Project Narrative:

This project will consist of remodel of our Lake Lena Dental Clinic for installation of new dental equipment. Work in general will include general interior finish replacement, flooring, painting, ceiling tile, casework, light fixture replacement. Work will include concrete floor cutting and patching to accommodate underground electrical and plumbing connections, air and vac to the new dental chair locations. Work will also include minor electrical / low voltage modifications for new equipment and accessories.

Work Scope:

1. Provide labor to remove existing dental equipment from the dental space including two dental chairs, two rear consoles and center divider console. Disconnect all utilities. Store equipment on site per Owner direction.
2. Utilize Owner provided equipment templates to locate new underground utilities to be moved and modified, including water supply, air, vacuum, N20, O2 and electrical receptacles. Plumbing subcontractor must have medical gas certification.
3. Layout and cut existing concrete floor slab to accommodate the underground utilities modifications to the new chair locations.
4. Patch concrete floor areas disturbed. Remove remaining floor coverings and cove base in the dental space and grind surfaces clean for new flooring installation.
5. Install new LVT and 4" vinyl wall base throughout the space. LVT: Shaw Contract Solitude 6"x48" plank fully adhered. Provide samples to Owner for color selection.
6. Modify electrical receptacles and low voltage connections for new equipment locations.
7. Selectively demo finished wall spaces and install backing support, electrical modifications, etc. for dental equipment installation. Restore drywall finishes.
8. Remove interior signage, wall attached accessories, etc. Remove vinyl wall covering, patch, skimcoat and paint all drywall surfaces within the dental space. Re-install wall mounted accessories and signage.
9. Provide and install custom casework base cabinet as shown in operatory 145.
10. Remove lower interior window sills (2). Cut down or install new matching window sill to be flush with the under sill trim.
11. Provide and install ceiling track mounted medical curtain mounted between the two dental stations and dividing casework.
12. Demo and replace interior ceiling troffer light fixtures. 2x4 Troffer / Lay-in Fixture: Lithonia 2ALL4 CTRF Match current building lighting circuit voltage. Convert existing recessed can lights to LED.
13. Medical Records Room 132: See plan for notes. Selectively demo casework, flooring, cabinet lighting, vinyl wall covering and acoustical ceiling to accommodate a new partition wall. Construct new partition wall, including backing and electrical to accommodate the new Panoramic Imaging equipment location. Skimcoat, tape, finish and paint. Replace flooring in

the space with LVT and vinyl base. New partition wall location will be determined by equipment supplier for clear space requirements. Restore finishes on the medical records side of the new partition wall.

14. Contractor shall include a contingency allowance line of \$15,000.00 to be utilized by the Owner for project scope changes, unforeseen conditions or otherwise unspecified work. Contractor shall submit any change request to the Owner for review/approval before commencing with any additional work that will be paid from the contingency allowance line.
