The Assistant Commissioner of Administration seconded the motion.

0- Against

The Commissioner of Administration asked about the high amount for the septic systems. The Commissioner of Community Development stated increased cost is generally related to soil issues of the area. He also stated the four rentals in D3 are the last of construction for this year in that area. There are still some funds available in D2 and D1 for rental construction.

**Executive Branch** 

FY 2016 & FY 2017 – OSG 100-215 - \$25,000.00 – request appropriation of funding to support a contract for legal services with Swanson, Drobnick & Tousey, P.C. as submitted (attachment #15)

The Commissioner of Education seconded the motion.

The Commissioner of Education stated the four budgets incurred expenditures in part during the previous school year and prior to receiving the approved budgets where they were excluded. The requests are to clean up the negatives and steps are being taken for laying off staff as the services will end due to funding not being available to sustain the programs. The Commissioner of Administration asked if other education budgets had been reviewed to use funding from those sources first, instead of requesting Net Revenue. The Commissioner of Education stated there isn't funding available but will review again.

The Commissioner of Education made a motion to remove the four Education budget appropriation requests from the agenda with no action taken.

The Assistant Commissioner of Administration seconded the motion.

Discussion of the remaining requests included the Executive Director of Natural Resources explaining the requests for the GIS and Recorder budgets are needed with the expansion of the land base and growing needs of the Real Estate department for services to Band members and departments. The expansion of the Fisheries budget is in response to a Joint Assembly regarding the health of Mille Lacs Lake along with surrounding lakes. The funds would support the hatchery as well as the purchase of equipment associated with dealing with the issues within the lake. Once the hatchery is established some expenses would be recouped by selling the fry. This will happen over time. The Biologist is currently working on possible grant funding and collaboration with several entities including GLIFWC and the U of M.

# INTEROFFICE MEMORANDUM

TO:

ADMINISTRATION POLICY BOARD AND BAND ASSEMBLY

FROM:

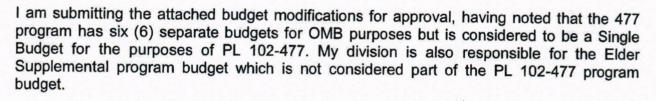

NICK KEDROWSKI, EXEC. DIR. OF WORKFORCE PROGRAMS

DATE:

**AUGUST 16, 2016** 

SUBJECT:

REQUEST FOR BUDGET TRANSFER AND MODIFICATION

The modifications that I am requesting affect all but one of these budgets and the correction to the over expended lines can be accomplished with modifications within the funds available in four (4) of the budgets. Two will necessitate the transfer of funds between budgets but both budgets are part of the P.L. 102-477 program budgets.

The budget funds will be coming from is the 280-638 budget which is the budget designated for the State Reimbursement funds for the expenditure of the TANF specific grant funds. These funds are to be used for program eligible participants.

The budget receiving the transfer is 280-676 which is used to track program expenditures for Work Experience Participants who are not eligible for direct TANF funding.

While not TANF eligible, the clients being paid through the 676 account are program eligible. I do not believe that it would violate any funding use provisions because the funds in the 638 account are not reported for TANF purposes per our OMB.

The breakdown of the transfer would be done thusly:

280-638-4000 — Currently Available: \$311,197.67 — Modifying \$19,100.00 within itself, and transferring \$120,000.00 to 280-676 as follows:

400 - Salaries \$40,000.00

4110 - Unemployment \$3,000.00

4300 - Contract Services \$57,000.00

9010 - IDC \$20,000.00

This results in a total decrease of \$139,100.00 from the 280-638-4000 leaving a balance of \$191,197.67 which is sufficient to fund the remainder of the fiscal year.

Thank you for your consideration and attention in this matter.

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED LISER The intended user of this appraisal report is the lender/client.

**DEFINITION OF MARKET VALUE:** The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions\* granted by anyone associated with the sale.

\*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: subject to the following assumptions and limiting conditions:

The appraiser's certification in this report is

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.
- 3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner

#### APPRAISER'S CERTIFICATION:

The Appraiser certifies and agrees that:

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
- 2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the property.
- 3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparation approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- 6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
- 8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
- 11. I have knowledge and experience in appraising this type of property in this market area.
- 12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
- 13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property.
- 15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending
- 19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no

DATE OF SALE/TIME: All comparables were sold within the past 12 months and required no adjustment in this grid.

SITE: Site adjustments are outlined on the Site and Other Adjustment addendum.

QUALITY OF CONSTRUCTION: The subject and all comparables appear to be similar in quality and required no adjustments in this grid.

EFFECTIVE AGE: Adjustments were made accordingly for differences in effective, not chronological age. Effective ages were based on visual inspection and information gathered from listing realtors and other resources deemed reliable. Age adjustments were based on \$1000 for each year difference in effective age.

CONDITION: The subject and all comparables appear to be similar in condition and required no adjustments in this grid.

BEDROOM/BATHROOM: Adjustments in the room count grid were made for differences in the number of bedrooms and bathrooms above grade. Bedroom count adjustments are based on \$1000 per bedroom. Bathroom adjustments are based on \$1500 per half bath and \$4000 per full bath, depending on the quality of the construction.

ABOVE GRADE ROOM COUNT/GLA: Any room count differences noted have been taken into consideration under square foot adjustment in the GLA grid. Gross living area adjustments were made using \$20 per square foot above grade. This appraiser measures all gross living area for each subject and does not rely on county or other sources of information for square footage. If this appraiser has appraised and measured any of the comparables used in this report, the gross living area square footage may be different than reported in MLS or county records.

BASEMENT/FINISHING: Comparables 2 and 3 were adjusted \$5 per square foot for differences in basement square footage and/or amount of finishing.

HEATING/COOLING: The subject has a new energy efficient heating system. The heating system is typical for the area and is intended for year-round occupancy. Electric, propane gas, natural gas, oil, wood and pellets are typical fuels used for heating systems in the area. Adjustments for central air conditioning were made using \$2000. Ductless mini-split air conditioning units are adjusted \$500. Window air conditioners are considered personal property and are not given a value in this report.

GARAGE STORAGE: Adjustments were taken accordingly for differences in garage storage and value. Condition, age, and garage size were considered, rather than just a per stall amount. Garages were adjusted at \$2,000-\$5,000 per stall, again keeping in mind the quality of the construction and amount of finishing.

PORCH/PATIO/DECK: Adjustments were taken accordingly for differences in porch/patio/deck value. Condition, type, age, size and number of each porch/patio/deck were considered as a combined value, rather than a per item amount.

FIREPLACES/WOODSTOVES: Adjustments were taken accordingly for differences in condition, type, size and number. Built-in fireplaces were adjusted \$2500. Free-standing fireplaces/woodstoves were adjusted \$1000 each.

OTHER AMENITIES: Adjustments were made accordingly for differences in amenities.

All other adjustments were taken as necessary and should be self explanatory.

#### FIRST PAGE CLARIFICATION:

Driveway: The number indicated is the number of vehicles that can enter the driveway at the same time from the road. Garage: The number indicated is the number of vehicles that can enter the garage at the same time from the driveway.

When making adjustments in the site grid, consideration was given to overall site value, rather than a per acre amount. Lakeshore values vary from lake to lake and site to site that can create large adjustments. These adjustments are typical for the area, may exceed 10% of the sale price and/or cause net and gross adjustments to exceed FNMA underwriting guideline limits.

Comparable 1 is located on 76 feet of sugar sand frontage on the northeast end of Mille Lacs Lake. It required some adjustment for its lesser amount of frontage.

Comparable 2 is located on 125 feet of gravel/sand frontage on the east side of Mille Lacs Lake. It required some adjustment for its greater amount of frontage and larger overall site.

Comparable 3 is located on 100 feet of rock and sand frontage on the north side of Mille Lacs Lake. With similar overall site size and value, it required no adjustment.

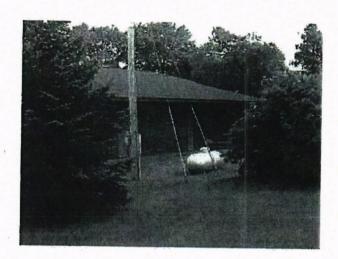

Comparable 4 is located on 115 feet of rock to sand frontage on a mostly wooded, level lot on the north end of Mille Lacs Lake. It required some adjustment for its larger site.

Listing 1 is an active listing located on a level, trapezoidal lot with 80 feet of sugar sand frontage. It required some adjustment for its lesser frontage and shallow access, offset some by its larger site size and sheltered location.

## PRIVACY NOTICE

Pursuant to the Gramm-Leach-Bliley Act of 1999, effective July 1, 2001, Appraisers, along with all providers of personal financial services are now required by federal law to inform their clients of the policies of the firm with regard to the privacy of client nonpublic personal information. As professionals, we understand that your privacy is very important to you and are pleased to provide you with this information.

## Types of Nonpublic Personal Information We Collect

In the course of performing appraisals, we may collect what is known as "nonpublic personal information" about you. This information is used to facilitate the services that we provide to you and may include the information provided to us by you directly or received by us from others with your authorization.

#### Parties to Whom We Disclose Information

We do not disclose any nonpublic personal information obtained in the course of our engagement with our clients to nonaffiliated third parties, except as necessary or as required by law. By way of example, a necessary disclosure would be to our employees, and in certain situations, to unrelated third party consultants who need to know that information to assist us in providing appraisal services to you. All of our employees and any third party consultants we employ are informed that any information they see as part of an appraisal assignment is to be maintained in strict confidence within the firm.

A disclosure required by law would be a disclosure by us that is ordered by a court of competent jurisdiction with regard to a legal action to which you are a party.

#### **Confidentiality and Security**

We will retain records relating to professional services that we have provided to you for a reasonable time so that we are better able to assist you with your needs. In order to protect your nonpublic personal information from unauthorized access by third parties, we maintain physical, electronic and procedural safeguards that comply with our professional standards to insure the security and integrity of your information.

Please feel free to call us an any time if you have any questions about the confidentiality of the information that you provide to us.

#### **NEIGHBORHOOD BOUNDARIES:**

The neighborhood boundaries include the Mille Lacs Lake area and all surrounding residential developments with residential acreage. The popular lakes area offers numerous year-round water related activities. Higher priced properties in this marketing area typically have lake frontage. This is a rural residential area in an area with both non-lakeshore and lakeshore properties being in average-to-good demand.

There is easy access to shopping, schools, employment centers in downtown Garrison and Onamia, as well as Brainerd to the subject's west. The neighborhood is in the heart of the one of the state's most popular tourist destinations. The neighborhood also has easy access to many recreational activities including: boating, fishing, golfing, and snowmobiling. Improvements of the subject property conform to the neighborhood. The neighborhood has no apparent adverse factors affecting the subject's marketability. Marketability of residential properties is good due to a limited supply and steady demand for properties with residential acreage.

#### **NEIGHBORHOOD DESCRIPTION:**

Marketability is average, and demand has been steady for properties similar to subject. No adverse conditions were noted in the neighborhood at time of appraisal inspection. In the subject's marketing area, some housing prices exceed \$800,000. A prominent value of \$150,000 is considered to be an average for the subject's marketing neighborhood. This includes all housing and should not be used to reference individual market values for properties due to a wide variety of homes and building sites in this marketing area.

#### **NEIGHBORHOOD MARKET CONDITIONS:**

Per the subject's MLS marketing district, statistics indicate that competitively priced listings are selling with an average marketing time of 2 to 6 months. Sellers are receiving 90-96% of asking price, indicating a current stabilizing market. Due to most sales occurring during the non-winter months, there are very few sales within the past 90 days at this time. This is consistent with historical trends for residential properties due to seasonal buyer trends with a majority of sales occurring during the months of May through October. Financing at the present time is readily available from a variety of sources, which benefits both potential buyers and sellers.

#### ADDITIONAL FEATURES:

The subject has average energy efficient windows that are typical for the area and are intended for year-round occupancy. In addition, features of the subject include a private well and septic system. Private wells and septic systems are typical for the area and do not adversely affect marketability of the subject property. Public connections are not available. The subject does have access to and connection with natural gas.

Typical easements have been considered in estimating market value. No adverse easements were noted at time of inspection. Special assessments, paid yearly, pertain to solld waste removal. They are typical for the area.

QUALITY AND CONDITION OF PROPERTY: The subject property is of average quality and in average condition.

#### COMMENTS ON SALES COMPARISON:

All comparables chosen have meaningful attributes, and a blended value conclusion was utilized. The location mapping program does not show all the area lakes; however the distances are accurate.

It should be noted that the quality and number of comparables are limited. It is this appraiser's judgment that the comparables displayed are the most comparable and the best indicators of value to the subject property that could be found at this time.

Only 2 similar sales were available within the past 90 days. Time parameters were extended up to 12 months which is very typical for appraising in the subject's market area. The initial comparable sales search focused on sales, listings, and pending sales with transaction dates within the past 3 months and located within 5 miles of the subject. Other attribute qualities searched for include properties having: GLA within 25% of the subject; similar site size and/or lake frontage on Mille Lacs Lake, similar age within a 10-year range; and similar design. The initial search resulted in no properties which met these exact parameters. The search parameters were then expanded to all sales, listings, and pending sales with transaction dates within the past 12 months, and expanded above grade GLA, age, site sizes, and design. Using the expanded search parameters a total of 7 properties were found, of which 4 sales were considered most comparable and included in the Sales Comparison Approach.

#### MLS PHOTOS:

Appraiser may not be able to take an original photo of every comparable used in this report. Appraiser may not have permission to trespass on the comparable private property in order to acquire an original quality photo. Some comparable properties are located down long private driveways, gated and/or viewing may be obstructed by trees. Also, there are times when a comparable is used based on information found in MLS and when the appraiser drove to the property, the home was removed/burned/torn down. Therefore, MLS photos for some comparables may be included for ease of visual comparison. MLS photos will be located directly after the comparable photo pages in this report.

#### DISCUSSION OF EXCEPTIONS TO FNMA GUIDELINES:

FNMA suggest comparables be within six months, one mile, and have gross adjustments less than 25%, net adjustments less than 15%, and individual adjustments exceeding 10%.

It was necessary to exceed the desired 6-month time guideline due to the limited sales for similar properties on Mille Lacs Lake. It is common and typical to have sales dating up to 12 months when appraising in this market area. The market is currently stable; thus time adjustments are not necessary.

It was necessary to exceed the desired 1-mile distance guideline due to the limited sales data and the scattered nature of residential developments with lake frontage. Distances up to 20 miles are common and typical when appraising homes in this marketing area. All comparables come from similar and competing neighborhoods and have similar appeal to the market. All comparables share similar commute times and support services, respectively, with the subject. Location adjustments are not required.

These exceptions are typical for the area and is not an indication of adverse market conditions.

The comparables used were the best available at time of appraisal inspection.

## COST APPROACH COMMENTS INCLUDING SUPPORT FOR THE OPINION OF SITE VALUE:

Cost estimates were derived from construction contracts, building contractors, office files, and the Marshall Swift cost of Service. The site value, as vacant, is based on market trends. Physical depreciation reflects physical wear and is based on age/life method with a total economic life of 75 years.

Estimated remaining economic is 50 years.

Land-to-value ratios for similar properties in the subject's area typically range from 10-30%. This is due to the average/good demand and limited supply for higher quality residential sites in this marketing area. The comparables used have similar land to value ratios. This is common and typical for this area.

The square footage is calculated on the sketch page.

The cost approach has only been developed by the appraiser as an analysis to support their opinion of the property's market value. Use of this data, in whole or part, for other purposes, is not intended by the appraiser. Nothing set forth in the appraisal should be relied upon for the purpose of determining the amount or type of insurance coverage to be placed on the subject property. The appraiser assumes no liability for and does not guarantee that any insurable value estimate inferred from this report will result in the subject property being fully insured for any loss that may be sustained. Further, the cost approach may not be a reliable indication of replacement or reproduction cost for any date other than the effective date of this appraisal due to changing costs of labor and materials and due to changing building codes and governmental regulations and requirements.

## ADDITIONAL COMMENTS:TRANSMITTAL LETTER AND FIRREA

No responsibility has been assumed for matters which are legal in nature, nor has any opinion on them been rendered, other than assuming marketable title. Liens and encumbrances, if any, have been disregarded and the property was appraised as though free of indebtedness.

- The intended user of this appraisal report is the Lender/Client. The intended use is to evaluate the property that is the subject of this appraisal for a possible purchase, subject to the stated scope of work, purpose of the appraisal, reporting requirements of this appraisal report form, and definition of market value. No additional intended users are identified by the appraiser, including the borrower or any other person or entity.
- 2. The legal description of the subject property can be found on the Legal Description page.
- 3. The reasonable marketing period for the subject property is 90 180 days.
- 4. The subject has not been sold within the past 3 years. The final value conclusion is in compliance with the market value defined herein.
- 5. The subject property was inspected on 7/10/2016. The report was prepared on 7/25-27/2016. The effective date of the appraisal is 7/10/2016.
- 6. The subject is an existing structure. This appraisal is being made "as is".
- 7. Personal property was not included in the appraised value.
- We have considered all three approaches to value. The income approach was not utilized due to lack of reliable rental data of single family homes in this neighborhood.
- The subject is a single family, residential property. It is not currently rented. Revenues, expenses, and/or vacancies do not apply.
- 10. Current and future employment or compensation is not contingent upon the reporting of a predetermined value of direction in value that favors the cause of the client, the amount of the value estimate, the attainment of stipulated result or the occurrence of a subsequent event.
- 11. This appraisal report was completed in conformity with the Uniform Standards of Professional Appraisal Practice.
- 12. If the photos included in this appraisal are digital/electronic images, they have not been enlarged, enhanced or altered in any way to be misleading. People, realty signs and inappropriate images caught in photos are expunged.
- 13. If electronic/digital signatures are used, it has been ruled acceptable appraisal practice by the USPAP.
- 14. Per USPAP, it must be disclosed if the appraiser has previously inspected the property in the past 3 years. The subject has not been appraised by the appraiser within the past 3 years (from date of inspection).
- 15. Exposure: The exposure time for a good sale would range from 30 to 180 days depending on marketing strategy, time of year, motivation and pricing.
- 16. The subject property is residential with no commercial business being conducted at the time of inspection.

RE: Appropriations for 1 Property in District 2 (2016 FY)

Cc: Lisa Johnson, Director of Real Estate

The Real Estate Department is requesting appropriations from the permanent initiative fund for fiscal year 2016 in the amount of \$73,000.00 for approximately 36.90 acres more or less located adjacent to Apple Orchard 2. The Band has been trying to acquire the property since 2003. The issue has always been the price. In 2003 we did an appraisal for this property along with the 40 acres to the south and the value came back at \$94,000.00. Currently we are only looking at the 36.9 acres and the market value for the property is at \$43,900 per Aitkin County. They are asking 78,900.00 which is far too high. We have negotiated a price of 65,809.00. It was purchased in 2004 for \$60,000.00. This would be a good piece to acquire because we can provide city sewer through the Band's infra structure in D2. Even with paying a higher value than what the county has the property listed at, it would be a good acquisition for potential future development. The remainder of the money would be used for closing costs and environmental work. \$71,000 would go in line item 250-595-7302 and \$2,000.00 is to be placed in line item 250-595-4300. If there are any questions please contact Lisa Johnson, Director of Real Estate at ext. 7552.

Seller, upon cancellation of this Purchase Agreement. 137.
- An Abstract of Title certified to date if Abstract Property or a Registered Property Abstract (RPA) certified to date 138. (2) if Registered (Torrens) Property. Seller shall pay for the abstracting or RPA costs and deliver any abstract for 139. this Property in Seller's possession or control to Buyer or Buyer's designated title service provider. Any abstract 140. provided shall be immediately returned to Seller, or licensee representing or assisting Seller, upon cancellation of 141. this Purchase Agreement. If Property is Abstract and Seller does not have an abstract of title, Option (1) will 142. automatically apply. 143.
- Seller shall use Seller's best efforts to provide marketable title by the date of closing. In the event that Seller has not 145. provided marketable title by the date of closing, Seller shall have an additional 30 days to make title marketable or, in 146. the alternative, Buyer may waive title defects by written notice to Seller. In addition to the 30-day extension, Buyer 147. and Seller may by mutual agreement further extend the closing date. Lacking such extension, either party may declare 148. this Purchase Agreement canceled by written notice to the other party, or licensee representing or assisting the other 149. party, in which case this Purchase Agreement is canceled. If either party declares this Purchase Agreement canceled, 150. Buyer and Seller shall immediately sign a Cancellation of Purchase Agreement confirming said cancellation and 151. directing all earnest money paid hereunder to be refunded to Buyer.
- 152. SUBDIVISION OF LAND, BOUNDARIES, AND ACCESS: If this sale constitutes or requires a subdivision of land 153. owned by Seller, Seller shall pay all subdivision expenses and obtain all necessary governmental approvals. This 154. provision deals with the necessity of subdividing land to complete the sale of the Property described herein in contrast 155. to the subdivision provision of lines 55-56 which deals with the future development plans of Buyer. Seller warrants the legal description of the real Property to be conveyed has been or shall be approved for recording as of the date of 157. closing. Seller warrants that there is a right of access to the Property from a public right of way.
- 158. MECHANIC'S LIENS: Seller warrants that prior to the closing, payment in full will have been made for all labor, 159. materials, machinery, fixtures or tools furnished within the 120 days immediately preceding the closing.
- 160. NOTICES: Seller warrants that Seller has not received any notice from any governmental authority as to condemnation 161. proceedings or violation of any law, ordinance or regulation. If the Property is subject to restrictive covenants, Seller 162. warrants that Seller has not received any notice from any person or authority as to a breach of the covenants. Any 163. such notices received by Seller shall be provided to Buyer immediately.
- 164. DIMENSIONS: Buyer acknowledges any dimensions, square footage or acreage of land or improvements provided 165. by Seller, third party, or broker representing or assisting Seller are approximate. Buyer shall verify the accuracy of 166. information to Buyer's satisfaction, if material, at Buyer's sole cost and expense.
- 167. ACCESS AGREEMENT: Seller agrees to allow Buyer reasonable access to the Property for performance of any 168. surveys, inspections or tests or for water, sewer, gas or electrical service hookup as agreed to herein. Buyer shall 169. restore the premises to the same condition it was in prior to the surveys, inspections or tests and pay for any restoration 170. costs relative thereto.
- 171. RISK OF LOSS: If there is any loss or damage to the Property between the date hereof and the date of closing for 172. any reason, including fire, vandalism, flood, earthquake or act of God, the risk of loss shall be on Seller. If the Property 173. is destroyed or substantially damaged before the closing date, this Purchase Agreement is canceled, at Buyer's 174. option, by written notice to Seller or licensee representing or assisting Seller. If Buyer cancels this Purchase Agreement, 175. Buyer and Seller shall immediately sign a Cancellation of Purchase Agreement confirming said cancellation and 176. directing all earnest money paid hereunder to be refunded to Buyer.
