The applicant shall execute a release of information authorizing the results of the evaluation to be shared with the Healing Journey Team. The case manager shall accept any previously completed substance abuse assessment that remains current.
- (b) **Step 2.** After completion of the evaluation and development of treatment recommendations, the chemical dependency assessor shall send a full report to the case manager. The Healing Journey Team shall thereafter meet to determine whether to recommend the applicant for admission into the Family Healing to Wellness Court by evaluating:
 - (1) the results of the substance abuse assessment;
 - (2) the contents of the Child in Need of Protection or Services petition;
 - (3) the applicant's history of criminal behavior and domestic violence, if any; and

Applicants may meet with legal counsel for the same purposes. If the applicant is indigent and unable to retain legal counsel, the Court shall appoint an attorney to represent the applicant, if funding allows.
- (d) **Step 4.** Upon a showing that the applicant has voluntarily agreed to the wellness plan and all Healing Journey requirements, the judge may issue an order admitting the applicant into the Family Healing to Wellness Court.
- (e) **Filing Deadline.** The petition for admission to the Family Healing to Wellness Court must be filed on or before 120 calendar days from the CHIPS petition's filing date unless the judge authorizes admission at a later date.
- (f) **CHIPS Trial Continued.** Once an applicant is admitted into the Family Healing to Wellness Court prior to adjudication, the District Court CHIPS trial shall be continued until the applicant graduates or is terminated from the Healing Journey.

The Family Healing to Wellness Court may hold pre-trial and review hearings and issue orders as necessary for ongoing foster care funding and to ensure that the best interests of the child are being met.

- (g) **Re-admittance.** Any applicant previously terminated from the Family Healing to Wellness Court in accordance with § 313 of this chapter may not be re-admitted for a period of at least 30 days after termination.

§ 307. Monitoring.

- (a) **Wellness Plan Adherence.** After a participant is admitted into the Family Healing to Wellness Court, the case manager shall monitor the participant's adherence to the wellness plan and all other Healing Journey requirements. Monitoring may include, but is not limited to:
 - (1) regular meetings between the case manager and the participant;
 - (2) testing for alcohol and controlled substances;
 - (3) home visits;
 - (4) verification of participant's completion of phase requirements; and
 - (5) inquiries of treatment providers and probation or parole officers.

- (c) **Team meetings.** Members of the Healing Journey Team shall consistently attend team meetings to review participant progress, determine appropriate actions to improve outcomes, and prepare for status hearings. Team meetings are closed to participants and the public unless the Healing Journey Team determines that there is good cause for a participant to attend. With the participant's written consent, the Healing Journey Team may permit other persons to observe team meetings, provided that no identifying participant information shall be disclosed.

§ 308. Information.

- (a) **Information Sharing.** Participants shall provide voluntary, informed, and written consent about what information will be shared between members of the Healing Journey Team. Participant consent shall be obtained through the execution of a release of information, which shall comport with HIPAA and 42 CFR, Part 2.

- (b) **Confidentiality.** Any statement made by a Family Healing to Wellness Court participant shall not be used against the participant in a subsequent adversarial proceeding, except that statements made by a participant which pertain to any mandatory reporting, such as abuse or neglect of a child or vulnerable adult, must be used in accordance with 8 MLBS § 3143. Substance use, mental health, and other professional evaluations of a terminated participant may also be used in a subsequent District Court proceeding. All other records of the Family Healing to Wellness Court are confidential and shall not be disclosed except to the members of the Healing Journey Team. The Court Administrator shall cause to be maintained a separate confidential file for an applicant or participant's Family Healing to Wellness Court records.

§ 309. Hearings.

- (a) **Status Hearings.** The judge shall preside over status hearings for Healing Journey participants which shall be held on the schedule determined by the phases and as the Healing Journey Team determines necessary. Status hearings must be conducted in a strictly non-adversarial manner reflecting the Anishinaabe Values and adhering to the concept of Zhawenimaa. Matters to be considered at the hearing include:
- (1) whether the participant is attending required treatment sessions and is compliant with other components of the wellness plan;
 - (2) the participant's random alcohol and drug test results;
 - (3) the participant's own report of achievements made and challenges confronted; and
 - (4) the awarding of incentives for wellness plan progress; or
 - (5) the imposition of consequences for program non-compliance, after the participant has an opportunity to be heard regarding the non-compliant behavior.
- (b) **Judicial Decision-Making.** The judge shall make the final decision concerning the provision of incentives or imposition of consequences that affect a participant's program status after taking into consideration the recommendation of the other members of the Healing Journey Team and discussing the matter in court with the participant or the participant's legal counsel. The judge shall rely on the expert input of trained treatment professionals when imposing treatment-related conditions. If the judge believes that there is new evidence or other considerations that may affect the Healing Journey Team's initial recommendation, the judge shall confer with the rest of the team before providing an incentive or imposing a consequence other than the initial recommendation.

- (c) **Progressive Consequences.** Immediate, graduated, and individualized consequences shall govern the responses of the Healing Journey Team to each participant's noncompliance. Members of the Healing Journey Team shall consider recent and past behavior when responding to infractions. Consequences should be developed using a therapeutic approach, not a punitive approach, so as to encourage the participant's renewed program compliance.
- (d) **Opportunity to Respond.** The judge shall allow participants a reasonable opportunity to explain their perspectives concerning factual controversies and the imposition of consequences, incentives, and therapeutic adjustments. Participants shall receive a clear justification for why a particular consequence is being imposed. If a participant has difficulty expressing herself or himself because of such factors as a language barrier, nervousness, or cognitive limitation, the judge shall permit the participant's legal counsel or representative to assist in providing such explanations.
- (e) **Non-Medical Use of Substances.** Consequences shall be imposed for the non-medically prescribed use of drugs, including alcohol, cannabis, and prescribed pharmaceuticals, regardless of the licit or illicit status of the drug. The Healing Journey Team shall rely on medical advice to determine whether a prescription for an addictive or intoxicating medication is medically indicated and whether non-addictive, non-intoxicating, and medically safe alternative treatments are available. Consideration shall be given to the use of traditional Ojibwe healing medicines.
- (f) **Incentives.** The Healing Journey Team shall place as much emphasis on incentivizing productive behaviors as it does on substance abuse and other infractions. Criteria for phase advancement and graduation shall include objective evidence that participants are completing the requirements of their wellness plans.

§ 310. Drug and Alcohol Testing.

- (a) **Written Testing Procedures.** The Family Healing to Wellness Court shall have written policies and procedures governing sample collection, sample analysis, and result reporting for drug and alcohol testing. The testing policies and procedures shall address elements that contribute to the reliability and validity of the testing process. Urine specimens shall be routinely tested for evidence of dilution and adulteration.
- (b) **Notice of Testing.** Upon admittance to the Healing Journey, participants shall receive a clear and comprehensive explanation of their rights and responsibilities related to drug and alcohol testing.
- (c) **Random Testing.** All testing shall be random and conducted as needed in accordance with this chapter. Participants shall not receive more than an eight-hour notice of when a sample will be collected. For tests with short detection windows, such as oral fluid tests, specimens shall be provided within four hours after notification.

- (d) **Confirmation Tests.** If a participant denies substance use in response to a positive screening test, a portion of the same specimen shall be subjected to confirmatory analysis using an instrumented test, such as GC/MS or LC/MS.
- (e) **Availability of Results.** Test results from an instant drug or alcohol screening shall be made available to the case manager within two business days of administration. Results from a lab-tested screening shall be forwarded to the case manager as soon as practicable after receipt. When a positive test is received by the case manager, the Healing Journey Team shall be notified immediately.
- (f) **Refusal and Adulteration.** A participant's refusal to submit to testing, submission of a sample from another person, or production of an adulterated sample shall be treated as non-compliant behavior.
- (g) **Scope of Testing.** Drug or alcohol testing shall not be limited to a single drug of the participant's choice but shall regularly include a panel of drugs to detect a broad array of known drugs of use.
- (h) **Frequency of Testing.** The Healing Journey Team shall establish the required frequency of testing for each program phase with the understanding that, as a participant progresses, testing may be less frequent. An increase in the frequency of testing may be imposed upon the Healing Journey Team's reasonable suspicion of use or as a consequence for a participant testing positive for alcohol or prohibited drugs.

§ 311. Treatment Services.

- (a) **Continuum of Care.** The Healing Journey Team shall provide prompt access to a continuum of substance abuse and medical and mental health services based on a clinical assessment of the participant's treatment needs.
- (b) **Participant's Goals.** The Healing Journey Team shall, in collaboration with the participant, set individualized short and long-term goals based on the participant's wellness plan. A participant's progress through the Family Healing to Wellness Court phases and an individual's progress through those phases shall not be based solely upon pre-set court timelines.
- (c) **Adjustments to the Level of Care.** Adjustments to the level of substance abuse treatment and other care shall be predicated on each participant's response to treatment and shall not be tied to the programmatic phase structure. If a participant relapses or uses alcohol or a prohibited drug, the Healing Journey Team shall develop a remedial plan together with the participant to regain and maintain sobriety.
- (d) **Individualized Treatment.** Healing Journey participants shall be matched to services according to their specific needs. Treatment plans shall be individualized for each participant based on the results of the initial assessment and ongoing assessments.

Participants shall be reassessed at a frequency determined by the program and treatment plans may be modified or adjusted based on results.

- (e) **Provider Training and Credentials.** All chemical dependency and mental health treatment services shall be evidence-based and provided by licensed programs or individuals.
- (f) **Medication Assisted Recovery.** The Family Healing to Wellness Court may accept applicants taking medications to treat chemical dependency so long as the medication is prescribed by a trained and authorized addiction physician. The Family Healing to Wellness Court shall have policies specific to Medication Assisted Recovery and memoranda of understanding in place to ensure proper coordination with treatment and medical providers. The Healing Journey Team shall not require any participant to discontinue Medication Assisted Recovery unless clinical and medical assessment indicates that it is not appropriate for the participant or is no longer needed.
- (g) **Trauma-Informed Services.** Services provided to participants shall be trauma-informed when appropriate and clinically necessary to the degree that available resources allow. Participants shall be screened and assessed, as needed, for trauma history, trauma-related symptoms, and Post-Traumatic Stress Disorder.
- (h) **Concurrent Mental Health and Substance Abuse Treatment.** Mental health and substance abuse shall be treated concurrently using an evidence-based approach that focuses on mutually aggravating effects of the two conditions, when recommended by appropriate providers.

§ 312. Participant Services.

- (a) **Healing Services.** The Healing Journey Team shall refer participants for treatment and social services to address conditions that are likely to interfere with their response to substance abuse or mental health treatment, diminish long-term treatment gains, or negatively impact their parenting abilities. Depending upon participant needs, services may include housing assistance, trauma-informed services, criminal-thinking interventions, individual, family, or interpersonal counseling, vocational or educational services, cultural and traditional education and activities, transportation, and medical or dental treatment. Participants shall only be required to receive services for which they have an assessed need.
- (b) **Psychotropic Medications.** Applicants shall not be denied admittance into the Family Healing to Wellness Court because they are receiving lawfully prescribed psychotropic medication. Participants shall receive psychotropic medication based on a determination of medical necessity or medical indication by a qualified medical provider. Participants shall not be required to discontinue lawfully prescribed psychotropic medication as a condition of graduating from the Family Healing to Wellness Court.

- (c) **Family Participation.** If a participant wishes to enlist the help and support of a family member or friend to assist with progress on the wellness plan, the participant may do so as long as the necessary releases of information are executed. If the participant's co-parent, co-guardian, or co-custodian who is also a respondent in the child protection matter, or the participant's child, objects to the requested family member or friend accessing confidential information, no such information shall be released to that person.
- (d) **Overdose Prevention and Referral.** As early in the Healing Journey as feasible, participants shall complete a brief evidence-based educational curriculum describing concrete measures they can take to prevent or reverse overdose or poisoning from opioids, other drugs, or alcohol.
- (e) **Peer Support.** Where appropriate and feasible, the Healing Journey Team shall incorporate peer recovery support services which may include referrals to peer recovery support programs and cultural groups, the establishment of alumni groups, and the training of Healing Journey graduates as peer recovery support specialists.

§ 313. Termination.

- (a) **Grounds for Termination.** A participant may be terminated from the Family Healing to Wellness Court for any of the following reasons:
 - (1) persistent non-compliance or lack of progress on her or his wellness plan, non-compliance with Healing Journey requirements, drug test tampering, or lack of progress in treatment;
 - (2) commission of a violent crime, a crime endangering the safety or welfare of a child, or a crime committed in furtherance of the participant securing alcohol or other prohibited drugs;

 - (2) put into writing the termination recommendation and supporting rationale; and
 - (3) provide a copy of the termination recommendation to the participant and the participant's legal counsel, if any.
- (c) **Termination Hearing.** Upon the filing of the Healing Journey Team's written recommendation to terminate the participant from the Healing Journey, the judge shall:

 - (2) after conducting the hearing, issue a written order that terminates the participant from the Healing Journey; or
 - (3) if during the hearing, the judge receives evidence or is made aware of other considerations that may warrant not terminating the participant, after recessing the hearing to consult with the Healing Journey Team, may issue an order declining to terminate the participant from the Healing Journey.
- (d) **Evidentiary Hearing.** If the judge finds that an evidentiary hearing is necessary to determine whether to terminate a participant from the Healing Journey, the Office of the Solicitor General shall serve as the prosecutor.

The participant shall decide which individuals to invite to the ceremony, if any.
- (c) **Final Status Hearing.** A final status hearing will be held at which the Healing Journey Team's recommendation for the participant's graduation may be accepted by

the Court. If the judge accepts the recommendation, then the Court shall issue an order finding that the participant has successfully completed the Healing Journey.

- (d) **Graduation Certificate.** At the final status hearing, the judge shall issue a graduation certificate to the participant and provide a copy of the certificate to the Office of the Solicitor General. The Healing Journey Team should be prepared to offer comments and may give culturally meaningful gifts or tokens to the graduating participant.
