serious bodily harm.

c) *Deadly Force*: Force used by an officer that the officer knows, or reasonably should know, creates a substantial risk of causing death or great bodily harm. The intentional discharge of a firearm in the direction of another person, or at a vehicle in which another person is believed to be, constitutes deadly force.

d) *De-Escalation*: Taking action or communicating verbally or non-verbally during a potential force encounter in an attempt to stabilize the situation and reduce the immediacy of the threat so that more time, options, and resources can be called upon to resolve the situation without the use of force or with a reduction in the force necessary. De-escalation may include the use of such techniques as command presence, advisements, warnings, verbal persuasion, and tactical repositioning.

e) *Other Than Deadly Force*: Force used by an officer that does not have the purpose of causing, nor create a substantial risk of causing, death or great bodily harm.

f) *Choke Hold*: A method by which a person applies sufficient pressure to a person to make breathing difficult or impossible, and includes but is not limited to any pressure to the neck, throat, or windpipe that may prevent or hinder breathing, or reduce intake of air. Choke hold also means applying pressure to a person's neck on either side of the windpipe, but not to the windpipe itself, to stop the flow of blood to the brain via the carotid arteries.

g) *Authorized Device*: A device an officer has received permission from the agency to carry and use in the discharge of that officer's duties, and for which the officer has:

a. obtained training in the technical, mechanical and physical aspects of the device; and

b. developed a knowledge and understanding of the law, rules and regulations regarding the use of such a device.

2.) PROCEDURE

a) *General Provisions*

1. Use of physical force should be discontinued when resistance ceases or when the incident is under control.
2. Physical force shall not be used against individuals in restraints, except as objectively reasonable to prevent their escape or prevent imminent bodily injury to the individual, the officer, or another person. In these situations, only the amount of force necessary to control the situation shall be used.
3. Once the scene is safe and as soon as practical, an officer shall provide appropriate medical care consistent with his or her training to any individual who has visible injuries, complains of being injured, or requests medical attention. This may include providing first aid, requesting emergency medical services, and/or arranging for transportation to an emergency medical facility.
4. All uses of force shall be documented and investigated pursuant to this agency's policies.

b) *Duty to Intercede*

Regardless of tenure or rank, an officer must intercede when:

- a. present and observing another officer using force in violation of section 609.066, subdivision 2, or otherwise beyond that which is objectively reasonable under the circumstances; and
- b. physically or verbally able to do so

c) *Duty to Report*

An officer who observes another officer use force that exceeds the degree of force permitted by law has the duty to report the incident in writing within 24 hours to the chief law enforcement officer of the agency that employs the reporting officer.

d) *De-escalation:*

1. An officer shall use de-escalation techniques and other alternatives to higher levels of force consistent with their training whenever possible and appropriate before resorting to force and to reduce the need for force.
2. Whenever possible and when such delay will not compromise the safety of another or the officer and will not result in the destruction of evidence, escape of a suspect, or commission of a crime, an officer shall allow an individual time and opportunity to submit to verbal commands before force is used.

e) USE OF OTHER THAN DEADLY FORCE

1. When de-escalation techniques are not effective or appropriate, an officer may consider the use of other than deadly force to control a non-compliant or actively resistant individual. An officer is authorized to use agency-approved other than deadly force techniques and issued equipment in the following circumstances:

- a. effecting a lawful arrest; or
- b. the execution of legal process; or
- c. enforcing an order of the court; or
- d. executing any other duty imposed upon the public officer by law; or
- e. defense of self or another.

f) USE OF CERTAIN TYPES OF FORCE

1. Except in cases where deadly force is authorized as articulated in MN STAT. 609.066 to protect the peace officer or another from death or great bodily harm, officers are prohibited from using:

- a. Chokeholds,
- b. Tying all of a person's limbs together behind a person's back to render the person immobile, or;
- c. Securing a person in any way that results in transporting the person face down in a vehicle.

2. Less than lethal measures must be considered by the officer prior to applying these measures.

g) USE OF DEADLY FORCE

1. An officer is authorized to use deadly force if an objectively reasonable officer would believe, based on the totality of the circumstances known to the officer at the time and without the benefit of hindsight, that such force is necessary. Use of deadly force is justified when one or both of the following apply;

- a. To protect the peace officer or another from death or great bodily harm, provided that the threat:
 - i. can be articulated with specificity **by the law enforcement officer**;
 - ii. is reasonably likely to occur absent action by the law enforcement officer; and
 - iii. must be addressed through the use of deadly force without unreasonable delay;or
- b. To effect the arrest or capture, or prevent the escape, of a person whom the peace officer knows or has reasonable grounds to believe has committed or attempted to commit a felony and the officer reasonably believes that the person will cause death or great bodily harm to another person under the threat criteria in paragraph (a), items (i) to (iii), unless immediately apprehended.

2. An officer shall not use deadly force against a person based on the danger the person poses to self if an objectively reasonable officer would believe, based on the totality of the circumstances

known to the officer at the time and without the benefit of hindsight, that the person does not pose a threat of death or great bodily harm to the peace officer or to another under the threat criteria in paragraph (1a), items (i) to (iii).

3. Where feasible, the officer shall identify themselves as a law enforcement officer and warn of his or her intent to use deadly force.

h) TRAINING

1. All officers shall receive training, at least annually, on this agency's use of force policy and related legal updates.

2. In addition, training shall be provided on a regular and periodic basis and designed to

- a. Provide techniques for the use of and reinforce the importance of de-escalation
- b. Simulate actual shooting situations and conditions; and
- c. Enhance officers' discretion and judgement in using other than deadly force in accordance with this policy.

3. Before being authorized to carry a firearm all officers shall receive training and instruction with regard to the proper use of deadly force and to the agency's policies and State statutes with regard to such force. Such training and instruction shall continue on an annual basis.

4. Before carrying an authorized device all officers shall receive training and instruction in the use of the device including training as it relates to its use in deadly force and/or other than deadly force situations. Such training and instruction shall continue on an annual basis.

5. Officers will carry and use only authorized devices unless circumstances exist which pose an immediate threat to the safety of the public or the officer requiring the use of a device or object that has not been authorized to counter such a threat.

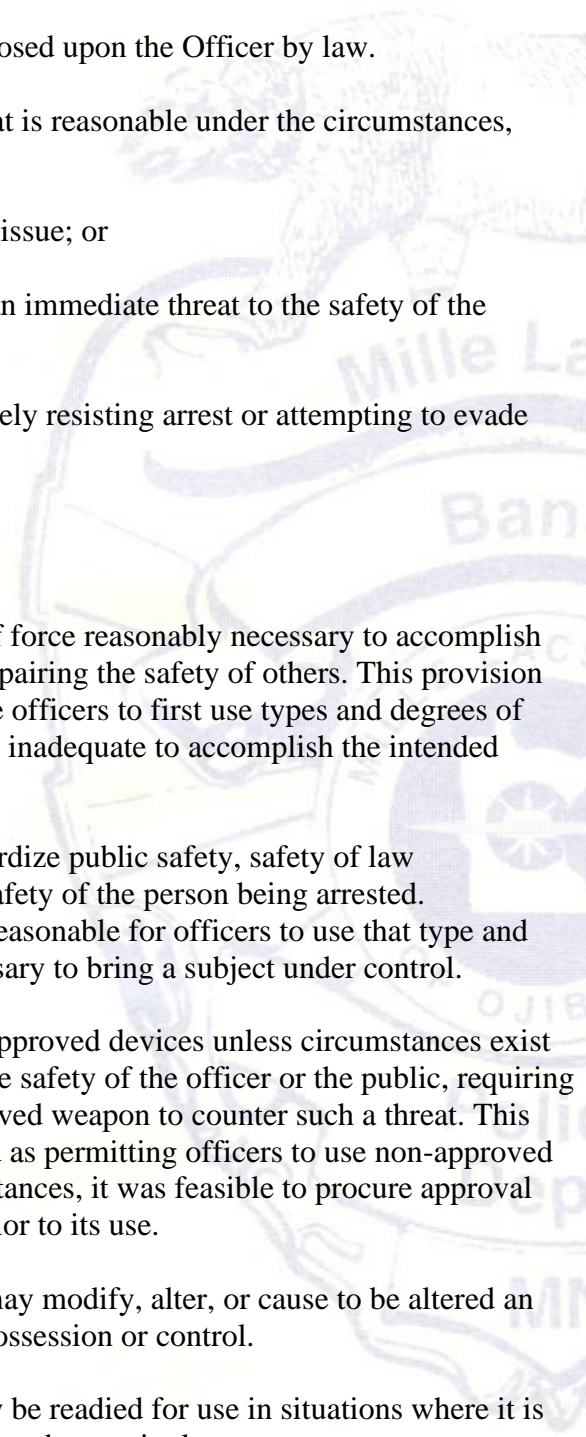

6. With agency approval officers may modify, alter or cause to be altered an authorized device in their possession or control.

g) RECORDKEEPING REQUIREMENTS

The chief law enforcement officer shall maintain records of the agency's compliance with use of force training requirements.

322.02 NON – DEADLY FORCE

- 
- a. Effecting a lawful arrest; or
 - b. The execution of legal process; or
 - c. Enforcing an order of the court; or
 - d. Executing any other duty imposed upon the Officer by law.

- a. The severity of the crime at issue; or
 - b. Whether the suspect poses an immediate threat to the safety of the officers or others; and
 - c. Whether the suspect is actively resisting arrest or attempting to evade arrest by flight.
3. Rules governing the Use of Force:
- a. Officers should use the amount of force reasonably necessary to accomplish the intended objective without impairing the safety of others. This provision should not be construed to require officers to first use types and degrees of force that reasonably appear to be inadequate to accomplish the intended objective.
 - b. Protracted force encounters jeopardize public safety, safety of law enforcement personnel, and the safety of the person being arrested. Accordingly, it shall be deemed reasonable for officers to use that type and degree of non-deadly force necessary to bring a subject under control.
 - c. Officers will carry and use only approved devices unless circumstances exist that pose an imminent threat to the safety of the officer or the public, requiring the immediate use of a non-approved weapon to counter such a threat. 2. An officer shall not use deadly force against a person based on the danger the person poses to self if an objectively reasonable officer would believe, based on

the totality of the circumstances known to the officer at the time and without the benefit of hindsight, that the person does not pose a threat of death or great bodily harm to the peace officer or to another under the threat criteria in paragraph (1a), items (i) to (iii).

3. Where feasible, the officer shall identify themselves as a law enforcement officer and warn of his or her intent to use deadly force.
4. In cases where deadly force is authorized, less than lethal measures must be considered first by the officer.

2. DESTRUCTION OF ANIMALS

- a. Officers may use their firearms to humanely destroy gravely injured, diseased, unlicensed, or unregistered animals. Officers will use their firearms for such a purpose if it can be accomplished safely and without creating an undue disturbance.
- b. Officers may fire upon fleeing or running animals except when firing presents a threat to human safety.
- c. When an Officer or other person is attacked or is about to be attacked by an animal and serious bodily injury is likely or when an animal otherwise poses a threat, the Officer, using all appropriate prudence, may apply deadly force in order to stop the animal.

3. KNIVES

- a. Use of knives as a weapon always constitutes deadly force. Officers will not use knives as weapons except under certain circumstances where deadly force is otherwise appropriate and justified, and the knife is the only instrumentality reasonably available.
- b. Officers may assume they are in deadly danger if menaced or attacked by a person brandishing a knife.
- c. Officers shall not use knives or batons to subdue or disarm a suspect armed with a knife. Suspects armed with knives will be confronted at a distance by Officers with guns, not batons, drawn. Officers will not permit suspects armed with knives to get close enough to inflict injury. Officers may only fire in order to prevent the suspect armed with a knife

from getting within the Officer's zone of danger. Which is defined in current training standards used by the Department.

322.04 LETHAL (DEADLY) FORCE: INVOLVING FIREARMS

1. POLICY

- a. Deadly force shall be used only in response to a deadly threat. ONLY WHEN THE OFFICER, ANOTHER OFFICER OR A CITIZEN IS IN IMMEDIATE AND OTHERWISE UNAVOIDABLE DANGER OF DEATH OR GRAVE BODILY HARM FROM THE INDIVIDUAL(S) AGAINST WHOM THE OFFICER IS APPLYING OR IS ABOUT TO APPLY DEADLY FORCE.
- b. The decision to use deadly force hinges on a balance between risk exposure and restraint. Risk must be identified, controlled and minimized.
- c. Officers are expected to expose themselves to some risk during the performance of their duties but not to unreasonable or suicidal risk.
- d. As exposure to risk increases, Officers must take reasonable measures to reduce it and exhibit restraint from using deadly force until such time the risk exposure has or may escalate to unacceptable levels. Only at that point, may deadly force may be applied if it is the only reasonable avenue through which the risk can be reduced.

322.06 LETHAL (DEADLY) FORCE: NOT INVOLVING FIREARMS

1. MOTOR VEHICLES

- a. Using a motor vehicle to ram another vehicle or a pedestrian suspect, will very likely result in death or grave bodily injury. Using a motor vehicle to ram a suspect's vehicle or strike a pedestrian suspect is a use of deadly force. Officers are prohibited from using their vehicles to ram another vehicle or a pedestrian unless the Officer is convinced that:
 - i. The circumstances justify deadly force and the use of the vehicle is the only reasonable way to apply it. Officers must reasonable believe that innocent persons will not be harmed by the act and that the driver and occupants of the rammed vehicle are posing an

immediate and other wise unavoidable danger of death or grave bodily harm to innocent persons, or,

- ii. The probability of injury to innocent persons will be decreased if the vehicle or pedestrian suspect is rammed rather than not rammed.
- a. Any vehicular pursuit or any other vehicular maneuver initiated and/or perpetuated with the intent of ramming a suspect vehicle or a pedestrian suspect will be terminated immediately if it cannot be accomplished and/or continued with a reasonable degree of safety to the Officer(s) involved and the public.
- d. Any high speed vehicle pursuit is considered extremely dangerous and is not authorized unless circumstances fall within General Order 317.

2. IMPACT WEAPONS

a. BATONS

- i. Is a "compliance tool" that can overcome non-deadly physical force of a suspect resisting arrest.
- ii. Officer shall not use batons to subdue a suspect armed with a club, nor attempt to physically disarm a suspect.
- i. Becomes lethal if used incorrectly, recklessly or correctly under drastic circumstances.
- ii. Strikes (including flashlights and other improvised impact weapons) can easily cause death or serious bodily injury if delivered to the head, throat, neck, spine, kidneys, joints, liver, sternum, diaphragm or genitalia.
- iii. Strikes delivered to these areas are considered deadly force and may be delivered by Officers only if deadly force is otherwise indicated and justified and cannot reach their firearm in time to abrogate the threat.
- vi. Officers may assume that they are in deadly danger of being struck when attacked by a suspect using a club or another impact weapon.

- vii. When a suspect is armed with a club, Officers may only fire in order to prevent the suspect from getting in the zone of danger. For example, during a scuffle a suspect has disarmed the Officer and is about to use the Officer's own baton against them.

b. HANDCUFFS

- i. Striking a suspect with a set of handcuffs can cause serious injury and may become an application of deadly force.
- ii. The use of handcuffs as an impact weapon is not authorized unless the situation is such that the handcuffs are the only instrumentality reasonably available with which the Officer can defend him/herself.

c. FIREARM

- i. Striking a suspect with a firearm can cause grievous injury and in extreme cases is a use of deadly force.
- ii. Firearms will not be used as impact weapons, except under circumstances so drastic that the Officer is convinced that the balance of risks is in favor of doing so.
- iii. It is also dangerous because the suspect may be able to take the gun away from the Officer or the gun may discharge unintentionally and wound the suspect or the Officer or may damage the weapon to make it inoperable.

4. FLEEING FELONS

- a. Officers may shoot a fleeing person who is suspected of committing a violent felony but are not required to.
- b. Five conditions must be met to justify the use of deadly force to apprehend a fleeing, forcible felon:
 - i. The fleeing suspect must be known (directly observed by or reliably known to the Officer) to have recently committed or attempted to commit a violent forcible felony;

- ii. The Officer must have made every practicable effort to identify themselves as police Officers;
- iii. The Officer must have exhausted every other reasonable and practicable means of preventing the suspect from escaping;
- iv. Firing at the suspect can be accomplished with reasonable safety to innocents who may be in the direction of fire; and
- v. The suspect's continued freedom creates an unequivocal and immediate threat to the safety of innocent people.

4. DESTRUCTION OF ANIMALS

- a. Officers may use their firearms to humanely destroy gravely injured, diseased, unlicensed, or unregistered animals. Officers will use their firearms for such a purpose if it can be accomplished safely and without creating an undue disturbance.
- b. Officers may fire upon fleeing or running animals, except when firing presents a threat to human safety.
- c. When an Officer or other person is attacked or is about to be attacked by an animal and serious bodily injury is likely or when an animal otherwise poses a threat, the Officer, using all appropriate prudence, may apply deadly force in order to stop the animal.

5. KNIVES

- a. Use of knives as a weapon always constitutes deadly force. Officers will not use knives as weapons except under certain circumstances where deadly force is otherwise indicated and justified and the knife is the only instrumentality reasonably available.
- b. Officers may assume they are in deadly danger if menaced or attacked by a person brandishing a knife.
- c. Officers shall not use knives or batons to subdue or disarm a suspect armed with a knife. Suspects armed with knives will be confronted at a distance by Officers with guns, not batons, drawn. Officers may only fire in order to prevent the suspect armed with a knife from getting within the Officer's zone of danger.

322.10 USE OF FORCE: IN-SERVICE USE OF FORCE LEARNING OBJECTIVES FOR PEACE OFFICERS AND PART-TIME PEACE OFFICERS

INTRODUCTION

The authority to use deadly force, conferred on peace officers by statute, is a critical responsibility that shall be exercised judiciously and with respect for human rights and dignity and for the sanctity of every human life. Further, every person has a right to be free from excessive use of force by officers acting under color of law.

The following learning objectives have been developed to assist law enforcement agencies in providing use of force continuing education to officers. Pursuant to MN STAT 626.8452 this training must be provided to all peace officers and part-time peace officers annually and each officer is required to receive instruction relative only to weapons and equipment the officer is issued or authorized to use. The term annually has been defined by the POST Board to mean at least once per calendar year.

There are many formats for delivering continuing education. Agencies are encouraged to explore creative and co-operative means of providing this education. Each law enforcement agency must determine minimum competency levels appropriate for agency personnel and nothing in these objectives prohibits an agency from developing additional objectives, or setting higher standards. Agencies are also encouraged to submit suggestions for revisions to these objectives to the POST Board.

 - ii. Shotgun bi-annual qualification course; for those carrying a shotgun
 - iii Patrol Rifle bi-annual qualification course;
 - iv. Training courses adapted by the Lead Firearms Instructor and approved by the Chief of Police.
- b. Unsupervised training shall be an Officer's choice of any of the approved courses, except "night-fire" courses, under dim light conditions due to safety.

The courses may be fired during daytime for practice. Unsupervised training must have the approval of the Lead Firearms Instructor.

3. SAFETY CONDITIONS

- a. Eye protection must be worn by the Officers and coaching Officer. Prescription lenses are approved to serve this purpose.
- b. Hearing protection must be worn by the Officers and coaching Officer.
- c. All eye and hearing protectors shall be Department approved.
- d. Only the Officers actually firing shall have a weapon out of its holster. A safety Officer controls all activity where handling a weapon is required. This means "dry fire" training also.
- e. Due to safety considerations and danger, night-fire (dim light) courses must be supervised.
- f. Officers using other Department ranges will abide by the rules set forth by that Department.

4. UNSUPERVISED TRAINING

- a. Firing will be held at approved ranges.

Officers who are assigned a Precision Rifle, must maintain monthly trainings: Trainings will confirm weapon zeroing, documentation of date, time, distances, and weather conditions. Targets will be turned in and filed in Precision Rifle Marksman's training folder. Training and course of fire will be in effect 01/01/2022.

- d. Course scores shall be turned into the Lead Firearms Instructor for record keeping after each range session.
- e. The Lead Firearms Instructor must approve ammunition used in training.
- f. Department issued ammunition shall be made available to each Officer at a rate of 1 box (50 rounds) per month. Empties shall be returned to the Lead Firearms Instructor with score sheets and targets.
- g. Safety equipment will be issued before and returned after each session.
- h. No POST credits will be approved because the time spent on the range is indeterminate. The Lead Firearms Instructor will maintain training hours when practice is needed.

- b. Only approved and inspected firearms allowed.
- c. Handgun and shotgun ammunition carried while on duty shall be issued by the Department and approved by the Lead Firearms Instructor. No other ammunition will be allowed.
- d. Patrol rifle ammunition will be issued by the department to officers carrying department issued rifles only, which must be approved by the Lead Firearms Instructor.

323.06

FIREARMS

- a. Carrying Sidearm - When an Officer's sidearm is in the holster, it will always be fully loaded and ready for immediate use. The position of the manual safety and the position of the hammer will be as follows:
 - i. Double-action autoloader - Chamber loaded, hammer all the way forward, safety on or off, at the Officer's option.

- g. Shotgun/Patrol Rifle: If a shotgun or patrol rifle has been armed, it must be returned to the loader's safe condition as soon as the danger has passed and is safe to do so.
 - i.
 - ii. In patrol vehicles, shotguns or patrol rifles must remain in a locking device and in the loader's safe condition, so that it cannot be fired in place without the lock being opened.

- h. Warning/Signal Shots prohibited; officers are prohibited from firing warning / signal shots. Firing warning or signal shots can cause terror and panic in the public who witness or hear it. Firing usually requires Officers to momentarily take their eyes off a potentially homicidal suspect and places innocent bystanders in danger of being struck by ricocheting bullets/pellets. Warning/signal shots can cause other Officers to mistakenly believe that a suspect is deliberately firing at Officers resulting in a tragic, unwarranted shooting.
 - i. Firing from Moving Vehicles Prohibited; except when the probability of injury to innocent persons is less than the probability of injury when firing outside of a moving vehicle.

Firing at Vehicles or Persons in Vehicles Prohibited; except under those circumstances so drastic that the probability of injury to innocent persons is decreased if the vehicle is fired upon than if it is not. Shooting at a motor vehicle with a

handgun or shotgun is unlikely to stop or disable it. Handgun and shotgun projectiles seldom penetrate a motor vehicle with sufficient force to cause casualties inside the vehicle. Shots directed at motor vehicles can and often do ricochet off the vehicle's exterior causing injury to innocent bystanders. Police have killed or injured innocent persons inside vehicles because they were not aware that the criminal driver had taken hostages. Killing or wounding a driver of a moving vehicle can send the vehicle hurtling out of control, either at the scene or a distance away, with predictable injurious consequences

FIREARMS: IN-SERVICE USE OF FORCE
LEARNING OBJECTIVES FOR PEACE OFFICERS AND
PART-TIME PEACE OFFICERS

INTRODUCTION

The authority to use deadly force, conferred on peace officers by statute, is a critical responsibility that shall be exercised judiciously and with respect for human rights and dignity and for the sanctity of every human life. Further, every person has a right to be free from excessive use of force by officers acting under color of law.

The following learning objectives have been developed to assist law enforcement agencies in providing use of force continuing education to officers. Pursuant to MN STAT 626.8452 this training must be provided to all peace officers and part-time peace officers annually and each officer is required to receive instruction relative only to weapons and equipment the officer is issued or authorized to use. The term annually has been defined by the POST Board to mean at least once per calendar year.

There are many formats for delivering continuing education. Agencies are encouraged to explore creative and co-operative means of providing this education. Each law enforcement agency must determine minimum competency levels appropriate for agency personnel and nothing in these objectives prohibits an agency from developing additional objectives, or setting higher standards. Agencies are also encouraged to submit suggestions for revisions to these objectives to the POST Board.

PRINCIPLES OF FIREARMS USE

General learning goal: During the course of practical firearms training, (sections F and G) the officer will demonstrate knowledge of firearms safety, firearms maintenance, handgun shooting principles

and familiarization with authorized firearms. This training will be consistent with agency policies and individual officer assignments.

Performance Objectives:

4. The officer will demonstrate safe handling of all firearms used during training.
This will include:
 - a) Safely and correctly loading and unloading the firearms.
 - b) Safely and correctly holstering and drawing the firearms.
 - c) Safely and correctly clearing malfunctions.
 - d) Safely and correctly maintaining authorized firearms.
5. The officer will describe the various methods of handling and storing firearms while off-duty in compliance with MN STAT 609.666. The need for security of firearms kept in the officer's home will also be explained.
6. The officer will identify authorized firearms categories and corresponding ammunition utilized by the agency.
7. The officer will explain situations in which use of the weak hand may be required.
8. The officer will explain the circumstances that justify the use of deadly force by peace officers.

F. HANDGUN RANGE EXERCISES

General learning goal: Any officer who is issued or is authorized to carry a handgun, will effectively and safely utilize the authorized handgun(s) on a qualification course of fire.

Performance Objectives:

1. The officer will demonstrate effective techniques in the following areas:
 - a) Close encounter shooting.
 - b) Shooting from cover.
 - c) Reloading Techniques.
 - d) Weapon/reaction hand shooting.
2. The officer will fire a qualification course consisting of no less than 50 rounds. The course of fire may be conducted with duty ammunition, or with lead free, frangible, or non-toxic ammunition that has ballistic performance similar to the issued service ammunition.
3. During the course of fire, the officer will fire from close, medium and long range. Close range means less than 7 yards; medium range means 7 to 14 yards; and long range means 15 to 25 yards (Suggested use of ammunition allotment: 50% at close range; 40% at medium range and 10% at long range.)

4. The agency will determine the minimum proficiency to be obtained for successful completion of the exercise.

G. OTHER FIREARMS RANGE EXERCISES

General learning goal: Any officer who is authorized to use other firearms (shotgun, rifle, etc.) will effectively and safely utilize these firearms in a qualification course of fire.

Performance Objectives: Shotgun

1. Given a qualification course of fire, the officer will successfully complete the following:

 - b) The officer shall consider the projectile spread and background beyond the area of the immediate threat when making the decision to select the shotgun or other authorized firearm.
 - c) During this exercise, the officer may use duty ammunition, or ammunition that has ballistic performance similar to the issued service ammunition. It is recommended that officers' duty ammunition, if not expended during the yearly course of fire, be replaced at least every two years.
 - d) The agency will determine the minimum proficiency to be obtained for successful completion of the exercise.
 - e) The officer will fire a minimum of 10 rounds during this exercise.

Performance Objectives: Rifle

- a) The officer will fire the weapon at various distances, using various shooting positions.
- b) The officer shall consider distance and shot accuracy when selecting the rifle or other authorized firearm.
- c) During this exercise, the officer may use duty ammunition or ammunition that has ballistic performance similar to the issued duty ammunition. It is recommended that the officer's duty ammunition be replaced every two years.
- d) The agency will determine the minimum proficiency to be obtained for successful completion of the exercise.
- e) The officer will fire a minimum of 20 rounds during this exercise.

I. FIREARM SELECTION

General learning goal: The officer will identify the situations and considerations involved in determining which firearm (handgun or other firearm) is appropriate in various tactical situations.

Performance Objectives:

1. The officer will identify important considerations when deciding which firearm should be used in a tactical situation, to include:
 - a) The physical environment.

MILLE LACS BAND POLICE OPERATION MANUAL

GENERAL ORDER: 325.0

EFFECTIVE DATE: MARCH 1, 1996 REVISED: NOVEMBER 29, 2018

SUBJECT:
DOMESTIC ABUSE RESPONSE AND ARREST

PURPOSE

To establish guidelines and procedures for response to domestic abuse. Additionally, this policy intends to:

1. Establish ARREST not mediation as the appropriate response to domestic abuse;
2. Protect and support victims by coordinating with victim assistance efforts;
3. Provide the same Law Enforcement resources for domestic abuse cases that are available for other criminal cases;
4. Reaffirm Officers' authority and duty to make arrests with probable cause;
5. Promote Officer safety by ensuring that they are fully prepared to respond to domestic calls;
6. Complement and coordinate efforts with the development of domestic abuse prosecution plans, so that Law Enforcement, prosecution and advocacy will be more efficient and successful;
7. Promote Law Enforcement's accountability to the public in responding to domestic abuse; and
8. Document allegations of domestic abuse so there can be meaningful prosecution and delivery of victim services.

325.01 INTRODUCTION

:

Officers must protect victims of domestic abuse by making lawful arrests and understanding the law in this area. Officers must aggressively enforce these laws without bias and prejudice based on race, marital status, sexual orientation, social class, age, disability, gender, religion, creed or national origin.

325.02 I. POLICY

It is the policy of the Mille Lacs Tribal Police Department to recognize domestic abuse as a serious problem in today's society. This agency's policy is to protect victims of domestic abuse by ensuring its peace officers understand the laws governing this area.

Peace officers will utilize this policy in response to calls when there may be domestic abuse.

This policy prescribes courses of action peace officers should take in response to a domestic call. This agency will aggressively enforce the laws without bias and prejudice based on race, marital status, sexual orientation, economic status, age, disability, gender, religion, creed, or national origin.

II. DEFINITIONS

For the purposes of this policy, the words and phrases in this section have the meanings given to them, unless another intention clearly appears.

A. Domestic Abuse has the meaning given it in Minn. Stat. 518B.01, subd. 2(a), which states:

"Domestic abuse" means the following, if committed against a family or household member by a family or household member:

(1) physical harm, bodily injury, or assault;

(2) the infliction of fear of imminent physical harm, bodily injury, or assault; or

(3) terroristic threats, within the meaning of section 609.713, subdivision 1; criminal sexual conduct, within the meaning of section 609.342, 609.343, 609.344, 609.345, or 609.3451; or interference with an emergency call within the meaning of section 609.78, subdivision 2.

B. Domestic Abuse Program means a public or private intervention project or advocacy program which provides support and assistance to the victims of domestic abuse.

C. Child means a person under the age of 18.

D. Family or Household Member has the meaning given it in Minn. Stat. 518B.01, subd. 2(b)(1)-(7): spouses, former spouses, parents and children, persons related by blood, and persons who are presently residing together or who have resided together in the past, persons who have a child in common regardless of whether they have been married or have lived together at any time, and persons involved in a significant romantic or sexual relationship. It also includes a man and a woman if the woman is pregnant and the man is alleged to be the father, regardless of whether they have been married or have lived together at any time.

E. Domestic Call means a request for assistance to a law enforcement agency regarding domestic abuse or any other crime against a family or household member.

F. Qualified domestic violence-related offense (QDVRO) has the meaning given it in Minn. Stat. 609.02, subd. 16 and includes a violation of or an attempt to violate a domestic abuse order for protection; first or second degree murder; first through fifth degree assault; domestic assault; female genital mutilation; domestic assault by strangulation; first through fourth degree criminal sexual conduct; malicious punishment of a child; terroristic threats; violation of harassment restraining order; stalking; interference with an emergency call; nonconsensual dissemination of private sexual images; and violation of domestic abuse no contact order; and similar laws of other states, the United States, the District of Columbia, tribal lands, and United States territories.

If a person arrested for a domestic crime has a prior QDVRO, the new offense may be chargeable as a higher-level crime. (See Enhancement Table appended hereto.)

G. Order for Protection (OFP) is an order issued under Minn. Stat. 518B.01 by a judge in civil court upon the request of the petitioner. Any family or household member of the abuser (called a respondent) may ask the court for an OFP. The relief granted to the petitioner may include an order for the respondent to stop domestic abuse, no direct or indirect contact with petitioner, temporary custody of minor children, temporary financial support, and/or counseling for the respondent. Other forms or relief are also available. Violating an OFP is a crime.

H. Domestic Abuse No Contact Order (DANCO) is an order issued under Minn. Stat. 629.75 by a judge in criminal court limiting contact between a defendant and a victim of domestic abuse. DANCOs may be issued as pretrial condition of release and/or as a probationary condition of sentence.

I. Harassment Restraining Order (HRO) is an order issued under Minn. Stat. 609.748 by a judge in civil court when a petitioner requests a court order preventing another person from having contact with him/her. These orders generally prohibit all contact of any kind (including, but not limited to, phone calls, letters, e-mail, social media and contact through a third party) and may limit the respondent's ability to come within a certain distance of the petitioner's home, work or school. This type of order can be issued no matter what the relationship between the individuals involved. Violating an HRO is a crime.

J. Harassment has the meaning given to it in Minn. Stat. 609.748, subd. 1(a): a single incident of physical or sexual assault or repeated incidents of intrusive or unwanted acts, words or gestures that have a substantial adverse effect or are intended to have a substantial adverse effect on the safety, security, or privacy of another, regardless of the relationship between the actor and the intended target.

K. Stalking has the meaning given to it in Minn. Stat. 609.749, subd. 1: engaging in conduct which the actor knows or has reason to know would cause the victim under the circumstances to feel frightened, threatened, oppressed, persecuted, or intimidated, and causes this reaction on the part of the victim regardless of the relationship between the actor and victim.

III. PROCEDURE

A. DISPATCHING THE CALLS

1. Receiving the Domestic Call: Upon receiving a domestic call, the dispatcher will assign domestic calls a high priority and should assign at least two officers to the call. If only one officer is available, all reasonable attempts should be made to obtain another officer to assist the officer who was initially dispatched.

2. Information to be Obtained: The dispatcher receiving a domestic call should attempt to elicit from the caller and should communicate to the responding peace officers as much of the following information as possible:

- the nature of the incident,
- the address of the incident, including apartment number, if applicable,
- the telephone numbers where the caller can be reached,
- whether weapons are involved or present in the dwelling,

- whether someone is injured and the nature of the injury,
- information about the suspect including whether the suspect is present, description, direction of flight, mode of travel, etc.,
- the relationship between the caller and the suspect,
- whether there has been prior calls involving these individuals,
- whether there is an order for protection (OFP), harassment restraining order (HRO) or criminal pre-trial or probationary domestic abuse no contact order (DANCO),
- whether children are present at the scene, and
- whether there are non-English speaking people, or people with mobility impairments or hearing impairments at the scene.

If the caller is the victim, the dispatcher should attempt to keep the caller on the telephone as long as possible and should tell the caller that help is on the way, and when the caller can expect the peace officers to arrive.

If the caller is a witness to an incident in progress, the dispatcher should attempt to keep the caller on the phone and should relay ongoing information provided by the caller to the responding peace officers.

If the responding peace officers are some distance away, and the dispatcher cannot remain on the telephone with the call/victim, the dispatcher should attempt to call back periodically to check on the progress of events, and call again when the officers arrive at the scene. If the dispatcher finds that a victim/caller who was recently available suddenly cannot be reached by phone or there is a persistent busy signal, the dispatcher should relay that information to the officers.

B. RESPONDING TO THE CALLS

1. Driving to the Scene: The peace officers should respond directly and without unreasonable delay to the scene.

2. Initial Contact with Occupants: Upon arriving at the scene of a domestic call, the responding officers should identify themselves as peace officers; explain their presence, and request entry into the home. The officers should ask to see the

person who is the alleged victim. The officers should separate parties prior to taking statements. If the person who called the law enforcement agency is someone other than the subject of the call, the officer should not reveal the caller's name. The officer should ensure all of the occupants are safe.

3. Entry

- Refused Entry – If refused entry, the officers should be persistent about seeing and speaking alone with the subject of the call. If access to the subject is refused the officers should request the dispatcher to contact the caller.
- Forced Entry – If access is still refused and the officers have reason to believe that someone is in imminent danger the officers are permitted to force entry.
- Search Warrant Entry – If the officers are refused entry and have no legal grounds for forced entry and have reasonable grounds to believe a crime has been committed, the officers should contact the appropriate authority to obtain a search warrant.

4. First Aid: After securing the scene, the responding peace officers shall provide the necessary first aid.

C. ARREST DECISIONS

1. Making Arrests: After securing the scene and providing any first aid, the peace officers will conduct an assessment of the lethality of the situation based on the totality of the circumstances and begin a criminal investigation to determine if there is probable cause to believe a crime has been committed based on the evidence and not solely upon the victim's desire to make an arrest. The officers should collect relevant physical evidence including weapons which may have been used, take photographs of the scene or any injuries and take statements from the involved parties and witnesses. Some of the evidence and statements include:

- photos of the scene,
- condition of clothing,
- property damage,
- evidence of physical injury including strangulation,
- excited utterances of the victim and the suspect,
- demeanor of the victim and the suspect,
- medical records including the victim's statements to paramedics, nurses and doctors,
- recorded interviews of witnesses including children who may have been present,
- evidence of any prior domestic abuse – related convictions including dates, and
- any existing OFPs, HROs or DANCOS.

NOTE: When determining probable cause, the peace officers should consider their observations and any statements made by the parties involved and any witnesses. Prior convictions may provide the basis for enhancement to a gross misdemeanor or felony charges (see D below).

2. Factors Not to be Considered in Making the Arrest:

- ownership, tenancy rights of either party, or the fact the incident occurred in a private place,
- belief that the victim will not cooperate with criminal prosecution or that the arrest may not lead to a conviction,
- verbal assurances that the abuse will stop,
- disposition of previous police calls involving the same victim or suspect,
- denial by either party that the abuse occurred when there is evidence of domestic abuse,
- lack of a court order restraining or restricting the suspect,

- concern about reprisals against the victim,
- adverse financial consequences that might result from the arrest, or
- chemical dependency or intoxication of the parties.

3. Predominant Aggressor and Dual Arrests: The agency shall discourage dual arrest¹.

Where there are allegations that each party assaulted the other, the peace officer shall determine whether there is sufficient evidence to conclude that one of the parties is the predominant aggressor based on the following criteria and the officer's judgment:

¹ MN STAT 629.342 which mandates the development of a written domestic abuse arrest policy for every law enforcement agency in the state specifies that the policy "shall discourage dual arrests, include consideration of whether one of the parties acted in self defense, and provide guidance to officers concerning instances in which officers should remain at the scene of a domestic abuse incident until the likelihood of further imminent violence has been eliminated."

- comparative extent of any injuries inflicted,
- fear of physical injury because of past or present threats,
- actions taken in self-defense or to protect oneself,
- the history of domestic abuse perpetrated by one party against the other, or
- the existence or previous existence of an order for protection.

4. Victim Request Not to Prosecute: If the officer finds probable cause to believe a domestic abuse offense has been committed and intends to arrest but the victim requests no arrest or prosecution, the officer should inform the victim that the decision to arrest is the officer's and the decision to prosecute lies with the prosecutor.

D. AUTHORITY AND TYPES OF ARREST

1. Warrantless Probable Cause Arrest for Fifth Degree Assault or Domestic Assault:

Although the general rule is that officers may not make probable cause arrests for misdemeanors unless the offense occurs in their presence (or a citizen who saw the crime requests an arrest) domestic assault is an exception. A peace officer may arrest a person anywhere without a warrant, including at the person's residence, if the peace officer has probable cause to believe that the person has, within the preceding 72 hours, assaulted, threatened with a dangerous weapon, or placed in fear of immediate bodily harm any person covered by the "family or household member" definition, even if the assault did not take place in the presence of the peace officer (Minn. Stat. 629.341). A peace officer acting in good faith and exercising due care in making an arrest

pursuant to this statute is immune from civil liability that might result from the officer's action.

NOTE: An arresting officer may not issue a citation in lieu of arrest and detention to an individual charged with assaulting the individual's spouse or other individual with whom the charged person resides (Minn. Stat. 629.72).

2. Level of Arrest for Fifth Degree Assault and Domestic Assault: Misdemeanor, Gross Misdemeanor and Felony: Assault in the Fifth Degree and Domestic Assault are deemed misdemeanor offenses. However, changes in the statutes have greatly increased the potential for arrests for these crimes at the gross misdemeanor and felony level.

a) *Gross Misdemeanors:* Minn. Stat. 609.224, subd. 2(a), Assault in the Fifth Degree, provides for an enhancement to a gross misdemeanor violation when the offense is against the same victim within ten years of a previous qualified domestic violence-related offense conviction or adjudication of delinquency in Minnesota, or any similar law of another state.

If the charge is Domestic Assault (Minn. Stat. 609.2242) and the current victim is a family or household member and the crime occurs within ten years of a previous qualified domestic violence-related offense conviction or adjudication of delinquency of any of the above offenses against any family or household member, the same gross misdemeanor enhancement applies. The prior conviction need not be against a member of the same family or household. If there is a prior conviction for assault or terroristic threats against any person within two years, a gross misdemeanor may also be charged.

b) *Felonies*: If a person commits Assault in the Fifth Degree against the same victim within ten years of the first of any combination of two or more previous qualified domestic violence-related offense convictions or adjudications of delinquency, Assault in the Fifth Degree becomes a felony. The same enhancement applies to Assault in the Fifth Degree against any victim occurring within three years of the first of two or more of these convictions.

Domestic assault against a family or household member is also enhanceable under the same circumstances except that the prior convictions may be against any family or household member. According to Minn. Stat. 609.2247, subd. 2., whoever assaults a family or household member by strangulation is guilty of a felony.

3. Stalking The acts which constitute stalking according to Minn. Stat. 609.749 include several which are frequently applicable to domestic abuse situations even when no actual assault occurred.

a) *Gross Misdemeanors*: A person who stalks another by committing any of the following acts is guilty of a gross misdemeanor:

1. directly or indirectly, or through third parties, manifests a purpose or intent to injure the person, property, or rights of another by the commission of an unlawful act;
2. follows, monitors, or pursues another, whether in person or through any available technological or other means;
3. returns to the property of another if the actor is without claim of right to the property or consent of one with authority to consent;
4. repeatedly makes telephone calls, or induces a victim to make telephone calls to the actor, whether or not conversation ensues;
5. makes or causes the telephone of another to repeatedly or continuously ring;
6. repeatedly mails or delivers or causes the delivery by any means, including electronically, of letters, telegrams, messages, packages, through assistance devices for the visually or hearing impaired, or any communication made through any available technologies or other objects; or
7. knowingly makes false allegations against a peace officer concerning the officer's performance of official duties with intent to influence or tamper with the officer's performance of official duties.

Also, according to Minn. Stat. 609.749., subd.1a., the State does not have to prove the actor intended to cause the victim to feel frightened, threatened, oppressed, persecuted or intimidated. The intent of the defendant is immaterial. Obtaining a complete domestic abuse history is usually the key to making the determination that the current act, under the circumstances, constitutes the crime of stalking.

b) *Felony/Felony Enhancements*: A person who commits any offense described in 3.a) (see above) against a victim under the age of 18, if the actor is more than 36 months older than the victim, and the act is committed with sexual or aggressive intent, is guilty of a felony.

Any of the above gross misdemeanors is enhanceable to a felony if committed within ten years of a previous QDRVO conviction or adjudication of delinquency OR if committed against a juvenile OR if committed while possessing a dangerous weapon.

In addition, it is a felony to engage in a pattern of stalking conduct with respect to a single victim or one or more members of a single household which the actor knows or has reason to know would cause a reasonable person under the circumstances to feel terrorized or to fear bodily harm and which does cause this reaction on the part of the victim. According to Minn. Stat. 609.749, subd. 5, a "pattern of stalking conduct" means two or more acts (convictions are not necessary) within a five-year period that constitute any of the following offenses: murder, manslaughter, terroristic threats, fifth-degree assault, domestic assault, violation of domestic abuse orders for protection, violation of harassment restraining orders, certain trespass offenses, interference with an emergency call, obscene or harassing telephone calls, letter, telegram, or package opening or harassment, burglary, damage to property, criminal defamation, first- to fifth-degree criminal sexual conduct, and violations of domestic abuse no contact orders.

The stalking statute makes it more important than ever to document not just the facts of the current police call but also the history of abuse or stalking.

c) Venue (Minn. Stat. 609.749, subp. 1b.): If a suspect commits acts of stalking in different counties, the acts may be consolidated and prosecuted in any county in which one of the acts was committed. If the conduct that constitutes stalking is done through use of a wireless or electronic communication device, the conduct can be prosecuted in the county where either the suspect or victim resides.

4. Probable Cause Warrantless Arrest: The domestic abuse arrest statute (Minn. Stat. 629.72) provides an officer may not issue a citation in lieu of arrest in harassment/stalking, domestic abuse, violation of an order for protection, or violation of a domestic abuse no contact order cases. According to Minn. Stat. 629.34, subd.1(c)(5) an officer may also make a warrantless probable cause arrest even if the offense did not occur in the officer's presence if the officer has reasonable cause to believe the offense was a gross misdemeanor or felony (no 72 hour restriction).

5. Probable Cause Felony Arrests for Other Crimes: At a domestic call peace officers shall consider whether other felonies have been committed including but not limited to, burglary, felony assault, terroristic threats, kidnapping, false imprisonment, and witness tampering.

NOTE: An Assault 5 may be chargeable as burglary in the first degree even if the home is also the offender's if the entry is made without consent of the victim and in violation of an OFP barring the offender from the premises.

6. Violation of Court Orders: The peace officer shall verify whether any of the following orders exist before or during an arrest. The peace officer or someone acting at the officer's direction may make this verification. Methods of verification include personally seeing a copy of the order or obtaining verification from the court or law enforcement agency that has the actual order. The police report shall include identifying information of the specific court order violated, including county of origin, the file number, and the provision allegedly violated.

a) *Order for Protection (OFP)*: A peace officer shall arrest and take into custody without a warrant a person who the peace officer has probable cause to believe has violated any condition of an OFP granted pursuant to Minn. Stat. 518B.01, subds. 6, 7, and 9. Such an arrest shall be made even if the violation of the order did not take place in the presence of the peace officer, if the officer can verify the existence of the order.

NOTE: Minn.Stat. 518B.01, subd. 18(a)(2), states that an OFP is not voided even if the respondent was invited back to the residence by the petitioner, and there is no hour limitation for a warrantless arrest for a violation of an OFP.

A violation of an OFP is a misdemeanor but is enhanceable to a gross misdemeanor if the offense occurs within ten years of discharge from sentence for conviction of violation of an OFP or for any conviction of assault, terroristic threats, violation of a harassment order or harassment/stalking. It is enhanceable as a felony if it occurs within ten years of discharge of the first of two or more such convictions.

OFPs and DANCOs can be verified on the State MNJIS system, also known as the Hot Files. HROs are not in the Hot Files system at this time but are still enforceable.

b) *Harassment Restraining Order (HRO)*: A peace officer shall arrest and take into custody a person who the peace officer has probable cause to believe has violated a harassment restraining order pursuant to Minn. Stat. 609.748, subds. 4 and 5, if the officer can verify the existence of the order.

NOTE: A person who violates an HRO is guilty of a misdemeanor if the violator knows of the order. This offense is enhanceable to a gross misdemeanor if it occurs within ten years of a previous qualified domestic violence-related offense conviction or adjudication of delinquency. Per Minn. Stat. 609.748, subd. 6, (d), it is enhanceable to a felony if the person knowingly violates the order:

- (1) within 10 years of the first of two or more previous qualified domestic violence-related offense convictions or adjudications of delinquency;
- (2) because of the victim's or another's actual or perceived race, color, religion, sex, sexual orientation, disability (as defined in section 363A.03), age, or national origin;
- (3) by falsely impersonating another;
- (4) while possessing a dangerous weapon;
- (5) with intent to influence or otherwise tamper with a juror or a judicial proceeding or with intent to retaliate against a judicial officer, as defined in section 609.414, or a prosecutor, defense attorney, or officer of the court, because of that person's performance of official duties in connection with a judicial proceeding; or
- (6) against a victim under the age of 18, if the respondent is more than 36 months older than the victim.

c) *Domestic Abuse No Contact Order (DANCO)* (Minn. Stat. 629.75): A peace officer shall arrest without a warrant and take into custody a person whom the peace officer has probable cause to believe has violated a DANCO, even if the violation of the order did not take place in the presence of the peace officer, if the existence of the order can be verified by the officer.

The pretrial DANCO is sometimes continued at the time of sentencing with a new, probationary DANCO issued as a condition of probation. This DANCO may be valid for the full probationary period indicated in the order.

The court may rescind a DANCO at any time. However, a victim's production of a copy of an apparently valid court order, absent contrary evidence, provides prima facie basis for arrest whenever there is probable cause to believe a violation of the order has occurred.

7. Other Misdemeanors: At a domestic call, the peace officer shall consider whether other crimes have been committed including but not limited to trespassing, criminal damage to property, disorderly conduct, witness tampering, or assault.

E. ASSISTANCE, STAYING AT THE SCENE, CRIME VICTIM RIGHTS, AND SERVICES

1. Staying at the Scene: If no arrest is made peace officers should remain at the scene of the disturbance until they believe that the likelihood of further imminent abuse has been eliminated. If a domestic abuse intervention program is available the peace officer should make contact for immediate intervention.

NOTE: Minn. Stat. 629.342 provides that when a peace officer does not make an arrest, the peace officer must provide immediate assistance to the victim including obtaining necessary medical treatment and providing the victim with the notice of rights pursuant to Minn. State. 629.341, subd. 3.

2. Assistance to Non-English Speaking Victims or Victims with Communication

Disabilities: The peace officer shall use the resource list established by the law enforcement agency to contact a person to assist in those cases where the participants in the domestic call, including the witnesses, are non-English speaking, are hearing-impaired, or have other communication disabilities. The officer should avoid the use of friends, family or neighbors serving as the primary interpreter for the investigation.

3. Notice of Crime Victims Rights: The peace officer shall give the victim of a domestic call a copy of the agency's crime victim notification form.

NOTE: It is important to routinely review these forms to ensure that they are current, in compliance with the law, and contain the name of the local domestic abuse program. The Department of Public Safety, Office of Justice Programs, produces the crime victim's rights notice and serves as the contact for the victim's rights information.

4. Services: The peace officer should contact the local domestic abuse program by phone as soon as possible on all arrest situations and provide the name and address of the victim and a brief factual account of events associated with the action. This section shall not apply if prohibited by the Minnesota Government Data Practices Act (Minn. Stat. 13.82, subd. 10.).

F. CHILDREN

1. Child Victims: If a child is present at the scene of a domestic call or is the victim of domestic abuse, the peace officer should determine whether the child has been subjected to physical abuse, sexual abuse, or neglect, and comply with the requirements of Minn. Stat. 626.556, Reporting of Maltreatment of a Minor. The officers shall also attempt to verify whether there has

been an Order for Protection (Minn. Stat. 260C.201). If the child has been injured, the officer should escort the child to the nearest hospital for treatment.

G. REPORTS AND FORMS

1. Written Report: Peace officers shall make a report after responding to a domestic call. If the officer did not arrest or seek an arrest warrant even though arrest was authorized, a detailed explanation of the reasons for the officer's decision not to arrest must be documented. The report should include the following:

- description of injuries;

If there is an arrest, the investigator shall determine the defendant's criminal record, and if there is evidence of a previous conviction, the peace officer should advise the prosecutors of any enhanced criminal sanctions which may be available.

2. Notwithstanding the fact that the officer has decided not to arrest one of the participants in the domestic call, the peace officer shall thoroughly document all relevant information in the report and shall refer the report to the appropriate prosecutor for review and consideration of criminal charges.

- b. An Officer should not conduct a high risk vehicle stop alone unless back-up units will not be available in an appropriate amount of time or the urgency of the situation demands immediate action.
- c. After selecting an appropriate location and with adequate support units in position, the Officer should signal the suspect to stop.
- d. Officers should position police vehicles approximately 30 feet behind the suspect vehicle in positions that provide cover and illuminate the interior of the suspect's vehicle.

- f. Once the suspect vehicle has stopped, exit police vehicle quickly and assume positions of cover.
- g. The Officer in charge shall identify himself and then notify the occupants that they are considered to be armed and dangerous and that all instructions are to be followed without hesitation or suspicious movements.
- h. Order the operator of the suspect vehicle to: lower the window, remove the ignition keys with his left hand, drop them on the ground, open the door from the outside, step out of the vehicle, turn completely around, face away from the Officers, walk backward until commanded to stop, kneel,

cross their feet and place hands behind their heads. Cuff and secure each person. Other occupants should be similarly commanded until all are in position to be handcuffed and searched.

- i. With appropriate cover, approach the suspect vehicle to inspect the passenger compartment and trunk.

6. **OVERSIZE AND OVER WEIGHT VEHICLES**

- a. Select a location for the stop that provides enough room for the vehicle and sufficient stability to support the vehicle's weight. Allow the operator sufficient time and distance to make the stop.
- b. Approach the cab from the rear, using the driver's outside mirror to observe the driver and activity in the cab.
- c. Never climb onto the vehicle to make contact with the operator. Maintain a position to the rear of the driver's door and ask the driver to exit the vehicle if and when necessary.

MILLE LACS BAND POLICE OPERATIONS MANUAL

GENERAL ORDER: 339.0

EFFECTIVE DATE: MARCH 1, 1996 REVISED: SEPTEMBER 20, 2005

SUBJECT: INFECTIOUS DISEASE POLICY

PURPOSE

To limit exposure of Officers to blood and other potentially infectious materials.

339.01 RESPONSIBILITY

To the extent practical, Officers must use appropriate protective equipment as required in the sections below.

339.02 DEFINITIONS

1. “Biohazard Bag” means a plastic bag capable of being sealed to ensure no leakage or contamination spread. The Bio-Hazard bag will be clearly marked as a biohazard bag and red in color.
2. “Blood” means human blood, human blood components and human blood products.
3. “Blood Borne Pathogens” means pathogenic microorganisms that are present in human blood and body fluids that can cause disease in humans. The pathogens include, but are not limited to, Hepatitis B Virus (HBV), Hepatitis C, Human Immunodeficiency Virus (HIV), Malaria, Syphilis and Tuberculosis.
4. “Decontamination” means the use of physical or chemical means to remove, inactivate or destroy blood borne pathogens on surfaces or items to the point where they can no longer transmit infectious particles and the surface or item is rendered safe for handling, use or disposal.
5. “Exposure Incident” means a specific eye, mouth or other mucous membrane or contact with blood or other potentially infectious materials that results from the performance of an employee's duties. An exposure incident includes a human bite.
6. “Occupational Exposure” means reasonably anticipated skin, eye, mucous membrane or other contact with blood or other potentially infectious materials that may result from the performance of an employee's duties.
7. “Licensed Health Care Professional” means a state accredited hospital or clinic.

8. “Other Potentially Infectious Materials (OPIM)” means semen, vaginal secretions, cerebral spinal fluid, pregnancy related fluid, saliva and any body fluid that is visibly contaminated with blood and all body fluids and situations where it is difficult or impossible to differentiate between types of body fluids. They may also include any tissue or organ other than intact skin from a human, living or dead (i.e. amputated limb).
9. “Personal Protective Equipment (PPE) and Supplies” means specialized clothing or equipment worn for protection against hazard.
10. “Regulated Waste” means liquid or semi-liquid or other potentially infectious materials, contaminated items that would include released blood or other potentially infectious material in a liquid or semi-liquid state if compressed, items that are caked with dry blood or other potentially infectious materials that are capable of releasing these materials during handling, contaminated sharp objects and pathological and microbiological wastes containing blood or other potentially infectious material.
11. “Universal Precautions” means an approach to infection control where all human blood and certain body fluids are treated as if known to be infectious for HIV, HBV and other blood borne pathogens.

339.03 PROCEDURES

1. Assaults

Officers encounter violent acts or accidents and potentially may be exposed to blood or other body fluids containing blood. Attacks involving biting and sharp objects are commonly related to arrests, routine interrogations, domestic disputes, lock up operations and correctional facility activities. Hand to hand combat may result in bleeding increasing chances of blood to blood exposure and the potential for blood borne disease transmission.

Whenever the possibility of exposure to blood or blood contaminated body fluid exists, appropriate protection should be worn if feasible under circumstances. Extreme caution must be used in dealing with suspects or prisoners. Gloves should be worn when blood is present or a suspect or inmate is combative or threatens staff. When clothing becomes contaminated by blood, an extra change of clothing should be available.

2. Cardiopulmonary Resuscitation

Although there have been no documented cases of HIV transmission through the administration of cardiopulmonary resuscitation, the possibility of transmission of infectious disease exists. Officers should use the protective masks and air ways supplied by the Department.

3. Searches and Crimes Scenes

- a. Officers face potential risks of acquiring HBV or HIV through exposure by puncture wounds or needle sticks during searches of persons, vehicles

or cells and during evidence handling. Officers should take the following precautionary measures to reduce the risk of infection:

- i. Use caution in searching the clothing of suspects. Discretion, based on the circumstances at hand, should determine if a suspect or a prisoner should empty his or her own pockets or if the Officer should use his or her own skills in determining the contents of a suspect's clothing.
- ii. Maintain a safe distance between Officer and the suspect.
- iii. Wear protective gloves if exposure is likely to be encountered.
- iv. Wear protective gloves for all body cavity searches.
- v. If cotton gloves are to be worn when working with evidence of potential latent fingerprints at a crime scene, they may be worn over protective disposable gloves when exposure to blood may occur.
- vi. When possible, use flash lights to search hidden areas such as under car seats, etc. even in daylight.
- vii. Carefully empty contents of a purse by turning it upside down over a table or floor.
- viii. Use puncture proof, clearly marked containers to store sharp objects.
- ix. To avoid tearing gloves, use evidence tape as much as possible, instead of metal staples to seal evidence.
- x. In general, items should be air dried before sealing in plastic. Follow established rules of evidence collection.

b. Crime Scenes

When crime scenes involves large amounts of blood, Officers must wear protective gloves. Where there is blood on the floor or furniture, protective clothing such as coveralls or aprons should be worn. These extra outer clothes should be removed prior to leaving the crime scene and disposed of properly. Officers should also refrain from handling personal items such as combs or ink pens that could become contaminated. Airborne particles of dried blood can be generated when a stain is scraped. Protective masks and eyewear or face shields should be worn when this type of evidence is being collected.

4. Handling deceased persons and body removal

When handling deceased persons, amputated limbs or other body parts, Officers should use the same precautionary procedures for CPR or First Aid. Wear gloves and cover all cuts and abrasions in an attempt to create a barrier. Carefully wash all exposed areas after any contact with blood. These same precautions should be used when handling amputated limbs or hands or other body parts. These procedures should be followed after contact with the blood of anyone, regardless if they are or suspected to be infected with HIV or HBV.

5. Autopsies

When Officers attend autopsies, wear protective masks and eye wear, laboratory coats, gloves and waterproof aprons. All autopsy materials should be considered infectious for both HIV and HBV. In addition, follow the rules and regulations required by the particular laboratory conducting the autopsy.

6. Forensic laboratories

The Department does not have a forensic laboratory but laboratory work may be performed at the Department or the crime scene. Officers must take precautions from any splashes or exposure to airborne and blood borne pathogens. Officers should follow universal precautions and use personal protective equipment when they may be exposed to blood borne pathogens.

339.04 VACCINATIONS

The Department will provide Hepatitis A and B vaccinations and an annual tuberculosis screening or more often at employees' request. Employees must sign the declination form if they choose not to vaccinate. The employee may later opt to receive the vaccine.

339.05 PERSONAL PROTECTIVE EQUIPMENT (PPE)

1. Personal Protective Equipment (PPE) supplied by the department consists of:

- a. Combination mask;
- b. Red biohazard disposal bag;
- c. Protective apron;
- d. Protective gloves; and
- e. Cleansing wipes with germ killing materials on them.

2. Disposal of contaminated PPE

- a. The Nay-Ah-Shing Clinic and the local Ambulance Service will dispose of any contaminated PPE. When removing contaminated PPE, avoid skin contact and place in a leak proof biohazard bag for storage and eventual proper disposal. Employees should take precautions to protect against breaks in the skin on hands, such as cuts and abrasions by applying bandaging and protective gloves. After an exposure incident employees should wash their hands immediately thereafter or as soon as feasible. If soap and water are not available, disinfect the area with an antiseptic towelette containing 79% isopropyl alcohol or EPA registered germicide. When antiseptic hand cleansers or towelettes are used, hands should still be washed with soap and running water as soon as possible.
- b. Equipment and work surfaces contaminated with blood or OPIM must be decontaminated as soon as possible. They can be decontaminated by washing with hot soapy water and disinfected using a solution of bleach and water. The recommended ratio is 1/4 cup of bleach to a gallon of water.
- c. Any contaminated material must be placed in a clearly marked biohazard bag and taken to Nay Ah Shing Clinic or turned over to the local Ambulance Service.

339.06 POST EXPOSURE EVALUATION AND FOLLOW UP

1. Reports

When employees have exposure, they must notify their supervisor IMMEDIATELY. Failure to do so may result in the Officer losing any worker compensation benefits. A "near miss" report form must be completed. The "near miss" form must be taken to the Risk Manager in the Human Resource Department within 24 hours.

2. Clinic

After reporting an exposure, the employee must report to the Nay Ah Shing Clinic. After hours, Officer must report to the nearest local hospital or clinic when exposure incidents occur as soon as possible. If a protocol has been established by the Clinic, Department employees will follow this protocol which may include specialized counseling. Medical evaluation and necessary related follow-up and counseling will be provided.

The health care professional will:

- a. Provide a written opinion to the employer and the employee within fifteen (15) days that states:
 - b. Whether HBV/HIV is indicated;
 - c. If the employee received HBV vaccination;
 - d. Make sure that the employee is informed of the results of the evaluation; and
 - e. Make sure that the employee has been told about any medical conditions resulting from exposure to blood which may require further evaluation or treatment.
3. Sergeant's Duties after Receiving a Report of exposure:
 - a. Document the route of exposure, circumstances of exposure and the date and time of the exposure.
 - b. Identify the source and HBV/HIV status by obtaining employee's written consent for testing;
 - c. Establish if legally required consent cannot be obtained;
 - d. Send a copy of the policy procedure and a description of the employee's duties to Nay Ah Shing Clinic;
 - e. Provide a result of the source individual's testing to the employee if available.
 - f. Inform employee of the applicable State/Tribal laws and regulations concerning disclosure of source individual's identity and infectious status.
 - g. Assure that the follow up provides counseling, collection and testing of blood samples for HBV and HIV status. Ensure that the blood sample from the source is held for ninety (90) days if the employee refuses testing.
 - i. Make sure the first report of injury/accident-investigation report is complete.

339.07

MANDATORY TRAINING

- a. All officers will undergo mandatory blood borne pathogens/hazardous materials training annually.

MILLE LACS BAND POLICE OPERATIONS MANUAL

GENERAL ORDER: 340.0

EFFECTIVE DATE: FEBRUARY 6, 2006

SUBJECT: NOPTIC POLICY

PURPOSE

To establish uniform guidelines for the operation and use of patrol vehicle installed Thermal Imaging Camera equipment and to establish retention and classification of any evidence obtained from its use.

340.1 POLICY:

NOPTIC enables officers to identify and monitor a perpetrator in complete darkness. The ability to observe while going undetected enables officers to perform their duties with stealth and accuracy and can be a valuable tool to patrol officers. Usage of such equipment includes but is not limited to conducting stealth surveillance, locating hidden perpetrators or lost individuals, identifying recently operated vehicles, detecting heat inside buildings, monitoring neighborhood streets, construction sites, and parking lots

340.2 PROCEDURE

An officer that is assigned a vehicle mounted NOPTIC is responsible for the proper use and operation of the equipment. Officers should inspect and conduct a function check of the equipment at the beginning of each assigned shift. Officers shall notify their supervisor if any equipment is not functioning properly. Repairs should only be made with supervisor approval.

The NOPTIC system is designed to be automatically operational by turning on the ignition of the vehicle. The NOPTIC system has the capability of recording at the discretion of the operator.

An officer assigned a vehicle with the NOPTIC system shall, receive, read and maintain and Operations manual for the system.

The officer will comply with State laws relative to search and seizure or privacy laws as well as Minnesota, Mille Lacs Band and United States Constitutions. Search warrants are required in situations where the NOPTIC is to be used to gather evidence inside private property absent exigent circumstances.

When a NOPTIC recording is to be used as evidence, it shall be reviewed by an individual trained in the interpretation of thermal imagining if needed, and retained as evidence.

Whenever a NOPTIC recording exists, the recording constitutes “Evidence” and the legal rules of evidence apply. The recording will have an evidence tracking label and secured as evidence.

Recordings may be converted for training purposes upon supervisor approval and when there is no evidentiary need to retain the recording.

340.3 DUPLICATION

1. Any time a recording is to be duplicated for prosecution, it shall be done by the operator, or records custodian at the operator’s direction, prior to being placed into evidence. Further duplications will be done by the law enforcement agency, while maintaining a secure chain of custody. The original is to remain in the custody of the originating law enforcement agency except when need as evidence at a trial.
2. Copies of NOTPIC recordings that are provided to the prosecution or to Court will be at “No Charge.”
3. Requests for duplication of NOPTIC recordings from other public or private entities shall be provided in accordance with data practices policy. The requestor must pre-pay the duplicating costs. The fee for this service will be established by the fee schedule established for the law enforcement agency.
4. Copies of NOPTIC recordings shall not be made or distributed without the express permission of a supervisor except when providing a copy to the prosecution.

MILLE LACS BAND POLICE OPERATIONS MANUAL

GENERAL ORDER: 341.0

EFFECTIVE DATE: MARCH 1, 1996 REVISED: February 5, 2019

SUBJECT: INVESTIGATING SEXUAL ASSAULTS

PURPOSE

The purpose of this policy is to provide employees with guidelines for responding to reports of sexual assault. This agency will strive:

- a) To afford maximum protection and support to victims of sexual assault or abuse through a coordinated program of law enforcement and available victim services with an emphasis on a victim centered approach;
- b) To reaffirm peace officers' authority and responsibility to conducting thorough preliminary and follow up investigations and to make arrest decisions in accordance with established probable cause standards;
- c) To increase the opportunity for prosecution and victim services.

341.01 POLICY

It is the policy of the Mille Lacs Tribal Police Department to recognize sexual assault as a serious problem in society and to protect victims of sexual assault by ensuring its peace officers understand the laws governing this area. Sexual assault crimes are under-reported to law enforcement and the goal of this policy is in part to improve victim experience in reporting so that more people are encouraged to report.

All employees should take a professional, victim-centered approach to sexual assaults, protectively investigate these crimes, and coordinate with prosecution in a manner that helps restore the victim's dignity and autonomy. While doing so, it shall be this agency's goal to decrease the victim's distress, increase the victim's understanding of the criminal justice system and process, and promote public safety.

Peace officers will utilize this policy in response to sexual assault reported to this agency. This agency will aggressively enforce the laws without bias and prejudice based on race, marital status, sexual orientation, economic status, age, disability, gender, religion, creed, or national origin.

Investigating sexual assaults against juveniles should also incorporate procedures set forth in the policy on child abuse and neglect. If a juvenile is sexually assaulted, apply the procedures set forth in General Order 347.0

341.02 DEFINITION

Stat. 595.02, subd. 1(1) who provide confidential advocacy services to victims of sexual assault and domestic abuse. Victim advocates as defined provide coverage in all counties in Minnesota. Minnesota Office of Justice Programs (MN OJP) can assist departments in locating their local victim advocacy agency for the purposes outlined in this policy.

- H. **Victim Centered:** A victim-centered approach prioritizes the safety, privacy and well-being

of the victim and aims to create a supportive environment in which the victim's rights are respected and in which they are treated with dignity and respect. This approach acknowledges and respects a victims' input into the criminal justice response and recognizes victims are not responsible for the crimes committed against them.

 - (ii) because of the dysfunction or infirmity and the need for assistance, the individual has an impaired ability to protect the individual from maltreatment.

341.03 PROCEDURES

B. Communications Personnel Response/Additional Actions by Responding Officers

Communications personnel and/or law enforcement officers should inform the victim of ways to ensure critical evidence is not lost, to include the following:

- 1) Suggest that the victim not bathe, or clean him or herself if the assault took place recently.
- 2) Recommend that if a victim needs to relieve themselves, they should collect urine in a clean jar for testing, and should avoid wiping after urination.
- 3) Asking the victim to collect any clothing worn during or after the assault and if possible, place in a paper bag, instructing the victim not to wash the clothing (per department policy).
- 4) Reassure the victim that other evidence may still be identified and recovered even if they have bathed or made other physical changes.

C. Initial Officer Response

When responding to a scene involving a sexual assault, officers shall follow standard incident response procedures. In addition, when interacting with victims, officers shall do the following:

- i. Assess whether immediate medical attention is necessary for the victim in the initial response. This is in the manual in regards to domestic violence, but I think

it could be included in the sexual violence section as well. Native women are more likely to be physically assaulted during sexual assault, particularly in sustaining blows to the head, so they are may be more at risk for a TBI or other serious injuries needing medical attention that may not be visible but become apparent after speaking with the victim (such as indications of brain injury). As always, the victim should be informed of his/her right to consent or decline in whether to acquire medical services following a sexual assault.

- ii. Ask if the victim would like a woman officer present or a woman victim's advocate present during the interview. A lot of victims don't feel comfortable speaking with male officers after a sexual assault and will report that they want to speak to a woman officer/advocate. If a woman officer isn't available, permit the victim to have a woman victim's advocate accompany her to the interview.
- iii. Recognize that the victim experienced a traumatic incident and may not be willing or able to immediately assist with the criminal investigation.
- iv. The officer shall attempt to determine the location/jurisdiction where the assault took place.
- v. Explain the reporting process including the roles of the first responder, investigator, and anyone else with whom the victim will likely interact during the course of the investigation.
- vi. Officers are encouraged to connect the victim with local victim advocates as soon as possible. Inform the victim that there are confidential victim advocates available to address any needs they might have and to support them through the criminal justice system process. Provide the victim with contact information for the local victim advocate. Upon victim request the officer can offer to contact local victim advocate on behalf of the victim.
- vii. Ask about and document signs and symptoms of injury, to include strangulation. Officers shall attempt to obtain a signed medical release from the victim.
- viii. Ensure that the victim knows they can go to a designated facility for a forensic medical exam. Offer to arrange for transportation for the victim.
- ix. Identify and attempt to interview potential witnesses to the sexual assault and/or anyone the victim told about the sexual assault.
- x. Request preferred contact information for the victim for follow-up.

D. Victim Interviews

This agency recognizes that victims of sexual assault due to their age or physical, mental or emotional distress, are better served by utilizing trauma informed interviewing techniques and strategies. Such interview techniques and strategies eliminate the duplication of interviews and use a question and answer interviewing format with questioning nondirective as possible to elicit spontaneous responses.

In recognizing the need for non-traditional interviewing techniques for sexual assault victims, officers should consider the following:

- Offer to have a confidential victim advocate present (if possible) if the victim would benefit from additional support during the process
- Whenever possible, conduct victim interviews in person
- Make an effort to conduct the interview in a welcoming environment
- Let the victim share the details at their own pace
- Recognize victims of trauma may have difficulty remembering incidents in a linear fashion and may remember details in days and weeks following the assault
- After the initial interview, consider reaching out to the victim within a few days, after at least one sleep cycle to ask if they remember any additional details.
- Depending on the victim, additional interviews might be needed to gather additional information. Offer support from a victim advocate to the victim to help facilitate engagement with the investigative process and healing.
- Some victims do remember details vividly and might want to be interviewed immediately.
- During initial and subsequent victim interviews, officers should note the following information as victims share it, recognizing that a victim may not be able to recall all the details of the assault during a particular interview.
 - 1) Whether the suspect was known to the victim
 - 2) How long the victim knew the suspect
 - 3) The circumstances of their meeting and if there is any indication of the use of drugs or alcohol to facilitate the sexual assault
 - 4) The extent of their previous or current relationship
 - 5) Any behavioral changes that led the situation from one based on consent to one of submission, coercion, fear, or force
 - 6) Specific actions, statements, and/or thoughts of both victim and suspect immediately prior, during, and after assault
 - 7) Relevant communication through social media, email, text messages, or any other forms of communication

E. Special Considerations—Minors and Vulnerable Adults/Domestic Abuse Victims

1. Minors and Vulnerable Adults

This agency recognizes that certain victims, due to their age or a physical, mental, or emotional distress, are better served by utilizing interview techniques and strategies that eliminate the duplication of interviews and use a question and answer interviewing format with questioning as nondirective as possible to elicit spontaneous responses. Members of this agency will be alert for victims who would be best served by the use of these specialized interview techniques. Officers, in making this determination, should consider the victim's age, level of maturity, communication skills, intellectual capacity, emotional state, and any other observable factors that would indicate specialized interview techniques would be appropriate for a particular victim. When an officer determines that a victim requires the use of these specialized interview techniques, the officer should follow the guidance below.

- a. Officers responding to reports of sexual assaults involving these sensitive population groups shall limit their actions to the following:

- (1) Ensuring the safety of the victim;
- (2) Ensuring the scene is safe;
- (3) Safeguarding evidence where appropriate;
- (4) Collecting any information necessary to identify the suspect; and
- (5) Addressing the immediate medical needs of individuals at the scene

- b. Initial responding officers should not attempt to interview the victim in these situations, but should instead attempt to obtain basic information and facts about the situation, including the jurisdiction where the incident occurred and that a crime most likely occurred. Officers should seek to obtain this information from parents, caregivers, the reporting party, or other adult witnesses, unless those individuals are believed to be the perpetrators.
- c. Officers responding to victims with special considerations must comply with the mandated reporting requirements of Minnesota Statute 626.556 and 626.557, as applicable. Officers investigating cases involving victims with special considerations should coordinate these investigations with the appropriate local human services agency where required. Any victim or witness interviews conducted with individuals having special considerations must be audio and video recorded whenever possible. All other interviews must be audio recorded whenever possible.

Not all sexual assaults of minor victims require a mandatory report to social services. This policy recognizes that in certain cases, notifying and/or the involvement of a parent/guardian can cause harm to the minor and/or impede the investigation. Officers responding to the sexual assault of a minor victim that does not trigger a mandated report under Minn. Stat. 626.556 should assess for the impact on the victim and the investigation if parents/guardians were notified before making a decision to involve them.

- d. Officers should obtain necessary contact information for the victim's caregiver, guardian or parents and where the victim may be located at a later time. Officers should advise the victim and/or any accompanying adult(s), guardians or caregivers that an investigating officer will follow up with information on a forensic interview.
- e. The officer should advise the victim's caregiver, guardian or parent that if the victim starts to talk about the incident they should listen to them but not question them as this may influence any future statements.

2. Victims of Domestic Abuse

Officers responding to a report of sexual assault committed against a family and household member must also follow the requirements and guidelines in this agency's domestic abuse policy and protocol, in addition to the guidelines in this policy.

F. Protecting Victim Rights

- 1) Confidentiality: Officers should explain to victims the limitations of confidentiality in a criminal investigation and that the victim's identifying information is not accessible to the public, as specified in Minn. Stat. section 13.82, subd. 17(b)

- 2) Crime Victim Rights: Officers must provide the following information to the victim:
 - a. Crime victim rights and resource information required to be provided to all victims as specified by Minn. Stat. section 611A.02, subd. 2(b)
 - b. If the suspect is a family or household member to the victim, crime victim rights and resource information required to be provided to domestic abuse victims, as specified by Minn. Stat. section 629.341, subd. 3.
 - c. The victim's right to be informed of the status of a sexual assault examination kit upon request as provided for under Minn. Stat. section 611A.27, subd. 1.
 - d. Pursuant to Minn. Stat. 611A.26, subd. 1, no law enforcement agency or prosecutor shall require that a complainant of a criminal sexual conduct or sex trafficking offense submit to a polygraph examination as part of or a condition to proceeding with the investigation, charging or prosecution of such offense.
- 3) Other information: Officers should provide to the victim the agency's crime report/ICR number, and contact information for the reporting officer and/or investigator or person handling the follow up.
- 4) Language access: All officers shall follow agency policy regarding limited English proficiency.

G. Evidence Collection

- 1) Considerations for Evidence Collection
Officers shall follow this agency's policy on crime scene response. In addition, officers may do the following:
 - a. Collect evidence regarding the environment in which the assault took place, including indications of isolation and soundproofing. The agency should consider utilizing their agency or county crime lab in obtaining or processing the scene where the assault took place. This should be in accordance to any/all other policies and procedures relating to evidence collections.
 - b. Document any evidence of threats or any communications made by the suspect, or made on behalf of the suspect, to include those made to individuals other than the victim.
 - c. In situations where it is suspected that drugs or alcohol may have facilitated the assault, officers should assess the scene for evidence such as drinking glasses, alcohol bottles or cans, or other related items.
 - d. If the victim has declined or a medical forensic exam will not be conducted, the officer should obtain victim consent and attempt to take photographs of visible physical injuries, including any healing or old injuries. Victim should be given directions about how to document any bruising or injury that becomes evidence later after these photographs are taken.

H. Sexual Assault Medical Forensic Examinations

- 1) Prior to the sexual assault medical forensic examination the investigating officer should do the following:

- a. Ensure the victim understands the purpose of the sexual assault medical forensic exam and its importance to both their general health and wellness and to the investigation. Offer assurance to the victim that they will not incur any out-of-pocket expenses for forensic medical exams and provide information about evidence collection, storage and preservation in sexual assault cases.
 - b. Provide the victim with general information about the procedure, and encourage them to seek further detail and guidance from the forensic examiner, health care professional, or a victim advocate. Officers and investigators cannot deny a victim the opportunity to have an exam.
 - c. Officers should be aware and if necessary, relay to victims who do not want to undergo an exam that there might be additional treatments or medications they are entitled to even if they do not want to have an exam done or have evidence collected. Victims can seek that information from a health care provider or a victim advocate. If possible, transport or arrange transportation for the victim to the designated medical facility.
 - d. Ask the victim for a signed release for access to medical records from the exam.
- 2) Officers should not be present during any part of the exam, including during the medical history.
 - 3) Following the exam, evidence collected during the exam shall be handled according to the requirements of agency policy and Minnesota Statute 299C.106.

I. Contacting and Interviewing Suspects

Prior to contacting the suspect, officers should consider the following:

- 1) Conduct a background and criminal history check specifically looking for accusations, criminal charges, and convictions for interconnected crimes, especially crimes involving violence.
- 2) Consider conducting a pretext or confrontational call or messaging depending on jurisdictional statutes. Involvement of a victim should be based on strong consideration of the victim's emotional and physical state. A victim advocate should be present whenever possible to offer support.
- 3) When possible, an attempt would be made to interview the suspect in person.
- 4) In situations where suspects do not deny that a sexual act occurred, but rather assert that it was with the consent of the victim, officers should do the following:
 - a. Collect evidence of past communication, including but not limited to all relevant interaction (including social media) between the suspect and victim.
 - b. Identify events that transpired prior to, during, and after the assault in an effort to locate additional witnesses and physical locations that might lead to additional evidence.
- 5) For sexual assaults involving strangers, officers should focus investigative efforts on the collection of video, DNA, and other trace evidence used for analysis to identify the perpetrator (handle evidence collection per agency policy).

J. Forensic Examination and/or the Collection of Evidence from the Suspect

Note: A suspect's forensic examination and/or the collection of evidence from a suspect may be done by either an investigating officer/investigator, Forensic Medical Examiner, or the agency/county crime lab personnel.

- 1) Prior to or immediately after the preliminary suspect interview, photograph any injuries.

- 2) Determine whether a sexual assault medical forensic examination should be conducted.
- 3) Ask for the suspect's consent to collect evidence from their body and clothing. However, officers/investigators should consider obtaining a search warrant, with specific details about what evidence will be collected, and should be prepared in advance to eliminate the opportunity for the suspect to destroy or alter evidence if consent is denied.
- 4) During the suspect's sexual assault medical forensic examination, the investigator, evidence technician, or forensic examiner should do the following:
 - a. Strongly consider penile swabbing, pubic hair combings, and collection of other potential DNA evidence;
 - b. Collect biological and trace evidence from the suspect's body;
 - c. Document information about the suspect's clothing, appearance, scars, tattoos, piercings, and other identifiable marks;
 - d. Seize all clothing worn by the suspect during the assault, particularly any clothing touching the genital area;
 - e. Document the suspect's relevant medical condition and injuries.

K. Role of the Supervisor

Supervisors may do the following:

- 1) Assist officers investigating incidents of sexual assault when possible or if requested by an officer.
- 2) Provide guidance and direction as needed.
- 3) Review sexual assault reports to ensure that necessary steps were taken during initial response and investigations.

L. Case Review/Case Summary

A supervisor should ensure cases are reviewed on an on-going basis. The review process should include an analysis of:

- 1) Case dispositions
- 2) Decisions to collect evidence
- 3) Submissions of evidence for lab testing
- 4) Interviewing decisions

MILLE LACS BAND POLICE OPERATIONS MANUAL

GENERAL ORDER: 342.0

EFFECTIVE DATE: MARCH 1, 1996 REVISED: OCTOBER 21, 2009

SUBJECT: INVESTIGATING CHILD ABUSE

PURPOSE

To provide guidelines for recognizing child abuse and neglect and for coordinating the investigation with child protective service agencies and prosecuting attorney.

342.01 POLICY

Traditionally, child abuse and neglect have been regarded as the responsibility of child protective services and social welfare agencies. A large percentage of repeat offenses which involve serious injury or death, however, involve known offenders. It is the position and policy of this Law Enforcement agency that effective response to child maltreatment requires cooperative and coordinated efforts between social welfare and Law Enforcement agencies. All reports of child abuse and neglect shall be thoroughly investigated and measures taken consistent with the law that will best protect the interests of the child. Officers should be aware of state and tribal statutes that define child abuse, neglect and abandonment.

342.02 DEFINITIONS

1. “Child Abuse means” means any situation in which parents, guardians or other responsible adults have inflicted physical assaults upon a child, including sexual abuse; when the child has been exploited for sexual purposes such as through prostitution or pornography; has been subjected to reckless endangerment that has or would likely cause physical harm; or, has been subjected to emotional assault such as close, sustained confinement.
2. “Child Neglect” means any situation in which parents, guardians, or other responsible adults have failed to provide for the essential physical needs of the child including food, clothing and shelter and that caused or would likely cause serious physical injury, sickness or disability; failure to provide essential medical care necessary to treat or prevent serious physical injury, illness or emotional disability; or failure to provide needed emotional nurturing and stimulation that has or could likely cause emotional injury over time.
3. “Abandonment” means leaving a child alone or in the care of another under circumstances that demonstrate an intentional abdication of parental responsibility.

342.03 PROCEDURES

1. Reporting / Initial Complaint Response

a. Mandated Reporters

Public and private officials such as physicians, dentists, school employees, clergy and others must report child abuse and neglect. Officers shall record and respond to all reports of child abuse, neglect and abandonment irrespective of the source or method of reporting.

b. Officers shall conduct a preliminary interview with the reporting individual (when known) to determine the basis for the report. Officers should include the following information:

j. The physical condition of the child;

k.

l. Officers will make contact with the victim to ensure their safety. Officers will note and photograph any injuries to the victim. If there are no injuries the officers will document the facts in a police report.

ii. A description of the abusive or neglectful behavior;

iii. Evidence of parental disabilities such as alcoholism, drug abuse, mental illness or other factors that demonstrate or suggest their inability to care for the child;

iv. Description of suspicious injuries or conditions;

v. The nature of any statements made by the child concerning parental maltreatment; and

vi. Any evidence of parental indifference or inattention to the child's physical or emotional needs.

c. When the source of the report cannot be identified and / or time is not of the essence, a report of the complaint shall be made to the State and Tribal child protective authority as prescribed by law. Where reasonable suspicion exists for further investigation, a coordinated investigative effort should be undertaken with the child protection authority.

d. Officers shall take immediate action when:

i. The complaint warrants arrest or criminal prosecution;

ii. Officers will notify their supervisor unless the supervisor is on-scene. If a supervisor is not available Officers will contact the Investigator and brief them on the call. If a supervisor is available they will contact

the Investigator. A determination will be made if the Investigator should respond or conduct follow up at a later time.

- ii. Child protective personnel are not available and time is of the essence;
 - iii. The child is in danger and child protective personnel cannot enter the home;
 - iv. The suspected perpetrator may flee;
 - v. Police presence is required to maintain order or to protect the safety of child protection Officers; or
 - vi. When the child must be taken into protective custody against parental wishes.
- e. The preferred removal of a child from the home is by court order. In cases of abandonment, severe abuse or neglect where the child is in imminent danger of death or serious bodily harm and time is of the essence, an Officer shall, in compliance with State and Tribal law, remove the child from the home for purposes of protective custody. The assistance of child welfare workers should be sought if available in a timely manner. Parental permission should also be sought but is not required in order to remove the child under emergency circumstances.
- f. In cases where protective custody is warranted and time permits, the State and Tribal child protection agency shall be notified and a court order for protective custody shall be sought prior to the child's removal.

2. Background Investigation

- a. Investigating complaints of child abuse generally requires contacting several sources of information depending on the nature of the complaint and the scope of the abuse. In all but emergency situations, Officers should conduct this background before interviewing the family and / or the child.
- b. Determine whether a court protective order is in force with regard to the child or other members of the family. Conduct criminal background check on the suspect.
- c. Contact medical personnel, including family practitioners, emergency room staff and medical examiners, for information that confirms or suggests abuse. Certain types of injuries are particularly characteristic of

physical abuse and are most incriminating when they do not correlate with parental explanations of how they occurred. They include:

- i. “Pattern” injuries that may be linked to specific objects used in an attack such as hot irons, coat hangers, fingertip marks caused by tight gripping; straight, curved or curvilinear or jagged lesions indicating whipping; bite marks; and scald or peculiar burn marks;
 - ii. Injuries to specific body parts such as the genitals, buttocks or the rectum. Trauma to the torso, upper arms and thighs *in the absence of other common injuries commonly suffered by children in play accidents* such as skinned knees, elbows and forehead;
 - iii. Signs of old injuries to various parts of the body in different stages of healing, particularly those that are not common to childhood;
 - iv. Bone fractures of small children and related injuries that are inconsistent with the child's level of maturity and risk of injury, such as spinal fractures (suggesting vigorous shaking), fractures to the rear and upper skull (suggesting blows to the head), subdural hematomas without scalp contusions (suggesting violent shaking with resultant head whiplash), and fractures of long bones and joints that are suggestive of violent pulling, twisting or jerking of the extremities;
 - v. A history, pattern, or extent of injury that does not correlate with the alleged cause of death or means of injury;
 - vi. Inordinate delay in seeking medical attention, evidence of administration of home remedies for relatively serious injuries, history of prior visits to different emergency rooms, frequent changes of physicians and prior diagnosis of "failure to thrive;" and
 - vii. At autopsy, the presence of old injuries or other internal injuries that were not detectable through external examination.
- d. Social workers may have had prior contact with the suspect's family. These agencies may provide information on family background, employment, economic and domestic stability and previous contacts with child protective service agencies.
 - e. Schoolteachers may also provide some insight into cases of suspected child abuse through records of the child's attendance, grades, demeanor, socialization, motivation and perceived emotional stability.

- f. Behavioral factors that may suggest child abuse include:
 - i. Recurrent injuries or complaints of parental physical mistreatment;
 - ii. Marked changes in the child's behavior or level of achievement;
 - iii. Strong antagonism toward authority;
 - iv. Exaggerated reactions to being touched;
 - v. Withdrawal from peers or assaultive or confrontational behavior;
 - vi. Delinquent acts, running away from home or truancy; and
 - vii. Refusal to dress for physical education or dressing inappropriately.
- g. The foregoing indicators may also be used when interviewing neighbors or any other individuals who may have personal knowledge of the family situation.

3. Family Interview

- a. Information from the background investigation may provide sufficient reasonable suspicion to conduct an interview with the family and the child.
- b. If there is reason to believe that charges may be filed against the parents or others, interviews should be conducted at the law enforcement agency and the Officer must contact the prosecutor's office.
- c. A child protective social worker should participate with the investigator in the interview.
- d. The interview should be conducted in a non-accusatory, informal, fact-finding manner and questions should be presented in an open-ended format to allow parents or others complete latitude in responding.
- e. In determining whether to accept a parent's explanation, Officers should consider the following questions. (Findings consistent with those in parenthesis may indicate a greater likelihood of abuse.)
 - i. Is it reasonable to believe that the child's injuries were self-inflicted or accidental given the child's maturity, manual dexterity and ability to walk or stand? (No)
 - ii. Was the parent's statement consistent with other evidence? (No)

- iii. Do parents claim ignorance of critical details of the incident? (Yes)
 - iv. Does the home appear to be clean and well maintained? (No)
 - v. Does the family live in a socially isolated environment without the support of neighbors, friends or family? (Yes)
 - vi. Do the parents appear to support one another in a positive home environment? (No)
 - vii. Does there appear to be frequent or ongoing crises in the family? (Yes)
 - viii. Does the child in question appear to be regarded by the parent(s) in a negative light? (Yes)
- f. Some parents may explain or excuse the incident as a legitimate attempt to discipline the child. For discipline to be reasonable and acceptable, it should be:
- i. appropriate to the misbehavior involved but never involve serious bodily injury;
 - ii. consistent with the child's ability to understand its relevance to acts in question; and
 - iii. administered with prudence and caution rather than recklessly, brutally or without sufficient regard for the child's endurance.

6. Interviewing Children

- a. Children should be interviewed separately from their parents.
- b. Repeated interviews with the child should be avoided whenever possible. Joint interviews with the child protective worker or prosecutor, for example, may help minimize the trauma of these sessions.
- c. Avoid questions that can be answered with a "yes" or "no" response. Use open-ended questions whenever possible.
- d. Anatomically correct dolls should only be used by trained investigators.
- e. Sit with the child rather than across a table. Conduct the interview in a casual and non-threatening manner.

- f. Do not lead, suggest answers to, probe or pressure the child for answers, express concern, shock or disbelief in response to answers.
 - g. Reassure children that they are not to blame and not in trouble for what happened or for being asked questions.
5. Physical Evidence
- a. Color photographs of injuries should be taken and preserved for evidentiary purposes by medical personnel or a same-sex Officer of this agency. All injuries should be described in writing and diagrammed.
 - b. X-rays should be taken, if appropriate, collected and preserved.
 - c. Photographs of the child's home conditions should be taken and preserved.
 - d. Clothing that contains evidence such as blood or semen stains and any objects used in the physical attack should be identified and preserved.
 - e. Any other items that relate to the abuse or neglect, such as guns, knives, drugs, poisons or related items in possession of the suspected perpetrator, should be identified and collected.
6. Training; this agency's training function shall be responsible for ensuring that Officers and investigators receive necessary training to effectively implement this policy.

MILLE LACS BAND POLICE OPERATIONS MANUAL

GENERAL ORDER: 343.0

EFFECTIVE DATE: MARCH 1, 1996 REVISED; OCTOBER 1, 2009

SUBJECT: CRIME SCENES

PURPOSE

To provide guidelines for responding effectively to major crimes.

343.01 POLICY

All Officers must understand and follow applicable procedures established herein to effectively protect, collect and preserve evidence of a crime and conduct initial investigative and other essential tasks at crime scenes. The actions of patrol and investigative Officers at crime scenes often determine the course and success of a criminal investigation. Initial responding Officers play the lead role by protecting the crime scene, rendering emergency services and initiating the investigation.

343.02 PROCEDURES

1. Initial Response

Initial responding Officers shall initiate the preliminary investigation and perform tasks as designated below until otherwise directed by an Investigator specifically assigned to criminal investigations.

- a. En route to crime scenes, Officers shall be cognizant of suspects/vehicles that may be in flight.
- b. Upon arrival, verify that a crime has been committed and relay essential information to communications. Conduct a search of the area to make the scene safe.
- c. Administer first aid and/or summon emergency medical assistance if required and take those steps necessary to protect victims or others.
- d. Arrest the perpetrator if at the scene. A decision to leave the crime scene to arrest or pursue the perpetrator should be made based on weighing the immediate needs of victims and others against the safety of the public if the perpetrator were allowed to escape.
- e. Provide communications center with such information as:

- i. Nature of the crime committed;
 - ii. Description of the perpetrator and mode/direction of flight;
 - iii. Description of any vehicle used by the offender and any accomplices;
 - iv. Use of firearms or other deadly weapons; and
 - v. Any support required at the crime scene.
- f. Identify any witnesses to the crime scene, secure their identities and request that they remain present at the crime scene until they can be interviewed.
- i. Where reasonably possible, obtain the identities of any other persons who were present upon arrival at the crime scene.
 - ii. Note the license tags of vehicles parked near the crime scene and be aware of suspicious persons at or near the crime scene.
- g. Provide Supervisors and any other investigative personnel arriving on the scene with complete information on the offense and the measures taken this far by Officers and others.

2. Preservation of the Crime Scene

- a. Responding Officers shall enter crime scenes only for purposes of aiding victims or by-standers in need of immediate assistance, apprehending perpetrators or securing the area. Other entries shall be permitted only under direction of a supervisor or Investigator. Officers making initial entries for the above purposes shall, where feasible, avoid touching, walking upon, moving objects or otherwise altering or contaminating the crime scene.
- b. Define the boundaries of the crime scene to include all areas that may be reasonably searched for evidence. As necessary, considering the nature and seriousness of the crime, Officers should:
- i. Request backup assistance to restrict access to the crime scene and control any onlookers;
 - ii. Erect barricade tape, rope or cordon off and lock otherwise secure the immediate crime scene and restrict access to defined crime perimeters; and

- iii. Record any alterations made at the crime scene due to emergency assistance to victims, the actions of persons reporting the crime, handling of any items of evidentiary value or other actions.
- c. Restrict all persons from the crime scene who are not directly involved in the investigation. In cases of homicides or other major crimes the Officer-in-charge (OIC) shall ensure that the identity of all persons entering the crime scene is recorded.
- d. Homicides and other major crime scenes should be approached only as needed in a single defined line in order to avoid destruction of footprints and other impressions and the contamination of scent rails that may be useful in canine searches. The "place last seen" of kidnapped or missing persons should also be protected in a similar manner.
- e.
- f. Officers will contact their Supervisor, unless the Supervisor is present. If a Supervisor is not present and unable to be contacted, Officers will notify the Investigator and brief them on the call. If a Supervisor is contacted, and/or at the scene, they will contact the Investigator. A determination will be made if the Investigator will respond or conduct follow up at a later date.

3. Collection of Evidence

Initial responding Officers at major crime scenes shall not engage in collection of items of potential evidentiary value unless exigent circumstances exist or authorization of a supervisory Officer is received. Officers may engage in the following tasks as directed by the OIC.

- a. The chain of possession of all evidence shall be clearly and completely documented in accordance with agency policy beginning with initial collection, packaging and labeling at the crime scene.
- b. Officers shall search the crime scene in a manner or method prescribed by the OIC for any items that may establish how the crime was committed or who committed the crime. This may include but is not limited to:
 - i. Unusual objects or objects found in unexpected or unusual locations; and
 - ii. Weapons, tools, clothing, stains, blood spatters, fingerprints, footprints, tire or tool mark impressions, broken glass, fibers, soil or other items or substances.

- b. Officers shall comply with this agency's policy and procedures on "Evidence Control" for purposes of properly photographing, preserving, packaging and labeling criminal evidence.

Officers will not store evidence of a crime within their vehicles, office space, etc. All evidence will be properly tagged and entered into an intake evidence locker prior to the end of the officer's shift. Unless circumstances arise where it is not feasible to do so, Officers will contact their supervisor for approval to turn in the next duty day.

4. Interviewing Witnesses

- a. The purpose and scope of these interviews is to gather as much basic information as possible about the crime at the earliest point possible in order to identify the perpetrator and establish the basis for the follow-up investigation.
- c. Witnesses at the crime scene shall be identified and preliminary interviews conducted as soon as possible.
- c. The neighborhood surrounding the crime scene should be canvassed as soon as possible to identify additional witnesses or others who may have some knowledge of the crime.

5. Crime Scene Reports

All Officers responding to a crime scene shall complete a report that, at a minimum, include:

- a. Date and time of arrival at the scene;
- b. Any relevant weather or situational conditions at the scene to include the status of the crime scene upon arrival (e.g., fire, crowds and initial observations);
- c. How the crime was discovered and reported and the relationship of reporting individuals to victims or others if appropriate;
- d. Physical evidence discovered and Officers responsible for collection (special note should be made of any valuables collected at the scene, such as currency or jewelry);
- e. Name, address and telephone number, or other appropriate identification of witnesses to the crime;

- f. Results of interviews with victims and witnesses to include in particular the identity or best possible description of suspects, method of operation, means of escape and any other pertinent identifying information;
- g. Diagrams, sketches, photographs, video tape or other similar information made at the scene or the identity of Officers or civilians who made such recordings; and

Recommendations for further investigation such as the names of witnesses or others that may be able to provide additional information

All reports shall be completed at the end of the officer's duty shift unless approval is granted by a Supervisor or the Investigator to turn the report in the next duty day.

MILLE LACS BAND POLICE OPERATIONS MANUAL

GENERAL ORDER: 344.0

EFFECTIVE DATE: January 11, 2021 REVISED: January 11, 2021

SUBJECT: Eyewitness Identification Procedures

PURPOSE

To establish guidelines for eyewitness' identifications involving show-ups, photographic identifications and lineups.

344.01 POLICY

Officers shall adhere to the procedures for conducting eyewitness identifications set forth in this policy, in order to maximize the reliability of identifications, minimize erroneous identifications, and gather evidence that conforms to contemporary eyewitness identification protocols. Photo arrays and line-ups will be conducted by displaying the suspect and fillers sequentially using a blind or blinded administration.

PURPOSE

It is the purpose of this policy to establish guidelines for eyewitness identification procedures involving show-ups, photo arrays, and line-ups. Erroneous eyewitness identifications have been cited as the factor most frequently associated with wrongful convictions. Therefore, in addition to eyewitness identification, all appropriate investigative steps and methods should be employed to uncover evidence that either supports or eliminates the suspect identification.

344.02 DEFINITIONS

“Show-up” The presentation of a suspect to an eyewitness within a short time frame following the commission of a crime to either confirm or eliminate him or her as a possible perpetrator. Show-ups, sometimes referred to as field identifications, are conducted in a contemporaneous time frame and proximity to the crime.

“Photo Array” A means of presenting photographs to an eyewitness for the purpose of identifying or eliminating suspects.

“Lineup” The process of presenting live individuals to an eyewitness for the purpose of identifying or eliminating suspects.

“Administrator” The law enforcement official conducting the identification procedure.

“Blinded Presentation” The administrator may know the identity of the suspect, but does not know which photo array member is being viewed by the eyewitness at any given time.

“Confidence Statement” A statement in the witness’s own words taken immediately after an identification is made stating his or her level of certainty in the identification.

“Filler” A live person, or a photograph of a person, included in an identification procedure who is not considered a suspect.

“Sequential” Presentation of a series of photographs or individuals to a witness one at a time.

“Simultaneous” Presentation of a series of photographs or individuals to a witness all at once.

344.03 PROCEDURE

1. Show-ups

The use of show-ups should be avoided whenever possible in preference to the use of a lineup or photo array procedure. However, when circumstances require the prompt presentation of a suspect to a witness, the following guidelines shall be followed to minimize potential suggestiveness and increase reliability.

- a. Document the witness’s description of the perpetrator prior to conducting the show up.
- b. Conduct a show-up only when the suspect is detained within a reasonably time frame after the commission of the offense and within a close physical proximity to the location of the crime.
- c. Do not use a show-up procedure if probable cause to arrest the suspect has already been established.
- d. If possible, avoid conducting a show-up when the suspect is in a patrol car, handcuffed, or physically restrained by officers, unless safety concerns make this impractical.
- e. Caution the witness that the person he or she is about to see may or may not be the perpetrator—and it is equally important to clear an innocent person. The witness

should also be advised that the investigation will continue regardless of the outcome of the show-up.

- f. Do not conduct the show-up with more than one witness present at a time.
- g. Separate witnesses and do not allow communication between them before or after conducting a show-up.
- h. If one witness identifies the suspect, use a line-up or photo array for remaining witnesses.
- i. Do not present the same suspect to the same witness more than once.
- j. Do not require show-up suspects to put on clothing worn by, speak words uttered by, or perform other actions of the perpetrator.
- k. Officers should scrupulously avoid words or conduct of any type that may suggest to the witness that the individual is or may be the perpetrator.
- l. Ask the witness to provide a confidence statement.
- m. Remind the witness not to talk about the show-up to other witnesses until police or prosecutors deem it permissible.
- n. Videotape the identification process using an in-car camera or other recording device when feasible.
- o. Document the time and location of the show-up, the officers present, the result of the procedure, and any other relevant information.

2. Basic Procedures for Conducting a Line-up or Photo Array

- a. Line-ups will not typically be utilized for investigations, unless conducting a photo array is not possible.
- b. Whenever possible, a blind presentation shall be utilized. In cases where a blind presentation is not feasible for a photo array, a blinded presentation should be used. Live line-ups must be conducted using a blind presentation.
- c. The line-up or photo array should consist of a minimum of six individuals or photographs. Use a minimum of five fillers and only one suspect.
- d. Fillers should be reasonably similar in age, height, weight, and general appearance and be of the same sex and race, in accordance with the witness's description of the offender.

- e. Avoid the use of fillers who so closely resemble the suspect that a person familiar with the suspect might find it difficult to distinguish the suspect from the fillers.
- f. Create a consistent appearance between the suspect and the fillers with respect to any unique or unusual feature (e.g., scars, tattoos, facial hair) used to describe the perpetrator by artificially adding or concealing that feature on the fillers.
- g. If there is more than one suspect, include only one in each line-up or photo array.
- h. During a blind presentation, no one who is aware of the suspect's identity should be present during the administration of the photo array. However, during a line-up, the suspect's attorney should be present.
- i. Place suspects in different positions in each line-up or photo array, both across cases and with multiple witnesses in the same case.
- j. Witnesses should not be permitted to see or be shown any photos of the suspect prior to the line-up or photo array.
- k. The witness shall be given a copy of the following instructions prior to viewing the line-up or photo array and the administrator shall read the instructions aloud before the identification procedure.

You will be asked to look at a series of individuals.

The perpetrator may or may not be present in the identification procedure.

It is just as important to clear innocent persons from suspicion as it is to identify guilty parties.

I don't know whether the person being investigated is included in this series.

Sometimes a person may look different in a photograph than in real life because of different hair styles, facial hair, glasses, a hat or other changes in appearance. Keep in mind that how a photograph was taken or developed may make a person's complexion look lighter or darker than in real life.

You should not feel that you have to make an identification. If you do identify someone, I will ask you to describe in your own words how certain you are.

The individuals are not configured in any particular order.

If you make an identification, I will continue to show you the remaining individuals or photos in the series.

Regardless of whether you make an identification, we will continue to investigate the incident.

Since this is an ongoing investigation, you should not discuss the identification procedures or results

- l. The line-up or photo array should be shown to only one witness at a time; officers should separate witnesses so they will not be aware of the responses of other witnesses.
- m. Multiple identification procedures should not be conducted in which the same witness views the same suspect more than once.
- n. Officers should scrupulously avoid the use of statements, cues, casual comments, or providing unnecessary or irrelevant information that in any manner may influence the witnesses' decision-making process or perception.
- o. Following an identification, the administrator shall ask the witness to provide a confidence statement and document the witness's response.
- p. The administrator shall ask the witness to complete and sign an Eyewitness Identification Procedure Form.
- q. Line-up and photo array procedures should be video or audio recorded whenever possible. If a procedure is not recorded, a written record shall be created and the reason for not recording shall be documented. In the case of line-ups that are not recorded, agents shall take and preserve a still photograph of each individual in the line-up.

3. Photographic Arrays

a. Creating a Photo Array

- 1. Use contemporary photos.
- 2. Do not mix color and black and white photos.
- 3. Use photos of the same size and basic composition.
- 4. Never mix mug shots with other photos and ensure consistent appearance of photograph backgrounds and sizing.
- 5. Do not include more than one photo of the same suspect.
- 6. Cover any portions of mug shots or other photos that provide identifying information on the subject – and similarly cover other photos used in the array.
- 7. Where the suspect has a unique feature, such as a scar, tattoo, or mole or distinctive clothing that would make him or her stand out in the photo array, filler photographs should include that unique feature either by selecting fillers who have the same features themselves or by altering the photographs of fillers to the extent necessary to achieve a consistent appearance.
- 8. Fillers should not be reused in arrays for different suspects shown to the same witness.

b. Conducting the Photo Array

1. The photo array should be preserved, together with full information about the identification process as part of the case file and documented in a report.
2. If a blind administrator is not available, the administrator shall ensure that a blinded presentation is conducted using the following procedures.
 - a. Place the suspect and at least five filler photos in separate folders for a total of six (or more depending on the number of fillers used).
 - b. The administrator will take one folder containing a known filler and place it to the side. This will be the first photo in the series. The administrator should then shuffle the remaining folders (containing one suspect and the remainder of fillers) such that he or she cannot see how the line-up members are ordered. These shuffled folders will follow the first filler photo. The stack of photos is now ready to be shown to the witness.
 - c. The administrator should position himself or herself so that he or she cannot see inside the folders as they are viewed by the witness.
3. The witness should be asked if he or she recognizes the person in the photo before moving onto the next photo. If an identification is made before all of the photos are shown, the administrator should tell the witness that he or she must show the witness all of the photos and finish showing the sequence to the witness, still asking after each photo if the witness recognizes the person in the photo.
4. If possible, the array should be shown to the witness only once. If, upon viewing the entire array the witness asks to see a particular photo or the entire array again, the witness should be instructed that he or she may view the entire array only one additional time. If a second viewing is permitted, it must be documented.

4. Line-ups

- a. Conducting the Line-up
 1. Live line-ups shall be conducted using a blind administrator.
 2. Ensure that all persons in the line-up are numbered consecutively and are referred to only by number.
- b. The primary investigating officer is responsible for the following:
 1. Scheduling the line-up on a date and at a time that is convenient for all concerned parties, to include the prosecuting attorney, defense counsel, and any witnesses.
 2. Ensuring compliance with any legal requirements for transfer of the subject to the line-up location if he or she is incarcerated at a detention center.
 3. Making arrangements to have persons act as fillers.
 4. Ensuring that the suspect's right to counsel is scrupulously honored and that he or she is provided with counsel if requested. Obtaining proper documentation of any waiver of the suspect's right to counsel.
 5. Allowing counsel representing the suspect sufficient time to confer with his or her client prior to the line-up and to observe the manner in which the line-up is conducted.

MILLE LACS TRIBAL POLICE DEPARTMENT OPERATINGS MANUAL

GENERAL ORDER: 345.0

EFFECTIVE DATE: July 1, 2004

REVISED DATE: DECEMBER 7, 2018

SUBJECT: IN-CAR AND BODY WORN CAMERAS

PURPOSE

This policy establishes guidelines for the operation and use of audio/video recording equipment installed in police patrol vehicles, and officer body worn cameras. This policy also establishes a retention and duplication policy for the police department video recorded evidence.

POLICY

In-vehicle and body worn recording equipment can be a valuable tool to patrol officers. Usage of such equipment includes assisting in the prosecution of traffic violations and related offenses, documenting crime scenes, providing objective evidence of police and subject action during police contact. Officers shall only operate In-vehicle video equipment and body worn video/audio equipment in accordance with Department guidelines. In-vehicle/ body camera recordings are the exclusive property of the Mille Lacs Tribal Police Department.

PROCEDURE

I. General Use.

- A) An officer that is assigned a vehicle with video equipment installed or body worn camera device is responsible for the proper use and operation of the equipment. Officers should inspect and functionally check the audio/video equipment at the beginning of his/her shift. Officers shall notify their supervisor in the event that any equipment is not functioning properly. Repairs must be authorized by a supervisor.
- B) The In-vehicle video equipment automatically activates with the rotating red lights, turning on the remote microphone or by depressing the "REC" button on the control panel. Officers shall activate the In-Vehicle video system and Body worn camera, which record the events in the following situations:

352.05 NOISE/LIGHT DIVERSIONARY DEVICES

In order to reduce the potential for injury and/or property damage the use of noise/light diversionary devices must be supervised and properly deployed.

Only personnel who have successfully completed departmental or basic SWAT training in the proper use and deployment of the noise/light diversionary devices will be authorized to deploy them during actual operations.

Generally, noise/light diversionary devices may be considered whenever the use of less lethal diversion would facilitate entry, enable arrest, and potentially reduce the risk of injury. Use of the noise/light diversionary device may include, but not limited to the following;

- Barricaded suspect an/or hostage situations
- High-risk warrant services

Violent or mentally deranged person or those under the influence believed necessary to facilitate arrest.

Situations deemed necessary to safely resolve the incident.

Prior to deploying the noise/light diversionary device personnel should consider available intelligence information and circumstances to include the presence of children or elderly persons. Circumstances may dictate that exterior deployment is preferable to deployment on the interior of a structure. Whenever possible devices shall be deployed to an area visible to the deploying officer.

The Team Commander shall review the use of each noise/light diversionary device as soon as practical following each incident or operation to ensure the devices were used according to policy and functioned properly.

352.06

DEPLOYMENT OF CHEMICAL AGENTS

The use of chemical agents is a less-lethal response to situations where are serious in nature. When properly utilized chemical agents have proven safe and effective.

Chemical agents can be deployed either inside a structure or outside depending on the circumstance encountered. In the case of snipers or barricaded subjects, chemical agents are deployed in an effort to force the subject(s) to leave a fortified position. Chemical agents are useful in moving or dispersing riotous crowds by way of encouraging people to leave a certain area or abandon some form of unlawful activity.

Chemical agents should be deployed in such a manner that a suspect or crowd is force to exit or move to a location that has been pre-determined. Whenever practical, announcements should precede the introduction of chemical agents.

The Team Commander and Team Leader must maintain a flexible approach to the utilization of chemical agents.

The sequence of introduction of chemical agents and amounts are generally progressive depending upon the degree of force required.

Whenever possible the suspect(s) should be given the opportunity to surrender prior the next level of chemical agent being used. Smoke will be introduced into a structure only as a last resort, due to the fact smoke can displace oxygen and may be considered lethal force.

Chemical agents will only be deployed at the direction of the Team Commander and Team Leader. The gasman will be directed as to the location, type, and quantity of chemical agent deployed.

Chemical agents deployed inside a structure will be predicated upon the following factors;

Severity of the incident

Nature of the threat posed by the suspect(s)

The percipient persons involved. The use of Chemical agents should be avoided in those circumstances where it is reasonable to believe that elderly, children, or other persons with medical problems are present.

The type and location involved. The size of the structure and its purpose must be considered as well as damage likely to be caused by the introduction of chemical agents.

Calculation formulas for the deployment of chemical agents into enclosed environments are furnished by the manufacturer and were created in a laboratory environment. Therefore formulas must be recognized and utilized merely as guidelines in so far as the introduction into a structure.

The Team Commander and Team Leader shall review the use of chemical agent as soon as practical following each incident or operation to insure the devices were used according to policy and functioned properly.

352.07

EFFECTIVE DATE: JANUARY 11, 2017

SUBJECT: TRIBAL POLICE DEPARTMENT COMMUNICATIONS CENTER

PURPOSE:

The Tribal Police Department Communications Center (TPDCC) is the communications link between the Police Department and the public it serves. TPDCC coordinates the deployment of officers and department vehicles and is a source of information and assistance to officers in the field. TPDCC has the authority and responsibility to disseminate calls in a fashion that facilitates rapid delivery of service to the public. Prompt response to calls from the public is an objective of the Police Department.

357.01 INITIAL RESPONSE POLICY

It is the policy of the Mille Lacs Band Tribal Police Department to respond to all calls for service within a minimum amount of time. To achieve this objective, the Police Department has provided the TPDCC with guidelines regarding time frames within which affirmative dispatching action is to be taken.

The general rule is to get an officer responding at the earliest possible moment. This rule means that if a nature code calls for it or common sense dictates it, the role of the dispatcher at TPDCC is to assign the call within the Priority Guidelines to at least one "Able" officer and then immediately do whatever is necessary to obtain the required additional officers to respond to the call. This includes pulling officers from other Districts, using supervisors, or calling on neighboring agencies to obtain the required second, third or additional squads. A dispatcher is not to "hold" a call that the Priority Guidelines say should be dispatched solely because of the unavailability of a second officer or second squad.

This policy places the responsibility for safe approach to a call entirely within the hands of the responding officer(s). Officers are required to make an assessment of the situation from a safe distance and then advise the dispatcher of the need for or lack of assistance.

357.02 PRIORITY CALL CODE NUMBERS AND PROCEDURES

Call code numbers are used by dispatchers and officers to indicate the seriousness of an incident and the procedures for response. The responsibility for determining the appropriate call code number rests with the responding officer based upon information communicated from the TPDCC or other personnel.

- a) **CODE ONE:** Indicates that an officer cannot be located or does not answer the radio.
- b) **CODE TWO:** A call to be answered or situation to be handled immediately. The red lights and siren shall not be used and all traffic laws will be obeyed.
- c) **CODE THREE: EMERGENCY SITUATION** - To be answered immediately, but in a manner enabling the responding units to reach the scene as quickly and safely as possible. MS 169.03 and 169.17 require the use of red lights and siren for emergency driving. (During an officer

status check, officers may alert to a status of CODE: RED or CODE: 3, which means the on scene officer(s) need additional and immediate assistance)

- d) **CODE FOUR:** Situation is under control. Responding squads that have not arrived may clear.

In order to establish common working definitions regarding the urgency of any situation and to facilitate the most efficient delivery of service to the public, the Police Department has provided the TPDCC with guidelines regarding time frames for dispatching calls. Police calls are identified by a nature code and each nature code is assigned to one of five possible priority categories. TPDCC call classification priorities are not the same as call code numbers.

- i. **PRIORITY 1** - Calls classified as Priority 1 include those situations where a known crisis exists that threatens the life of an individual. This is the highest possible priority and the fastest possible response is desired. The TPDCC objective is to have squads en route to the call within seconds of receipt by the dispatcher.
- ii. **PRIORITY 2** - Calls classified as Priority 2 include situations where an imminent threat to personal safety, or the loss or damage to property exists. Conditions at the scene of the call are unstable. The TPDCC objective is to have a squad en route to a priority 2 event within two (2) minutes of receipt by the dispatcher.
- iii. **PRIORITY 3** - Calls classified as Priority 3 include situations where no immediate threat of harm exists at the scene of the call. A timely police response is still desirable. The TPDCC objective is to have priority 3 calls assigned at the earliest opportunity or within twenty (20) minutes of receipt by the dispatcher. If after thirty (30) minutes the call remains in TPDCC due to a lack of recommended unit availability, the dispatcher may notify the affected supervisor to review the pending priority 3 calls and recommend a course of action.
- iv. **PRIORITY 4** - Calls classified as Priority 4 include situations where conditions are stable at the scene of the call. TPDCC may hold priority 4 calls for the squad in whose district the call is occurring for up to one (1) hour. After one (1) hour, the situation should be reassessed by TPDCC and the supervisor, if necessary, to determine if the call should be reassigned to a squad outside of the district in which the call is occurring.
- v. **PRIORITY 10** - Calls classified as Priority 10 include administrative or service assignments. Squads on a service assignment may be reassigned to an event with a higher priority.

TPDCC radio prefix will remain "TRIBAL" at all times.

When beginning a radio transmission, officers shall begin the transmission with their appropriate radio prefix "Badge Number in full" then to the designated recipient.

During radio transmissions, Dispatchers will use appropriate prefixes with TPD Officers and outside agencies.

357.04 ASSIGNED CALLS

The dispatcher shall have the authority to assign calls to all available Tribal Police sworn personnel, including superior officers. Officers shall not argue with the dispatcher or refuse to take a call.

Situations may arise that require an officer to decide whether to continue on an assigned call or handle a citizen's complaint, an observed event, or a higher priority call and cause the original call to be reassigned. Such determination should be based upon the comparative urgency and the risk to life and property of the assigned call and the intervening incident. When an officer is unable to respond to an assigned call for any reason, the officer shall promptly notify the TPDCC dispatcher and provide the reason for the change in status.

When it is not possible for officers to handle a citizen's complaint or an observed event, they should, if circumstances permit, give directions for obtaining such assistance or initiate the necessary notifications themselves. When handling a call and subsequently receiving a higher priority call, officers shall advise the person of the reason for leaving and of the squad's intention of returning after the call.

Officers shall not pass on to the succeeding shift any assigned calls without the permission of the superior officer on duty. TPDCC is expected to and will dispatch calls up to the end of the shift.

357.05 ACKNOWLEDGING CALLS

All officers' assigned calls by the TPDCC will immediately acknowledge receipt of the call via voice radio, as well as by pressing the "En route" key on the MDT/MDC. Any time a squad is responding to an event, the officers shall notify the dispatcher. In the event an officer is dispatched from the Tribal Police Headquarters, the officer(s) will acknowledge the call with the dispatcher in person and then press the "En route" key on the MDT/MDC, while en route to the CFS (Call for Service).

Officers shall announce their arrival at the scene by:

1. Depressing the "Arrive" status key on their MDT/MDC; and
2. Using the voice radio indicating their call number followed by the word "arrived."

Officers must clear from all calls or other assignments as soon as the call or assignment is complete. The methods described above shall also be used to clear from a call except that a disposition code shall also be provided when clearing on the MDT/MDC.

All aired status changes should be accomplished on a single radio transmission (5560 is clear).

357.06 RADIO CONTACT

Officers working in the field (including when at lunch or any other break) are required to be in radio contact at all times. Officers handling an assigned call shall remain available for emergency or higher priority calls by maintaining radio communication via a portable radio.

357.07 BROADCASTING DESCRIPTIONS

The first officers to arrive at a crime scene or other incident that warrants the broadcasting of descriptive information shall conduct a brief interview with victims and/or witnesses. If sufficient information is obtained to justify a broadcast, and radio traffic permits, it shall be transmitted in the following manner:

A) The officer will notify the dispatcher that a description is available. The officer will also inform the dispatcher of the extent of dissemination of the broadcast (e.g. involved channel, countywide, regional broadcast, teletype, etc.) and will indicate arrest authority (probable cause, attempt to locate, etc.).

B) The officer will broadcast the description in the following sequence:

- i. Type of crime
- ii. Time of occurrence
- iii. Location of occurrence
- iv. Number of suspects
- v. Description of suspects
- vi. Weapons involved
- vii. Direction and method of flight
- viii. Description of vehicle, if applicable
- ix. Description of loss, if applicable

TPDCC will then send informational KOPS alert to the region if requested.

357.08 REQUEST FOR BACK-UP

Additional squads will be dispatched when requested by an officer or when department policy dictates a back-up be sent automatically for an officer responding to certain types of incidents.

Officers requesting a back-up shall give their badge number, location and code priority. If the requesting officer or the on-scene superior officer determines that back-up squads are not needed, the back-up squad should be canceled, and TPDCC will confirm via radio.

When an emergency situation arises, officers shall notify the dispatcher by doing the following:

1. Stating "CODE RED", "EMERGENCY" or "Officer needs help."
2. Give the location of the officer needing help.
3. If time permits, give the reason for the emergency.

Whenever an emergency or "officer needs help" is announced, all other officers shall immediately clear the airway and keep the frequency clear until the dispatcher acknowledges the call. Responding vehicles should wait to give their numbers until it is obvious that the officer calling the emergency is finished giving information. When responding vehicles do give their numbers, they should be brief and then remain off the air until they arrive at the scene. Once aired, the emergency commands the channel until the dispatcher announces a Code 4 and normal radio traffic is resumed.

UNNECESSARY USE OF RADIO, MOBILE DATA TERMINAL (MDT) OR MOBILE DATA COMPUTER

The police radio, MDT or MDC is for police business only. It is not to be used to conduct personal business or to transmit personal messages.

Squads will begin all radio communication using their assigned call numbers and radio prefix. Information checks shall be requested only on the channel designated for such purposes. In most instances, "MI-7" or "TPD LAW-1" will be the designated channel. When requesting information, officers should try to include the nature of service in the initial transmission ("5560 WARRANT CHECK BY NAME," wait for acknowledgment; then "5560-TRIBAL LAST NAME Doe, FIRST NAME John, MIDDLE Finch, DATE OF BIRTH Year/Month/Day"). If TPDCC Dispatch has difficulty with the spelling, then the dispatcher will request the spelling for the specific name. (TRIBAL to 5560, spelling on Middle name)(5560 TRIBAL, Frank-Ida-Nora-Charles-Henry) TPDCC will then acknowledge.

AUDIT OF RADIO, MOBILE DATA TERMINAL OR MOBILE DATA COMPUTER (MDC) COMMUNICATION

MDT/MDC messages are public information and are subject to public disclosure. Any communication that may be considered "discriminatory, derogatory, biased, or inappropriate due to use of prohibited words" shall not be permitted on the radio or MDT/MDC at any time. Inappropriate language or remarks shall be immediately reported to a supervisor.

NOTE: As per the Mille Lacs Tribal Police Department policy, remarks in regard to race, color, creed, age, religion, ancestry, national origin, sex, affectional preference, disability, marital status, familial status, status with regard to public assistance, Vietnam era veteran status are prohibited.

Supervisors or their designee shall be responsible for reviewing messages for inappropriate content, i.e. language or remarks. Employees or Officers who are found to have transmitted inappropriate messages shall be subject to disciplinary action.

TPDCC is responsible for retrieving event driven reports when requested by an investigator or TPD supervisor.

357.12

COMMUNICATIONS RECORD KEEPING/ LOGS

- a. All electronic communications, (telephone calls, radio transmissions, TPD traffic, computer networks, etc.) that are conducted using the facilities of the Mille Lacs Band are subject to being recorded. Dissemination of communications records shall be conducted in accordance with the Minnesota Government Data Practices Act.
- b. All activities received and assigned will be documented by the TPDCC dispatcher via Dispatch Log. {Officers assigned to CFS, arrival times, cleared times, requests for ambulance or other emergency services will be documented by date and time including incident complaint number.}

357.13

CELLULAR PHONE USE IN TPDCC

A. TPDCC General Use of Cellular Phones

1. Cell phones are not intended to supplement to the TPD's communication system, or substitute for radio communication designated for transmission through TPDCC. Calls for service shall be received, coordinated and dispatched through TPDCC radio system and not via an employee's personal or department issued cell phone.
2. A cell phone shall not be used when it would unnecessarily or unreasonably divert the attention of an employee from official duties or cause a potentially hazardous situation.
3. Engagement in multiple or extended cell phone conversations, text messaging or other use of cell phone devices unrelated to police business while on duty or similar use that interferes with the performance of an employee's job duties is prohibited.
4. Images or recordings captured on an employee's personal or department issued cell phone during the course of an employee's job duties are considered to be department data and may only be distributed in accordance with department policy.

357.14

COMMAND STAFF NOTIFICATION PROTOCOL

Whenever a significant event happens, the initial on-scene officer, or his/her designee, shall make notifications to their supervisor. Notifications shall be made as quickly as possible once the scene is secured and life-saving measures have been rendered. Significant events/incidents include, but are not limited to, critical incidents, homicides, officer-involved shootings, in-custody deaths, natural or manmade disasters, acts of terrorism, or any other event that should be brought to the command staff's immediate attention. The following personnel shall be notified of such events: Sergeants, Investigators, Deputy Chief, and Chief.

If directed by an on-scene senior officer, the TPDCC dispatcher will notify the rotation shift Sergeant of the following:

- i. Date, time and location of the incident
- ii. A brief assessment of the event

- iii. A listing of other units or command staff contacted for assistance
- iv. Requests for other resources as deemed necessary
- v. Name of contact person and his/her phone number
- vi. A logical narrative of the sequence of events

The shift Sergeant will then contact Investigations, and Deputy Chief, unless a request is made for TPDCC to notify dependent on the circumstances.

357.15 KOPS (KEEPING OUR POLICE SAFE)

The Minnesota Department of Public Safety's "alert file" called KOPS (Keeping Our Police Safe) enhances officer safety by alerting officers of unsafe situations when encountering a vehicle or person involved in a recent incident by disseminating safety information statewide.

The standard CJIS (Criminal Justice Information System) queries that check person or vehicle files also hits on KOPS alerts, immediately warning officers of potentially dangerous situations. Officers should respond to the KOPS alerts in the same manner as any other CJIS hit and the message will be accompanied by the caveat "For officer safety purpose only, this is not a warrant."

TPDCC will disseminate all regional KOPS Alerts via MDT to all Police Department Officers through Zuercher Mobile. TPDCC on-duty dispatcher will also attach regional KOPS Alerts to the Zuercher Suite Bulletin with a minimum of seventy-two (72) hours before expiration.

357.16 CONFIRMING MILLE LACS COUNTY DISPATCH FOR PRIORITY CALLS

TPDCC will be responsible for making acknowledgments to Mille Lacs County Dispatch or Mille Lacs County Deputies in the event a priority call is aired via MI-LAW 1 radio channel. TPDCC Dispatcher will change from MI-7 TRIBAL 1 to MI LAW-1 and confirm that the description of the call and location has been acknowledged. TPDCC Dispatch will confirm the call with TPD on-duty officers and dispatch officers to the scene.

357.17 INCIDENT COMPLAINT REPORTS

TPDCC Dispatcher will be responsible for creating, assigning, and attaching persons related to a specific CFS. TPDCC Dispatchers will add CAD (Computer Aided Dispatch) comments to the CAD system when on scene officers relay information related to the incident.

357.16 VEHICLE PURSUITS

During an officer involved motor vehicle pursuit, TPDCC will prioritize the TPD main channel as "Emergency Traffic Only". The primary officer, or secondary officer who is giving radio communication to TPDCC, will be given priority radio traffic. Other responding officers will reserve the radio unless encountering a separate Emergency.

During a pursuit, TPDCC will repeat the radio traffic given to confirm the information received was correct. TPDCC may also have to make contact with outside agencies in the event the vehicle pursuit is traveling outside Mille Lacs Tribal Police Department jurisdiction. TPDCC will maintain

radio traffic with officer(s) involved in the pursuit at all times, and record the transmissions in the CAD comments of the generated Incident Complaint Report.

357.16 RADIO CHECK/ OFFICER STATUS CALLS

TPDCC Dispatch will perform officer status checks every two (2) minutes, once the primary officer arrives on scene, or upon the initiation of a traffic stop. The officer will respond as “CODE 4” if he/ she is safe. If any officer responds as “CODE RED/ CODE 3” then the situation is not under control, and the officer is in need of assistance or help. TPDCC dispatch will direct additional officers or call for outside agency assistance to assist the officer. Once the officer’s status is “CODE 4” and requests no further checks, then TPDCC will no longer be required to check the status of the on-scene officer for the remaining duration of the CFS.

357.17 TPDCC DISPATCH PHONE ANSWERING PROTOCOL

VOICE QUALITY

You should speak slowly and clearly on the telephone and with adequate volume. Your voice should project authority and knowledge backed up by a certainty of what you are telling the caller. Use plain everyday language with the public- never use Ten Codes, legal terms or law enforcement jargon.

TELEPHONE GREETING

Promptly answer all incoming calls “Mille Lacs Tribal Police”. If you are busy on the radio or with another call, ask the caller, “Do you have an emergency?” If they state no, ask them to hold. If they state yes, then ask what the emergency is and handle it if necessary.

ETIQUETTE

When dealing with all callers, you are required to maintain a polite and friendly tone. You should always maintain a business-like attitude when taking calls, even if the situation seems humorous or funny. You should sound sympathetic and never make light of a callers situation.

You must not make remarks critical of any race, class or group of people. Mille Lacs Tribal Police provides service to anyone who has proper need, without regard to other factors.

If you determine you cannot provide a service to a caller, explain to them why you cannot. Tell them the department’s policy on the subject or that the nature of the incident is handled by another agency, etc. Never simply tell a caller “We can’t do that.” Tell them why we cannot do it.

CONTROL OF CONVERSATION

It is important that you maintain control of all telephone conversations, so as to obtain all the necessary information in the least amount of time. Talkative or insistent callers are difficult to question so try to speak slowly, asking short, specific questions, such as their name, address, telephone number, location, etc. Speak using open ended questions so the caller feels they have to answer the questions. Always direct the caller with the {who, what, when, where, and how.} *At a minimum gain the caller’s address, full name, date of birth, and call back number.

CHRONIC CALLERS

Chronic callers may have legitimate requests of the police. You must question them each time to determine the situation before you dispose of the call.

CALLS FROM JUVENILES/ELDERLY

You should be particularly sensitive to calls from children and the elderly. They may initially seem confused as to why they are calling and may not express themselves completely. Never assume they are merely pranksters or senile. You must ask specific questions to find out why they are calling the police department. When speaking to members of these groups try to use first names for reassurance.

INCOMPLETE TELEPHONE CALLS

On occasion a caller will hang up, be disconnected or simply drop the phone before giving you all the information you need. This could be due to a medical problem, panic or accident. Never assume that incomplete calls are pranks or persons reaching the wrong number. If you determine there is a possible emergency, try to call the number back, or if a location was given dispatch Officers to the vicinity until you can determine the situation.

MONITORING THE RADIO

While taking telephone calls, the dispatcher should also be monitoring the radio. You should be alert to Officers calling in information requests or questions.

POSITIVE RESPONSE

It is important that the caller not misunderstand the department's response to a call. If you intend to dispatch Officers tell the caller, "We'll be right there" or something similar. If the situation does not require police, fire, or ambulance (e.g., sewer or plumbing problem), tell them it is not something we handle and refer them to another Band department that does or advise them to call a private company for that issue.

If you are not dispatching anyone, tell the caller why not and what they should do.

CONFIDENTIALITY

Always remember that most information passing through the dispatch center is confidential. You may have friends or family calling about a medical matter, vehicle accident or asking for information on persons, and they must be referred to the agency handling the matter. You will also get calls from newspapers or TV stations about a situation, and unless we have a press release from the agency, your response should be "We have nothing to report." They may ask for a supervisor to speak with and you can direct them to the appropriate agency.

357.18 INFORMATION DURING AN EMERGENCY CALL/ SITUATION

When a priority CFS is received by a TPDCC Dispatcher, the priority is to get officers on scene as quickly as possible. TPDCC dispatchers shall determine the address or location of the incident and the type of incident that has happened or is on-going. During this time, dispatch may break from the phone conversation to dispatch officer(s) to the scene of the crime. Once officers are en route to the call, additional information must be sought including;

- Person(s) involved
- Weapon(s), e.g., what kind, if used, how used, and by whom
- Medical services needed – What type of injury and patient information. *The request for medical service shall be made immediately through MI LAW-1 (MLC Dispatch)
- Reporting party's full name, date of birth, and call back number

Once information is gained, information as to weapons used and involved person(s) shall be communicated to the responding officers as soon as possible.

TPDCC Dispatchers will continue with creating the CFS, updating Dispatch Logs, adding comments to the CFS, and documenting EMS requests to Mille Lacs County Dispatch.

357.19

ATTENTION TO DUTY

TPDCC Dispatchers will be attentive to their duties at all times. Dispatchers will be punctual for duty at the start of their assigned shift. If relief is needed, then the dispatcher will make prior arrangements and have a relief individual take a temporary position in TPDCC until the on-duty dispatcher returns. At NO time will the dispatch console be unattended. Sleeping, laying down, or other inattentive actions will not be permitted by on-duty dispatch operators.

Providing citizen's calls for service for animal control issues generally comes under the responsibility of the police department. In such situations, police and conservation officers are obligated to take action when reasonably necessary.

366.02 NUISANCE DOGS RUNNING AT LARGE

Tribal Police Communications will collect pertinent information such as the name of complainant, location of problem, description of the animal, and nature of problem. This information is generally passed on to the officer for follow-up. If the dog is vicious and a danger to others, a police officer shall be assigned and respond immediately.

Officers are to respond to dog complaints without unnecessary delay. Officers shall determine the owner of the loose animal, and contact the owner (if known) to restrain animal. Owners shall follow the Mille Lacs Band Statute Title 11 "Animal Protection" for proper shelter.

If an Officer is unable to make contact with a known owner of an animal, The Officer may secure the animal in the yard of the owner, if proper shelter and food is readily available.

Owners of loose animal shall be cited or charged under the Mille Lacs Band Statute Title 11 "Animal Protection".

Tribal enforcement officers may remove, shelter, and care for any animal which is not properly sheltered from cold, hot, or inclement weather or any animal not properly fed and watered, or provided with suitable food and drink in circumstances that threaten the life of the animal, or wandering the roads, parking areas, or other public areas without a collar or visible current rabies tag.

When necessary, a tribal enforcement officer may deliver the animal to another person to be sheltered and cared for and furnished with suitable food and drink. If an Officer cannot find local placement, Tribal Communications will attempt to locate a veterinarian or shelter location for holding and shelter.

If an officer places an animal other than the owner's place of residency, the officer shall leave posted notice of impoundment at the residence of the owner. If the owner is not known, Officers shall leave posted notice with a photograph of the animal in the place where the animal was seized. Notice will include a description of the animal.

366.03 ANIMAL DISPOSAL

In the event of an animal, which has without provocation inflicted bodily injury on any person, and is loose and acting in a threatening manner, may be dispatched/ destroyed by the responding Officer. The animal shall be removed and taken to a licensed veterinarian for proper cremation.

In any non-emergency incident and upon a proper determination by a licensed veterinarian, any animal taken into custody may be immediately disposed of when the animal is suffering and is beyond cure through reasonable care and treatment. The expenses of disposal shall be subject to the provisions of § 3025 of Mille Lacs Band Title 11, chapter 4.

366.04 ANIMAL BITES

When a person is bitten by a cat or dog where the skin is broken and the animal is not owned by them, officers are to investigate the incident, by means of statements, proof of vaccinations, and photographs. If the animal responsible for the bite does not have up-to-date rabies vaccination or if it is unknown as to the disposition of vaccination, the animal is to be taken into custody and quarantined at an animal shelter.

The animal can be left with the owner during the quarantine period if the complainant agrees and if the owner appears responsible for insuring that the animal is watched and does not exhibit any health problems for the next ten days. The owner is responsible for reporting back to the investigating officer after the ten day period. The owner shall have all vaccinations and rabies shots up to date and documentation of proof, for the Officer.

When a Tribal Enforcement Officer exercises their discretion on seizing and placing an animal into shelter under this policy section, and/ or the Mille Lacs Band Statute Title 11, Chapter 4, any persons or shelter facility is not liable for the seizure of an animal under the action of the police department. The persons or shelter facility receiving an animal are providing care and shelter for an animal, until the animal is returned to the owner, or adoption process.

overseeing agent. In these circumstances, the initial suitability determination can be deferred and an individual may be utilized as a CI for a period not to exceed 12 hours from the time of arrest if:

- a. The individual is not excluded from utilization as a CI under this policy; and

The meetings must be documented and subsequently entered into the individual's CI file.
14. Overseeing agents must develop and follow a communications strategy and plan with the CI that minimizes, to the greatest extent possible, the risk of discovery or compromise of the relationship between the agency and the CI. 20. Whenever possible, officers must corroborate information provided by a CI and document efforts to do so.

21. The name of a CI must not be included in an affidavit for a warrant unless judicial authority is obtained to seal the document from the public record or the CI is a subject of the investigation upon which the affidavit is based.
22. Overseeing agents are responsible for ensuring that information of potential value to other elements of this Department is provided promptly to authorized supervisory personnel and/or other law enforcement agencies as appropriate.

MILLE LACS BAND POLICE OPERATION MANUAL

GENERAL ORDER: 369.0

EFFECTIVE DATE: JUNE 20, 2022 REVISED:

SUBJECT: PUBLIC ASSEMBLY AND FIRST AMENDMENT ACTIVITY

369.01 PURPOSE

The First Amendment to the Constitution of the United States of America states, "Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof, or abridging the freedom of speech or of the press, or the right of the people peaceably to assemble and to petition the Government for a redress of grievances."

The Bill of Rights in Article 1 of the Minnesota Constitution addresses the rights of free speech and the liberty of the press. However, neither the state nor federal constitutions protect criminal activity or threats against citizens, businesses, or critical infrastructure.

The Mille Lacs Band Tribal Police Department supports all people's fundamental right to peaceably assemble and their right to freedom of speech and expression.

The purpose of this policy is to provide guidelines to the Mille Lacs Band Tribal Police Department personnel regarding the application and operation of acceptable law enforcement actions addressing public assemblies and First Amendment Activity.

369.02 POLICY

The Mille Lacs Band Tribal Police Department will uphold the constitutional rights of free speech and assembly while using the minimum use of physical force and authority required to address a crowd management or crowd control issue.

The policy of the Mille Lacs Band Tribal Police Department regarding crowd management and crowd control is to apply the appropriate level of direction and control to protect life, property, and vital facilities while maintaining public peace and order during a public assembly or First Amendment activity. Department personnel must not harass, intimidate, or discriminate against or unreasonably interfere with persons engaged in the lawful exercise of their rights.

This policy concerning crowd management, crowd control, crowd dispersal, and police responses to violence and disorder applies to spontaneous demonstrations, crowd event situations, and planned demonstration or crowd events regardless of the permit status of the event.

This policy does not preclude officers from taking appropriate action to direct crowd and vehicular movement; enforce ordinances and statutes; and to maintain the safety of the crowd, the general public, law enforcement personnel, and emergency personnel.

369.05 RESPONSES TO CROWD SITUATIONS

- A. Lawful assembly. Individuals or groups present on the public way, such as public facilities, streets or walkways, generally have the right to assemble, rally, demonstrate, protest, or otherwise express their views and opinions through varying forms of communication including the distribution of printed matter. These rights may be limited by laws or ordinances regulating such matters as the obstruction of individual or vehicle access or egress, trespass, noise, picketing, distribution of handbills, leafleting and loitering.

B. Unlawful assembly

1. The definition of an unlawful assembly has been set forth in Minnesota Statute §609.705.
2. The mere failure to obtain a permit, such as a parade permit or sound permit, is not a sufficient basis to declare an unlawful assembly
3. The fact that some of the demonstrators or organizing groups have engaged in violent or unlawful acts on prior occasions or demonstrations is not grounds for declaring an assembly unlawful.
4. Whenever possible, the unlawful behavior of a few participants must not result in the majority of peaceful protestors being deprived of their First Amendment rights, unless other participants or officers are threatened with dangerous circumstances.
5. Unless emergency or dangerous circumstances prevent negotiation, crowd dispersal techniques must not be initiated until after attempts have been made through contacts with the police liaisons and demonstration or crowd event leaders to negotiate a resolution of the situation so that the unlawful activity will cease, and the First Amendment activity can continue.

C. Declaration of Unlawful Assembly

1. If the on-scene supervisor/incident commander has declared an unlawful assembly, the reasons for the declaration and the names of the decision maker(s) must be recorded. The declaration and dispersal order must be announced to the assembly. The name(s) of the officers announcing the declaration should be recorded, with the time(s) and date(s) documented.
2. The dispersal order must include:
 - a) Name, rank of person, and agency giving the order
 - b) Declaration of Unlawful Assembly and reason(s) for declaration
 - c) Egress or escape routes that may be used
 - d) Specific consequences of failure to comply with dispersal order
 - e) How long the group has to comply
3. Whenever possible, dispersal orders should also be given in other languages that are appropriate for the audience. Officers must recognize that not all crowd members may be fluent in the language(s) used in the dispersal order.
4. Dispersal announcements must be made in a manner that will ensure that they are audible over a sufficient area. Dispersal announcements-must be made from different locations when the demonstration is large and noisy. The dispersal announcements should be repeated after commencement of the dispersal operation so that persons not present at the original broadcast will understand that they must leave the area. The announcements must also specify adequate egress or escape routes. Whenever possible, a minimum of two escape/egress routes shall be identified and announced.

D. Crowd Dispersal

1. Crowd dispersal techniques should not be initiated until officers have made repeated announcements to the crowd, or are aware that repeated announcements have been made, asking members of the crowd to voluntarily disperse, and informing them that, if they do

- not disperse, they will be subject to arrest.
2. Unless an immediate risk to public safety exists or significant property damage is occurring, sufficient time will be allowed for a crowd to comply with officer commands before action is taken.
 3. If negotiations and verbal announcements to disperse do not result in voluntary movement of the crowd, officers may employ additional crowd dispersal tactics, but only after orders from the on-scene supervisor/incident commander. The use of these crowd dispersal tactics shall be consistent with the department policy of using the minimal officer intervention needed to address a crowd management or control issue.
 4. If, after a crowd disperses pursuant to a declaration of unlawful assembly and subsequently participants assemble at a different geographic location where the participants are engaged in non-violent and lawful First Amendment activity, such an assembly cannot be dispersed unless it has been determined that it is an unlawful assembly, and a new declaration of unlawful assembly has been made.

369.06 TACTICS AND WEAPONS TO DISPERSE OR CONTROL A NON-COMPLIANT CROWD

Baton jabs must not be used indiscriminately against a crowd or group of persons but only against individuals who are physically aggressive or actively resisting arrest. Baton jabs should not be used in a crowd control situation against an individual who is attempting to comply but is physically unable to disperse or move because of the press of the crowd or some other fixed obstacle.
4. Officers must not strike a person with any baton to the head, neck, throat, kidneys, spine, or groin, or jab with force to the armpit unless the person has created an imminent threat of great bodily harm to another.

7. Aerosol Hand-held Chemical Agents must not be used in a demonstration or crowd situation or other civil disorders without the approval of the on-scene supervisor/incident commander.
 - a) Aerosol, hand-held, pressurized, containerized chemical agents that emit a stream shall not be used for crowd management, crowd control, or crowd dispersal during demonstrations or crowd events. Aerosol hand-held chemical agents may not be used indiscriminately against a crowd or group of persons, but only against specific individuals who are engaged in specific acts of serious unlawful conduct or who are actively resisting arrest.
 - b) Officers shall use the minimum amount of the chemical agent necessary to overcome the subject's resistance.
 - c) When possible, persons should be removed quickly from any area where hand held chemical agents have been used. Officers must monitor the subject and pay particular attention to the subject's ability to breathe following the application of a chemical agent.

other crowd dispersal techniques have failed or did not accomplish the policing goal as determined by the incident commander,

- 2) sufficient egress to safely allow the crowd to disperse exists, and
- 3) The use of chemical munitions is approved by the on-scene supervisor/incident commander, and
 - b) When feasible, additional announcements should be made prior to the use of chemical munitions in a crowd situation warning of the imminent use of chemical munitions.
 - c) Deployment of chemical munitions into a crowd must be avoided to prevent unnecessary injuries.
 - d) CN chemical munitions are prohibited.
 - e) The use of each chemical munition must be recorded (time, location), and the following information must be made available by the department on request :

 - 2) the location and time of use for each munition deployment,
 - 3) access to the safety data sheet (SDS) for chemical munition

 - g) When chemical munitions are used, an emergency responder will be on standby at a safe distance near the target area when feasible.
 - h) Chemical munitions are subject to the same procedural requirements as outlined in the Mille Lacs Band Tribal Police Department's UOF policy.

369.07 ARRESTS

1. If the crowd has failed to disperse after the required announcements and sufficient time to disperse, officers may encircle the crowd or a portion of the crowd for purposes of making multiple simultaneous arrests.
2. Persons who make it clear (e.g., by non-violent civil disobedience) that they seek to be arrested may be arrested and must not be subjected to other dispersal techniques, such as the use of batons or chemical agents.
